### LLOYDS TSB COVERED BONDS LLP MEMBERS' REPORT FOR THE YEAR ENDED 31 DECEMBER 2012

On behalf of the members of Lloyds TSB Covered Bonds LLP (the 'LLP'), the Management Board presents the members' report and audited financial statements for the year ended 31 December 2012

#### PRINCIPAL ACTIVITIES

The LLP is a special purpose vehicle whose business is the acquisition, management and sale of mortgage loans and their related security, and to guarantee the bonds (the 'Covered Bonds') issued by Lloyds TSB Bank plc ('LTSB') The mortgage loans and the funding to acquire these loans originate from LTSB, which is a subsidiary of Lloyds Banking Group ('LBG')

The activities of the LLP are conducted primarily by reference to a series of transaction documents (the 'Programme Documentation') The structure has been established as a means of raising finance for LTSB and no business activities will be undertaken by the LLP beyond those set out in the Programme Documentation.

On 22 October 2008, the LLP initially acquired a £12bn beneficial interest in a mortgage loan portfolio originating from LTSB and has acquired further beneficial interests in mortgage loan portfolios in subsequent years. In consideration for the beneficial interest of the mortgage loan portfolio, the LLP is required to give a combination of

- a cash payment to LTSB from the proceeds of the term loans,
- ii a record of a capital contribution in kind being made by LTSB, and
- deferred consideration which will be paid by the LLP on each LLP payment date in accordance with the relevant priority of payments

The programme allows a maximum Covered Bond issuance, providing that the mortgage loan portfolios acquired and other assets available meet the Asset Coverage Test (the 'ACT'), which states that the adjusted aggregate amounts of mortgage loans and other assets must be of an amount equal to or greater than the total amount of Covered Bonds in issue after taking into account other deductions

The Covered Bonds are issued in various currencies by LTSB, with the proceeds being paid across to the LLP on issuance by way of term loans. The sterling equivalent amount of the Covered Bonds in issue at 31 December 2012 was £22 09bn (2011 £10 94bn). At 31 December 2012, the total value of the mortgage loan portfolio held by the LLP was £33 27bn (2011 £18 86bn).

#### **BUSINESS REVIEW AND FUTURE DEVELOPMENTS**

The results for the year are disclosed on page 10 The LLP made a profit of £3,000 during the year (2011 £3,000) No change to the current business activity is expected

#### **DESIGNATED MEMBERS**

The designated members during the year and up to the date of signing the financial statements were as follows

Lloyds TSB Bank plc Lloyds TSB Covered Bonds (LM) Limited

#### **MANAGEMENT BOARD**

The members on the LLP Management Board during the year and subsequently were

Alasdair Lenman (resigned 1 December 2012) Edward Short Gary Staines Monica de Vries Ian Stewart (appointed 28 March 2012)

#### **MEMBERS' INTERESTS**

The policy regarding the allocation of profits to members and the treatment of capital contributions is set out in note 1 (significant accounting policies)

#### STATEMENT OF MEMBERS' RESPONSIBILITIES

The members are responsible for preparing the members' report and the financial statements in accordance with applicable law and regulations

Company law as applied to limited liability partnerships by the Limited Liability Partnerships (Accounts and Audit) (Application of Companies Act 2006) Regulations 2008 (the 'Regulations') requires the members to prepare financial statements for each financial year Under that law the members have prepared the partnership financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union Under company law as applied to limited liability partnerships the members must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the partnership and of the profit or loss of the partnership for that period. In preparing these financial statements, the members are required to

- select suitable accounting policies and then apply them consistently,
- · make judgements and accounting estimates that are reasonable and prudent,
- state whether applicable International Financial Reporting Standards (IFRSs) as adopted by the European Union have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the partnership and group will continue in business,

The members are responsible for keeping adequate accounting records that are sufficient to show and explain the partnership's transactions and disclose with reasonable accuracy at any time the financial position of the partnership and enable them to ensure that the financial statements comply with the Companies Act 2006 as applied to limited liability partnerships by the Regulations. They are also responsible for safeguarding the assets of the partnership and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

#### **RISK MANAGEMENT**

All of the LLP's assets and liabilities have been classified as financial instruments in accordance with IAS 32 'Financial Instruments Presentation' The LLP's financial instruments comprise a deemed loan to the originator of the mortgages (equivalent to the value of it's investment in the mortgages), cash and liquid resources, term loans and various other receivables and payables

The principal risks arising from the LLP's financial instruments are credit risk, liquidity risk, interest rate and currency risk. These and other risks which may affect the LLP's performance are detailed below. Further analysis of the risks facing the LLP in relation to its financial instruments and the LLP's financial risk management policies is provided in note 9.

#### **RISK MANAGEMENT (CONTINUED)**

#### Credit risk

Credit risk arises on the individual loans within the mortgage loan portfolio which are in turn secured on the underlying UK residential properties. The performance of these loans is therefore influenced by the economic background and the UK housing market

#### Liquidity risk

The ability of the LLP to meet its obligations to make principal and interest payments on the term loans and to meet its operating and administrative expenses is dependent on the amount and timing of the interest and principal repayments on the mortgage loans which support the deemed loan to the originator

In the event that sufficient funds are not available to redeem the term loans or make the interest payments due, an amount equal to such a shortfall will be deferred until such funds are received. To the extent that the income on the deemed loan to originator does not provide sufficient funds, the LLP has no other claim on the assets of LTSB.

The LLP has made all necessary payments on the term loans in accordance with the scheduled repayment dates for the year ended 31 December 2012

#### Interest rate and foreign currency rate risk

Interest rate and foreign currency rate risk is the possibility that changes in interest rates and foreign currency rates will result in higher financing costs and/or reduced income from the LLP's interest bearing financial assets and liabilities

The mortgage loans in the cover pool comprise sterling loans which are subject to variable rates of interest set by LTSB based on general interest rates and competitive considerations, loans which track the Bank of England base rate and loans which are subject to fixed rates of interest. To mitigate the changes in interest and foreign currency rates that may result in the cashflows from the mortgage pools being insufficient to meet the payments under the term loans, the LLP has entered into currency and interest rate basis swaps with LTSB. The basis swaps substantially eliminate the sensitivity to movements in interest rates and the currency swaps eliminate the sensitivity to movements in foreign currency rates. These are not separately recognised in the financial statements as they are incorporated into the deemed loan.

#### Operational risk

The LLP is also exposed to operational risks through a number of contracts with third parties who have agreed to provide operational support to the LLP in accordance with the Programme Documentation. Structured Finance Management Limited ('SFM') has been appointed to provide corporate services in accordance with a corporate services agreement dated 20 October 2008. LTSB has been appointed to act as account bank, and since 19 April 2012 as servicer and cash manager. Prior to that, Cheltenham and Gloucester plc ('C&G'), a subsidiary of LTSB, acted as servicer and cash manager on behalf of the LLP.

#### **RISK MANAGEMENT (CONTINUED)**

#### **Business risk**

The principal business risks of the LLP are set out in a number of trigger events in the Programme Documentation, including some which relate to the underlying performance of the mortgage pool. The occurrence of trigger events may lead to a different priority of payments of the bonds in accordance with established priorities. There have been no such trigger events since inception of the Programme.

#### POLICY AND PRACTICE ON PAYMENT OF CREDITORS

The majority of the LLP's payments are in relation to the term loans and swaps and are due monthly in accordance with the terms of the loans and swaps. Payments are subject to the receipt of principal and interest on the underlying mortgage pool and were made on the due dates.

The LLP's policy is to agree terms of payment with suppliers and these normally provide for settlement within 30 days after the date of the invoice, except where other arrangements have been negotiated. It is the policy of the LLP to abide by the agreed terms of payment, provided the supplier performs according to the terms of the contract.

#### **EMPLOYEES**

The LLP has employed no staff during the year ended 31 December 2012 or the previous year

#### INDEPENDENT AUDITORS

Pursuant to section 487 of the Companies Act 2006, auditors duly appointed by the members of the LLP shall, subject to any resolution to the contrary, be deemed to be reappointed for the next financial year and PricewaterhouseCoopers LLP will therefore continue in office

#### DISCLOSURE OF INFORMATION TO AUDITORS

So far as the members are each aware, there is no relevant audit information of which the LLP's auditors are unaware, and each member has taken all the steps that they ought to have taken as a member to make themselves aware of any relevant audit information and to establish that the LLP's auditors are aware of that information

This confirmation is given, and should be interpreted, in accordance with the provisions of section 418(2) of the Companies Act 2006

#### STATEMENT OF GOING CONCERN

As set out in the statement of compliance in the significant accounting policies section of the notes to the financial statements, the members are satisfied that the LLP has adequate resources to continue in business for the foreseeable future and consequently the going concern basis continues to be appropriate in preparing the financial statements

#### **POST BALANCE SHEET EVENTS**

On 11<sup>th</sup> March 2013 the Series 2011-7 bond issuance matured as scheduled. As a result of this the term advance held on the balance sheet of the LLP reduced by the same amount

### LLOYDS TSB COVERED BONDS LLP INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF LLOYDS TSB COVERED BONDS LLP

We have audited the financial statements of Lloyds TSB Covered Bonds LLP for the year ended 31 December 2012 which comprise the Statement of Comprehensive Income, the Balance Sheet, the Statement of Changes in Members' Other Interests, the Cash Flow Statement and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union

#### Respective responsibilities of members and auditors

As explained more fully in the Statement of Members' Responsibilities set out on page 4, the members are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the members of the partnership as a body in accordance with the Companies Act 2006 as applied to limited liability partnerships by the Limited Liability Partnerships (Accounts and Audit) (Application of Companies Act 2006) Regulations 2008 and for no other purpose We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing

#### Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the limited liability partnership's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the designated members, and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the members' report and financial statements to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

#### Opinion on financial statements

In our opinion the financial statements

- give a true and fair view of the state of the limited liability partnership's affairs as at 31 December 2012 and of its profit and cash flows for the year then ended,
- have been properly prepared in accordance with IFRSs as adopted by the European Union, and
- have been prepared in accordance with the requirements of the Companies Act 2006 as applied to limited liability partnerships by the Limited Liability Partnerships (Accounts and Audit) (Application of Companies Act 2006) Regulations 2008

### LLOYDS TSB COVERED BONDS LLP INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF LLOYDS TSB COVERED BONDS LLP

#### Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 as applied to limited liability partnerships requires us to report to you if, in our opinion

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us, or
- the financial statements are not in agreement with the accounting records and returns, or
- we have not received all the information and explanations we require for our audit

The notes on pages 15 to 36 form an integral part of these financial statements

#### 1. SIGNIFICANT ACCOUNTING POLICIES

#### (a) Statement of compliance

The financial statements for the year ended 31 December 2012 have been prepared in accordance with International Financial Reporting Standards (IFRSs) and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC) as adopted by the European Union. The standards applied by the LLP are those endorsed by the European Union and effective at the date the financial statements are approved by the members. The financial statements comply with IFRSs.

The accounting policies have been applied on a consistent basis. The financial statements also comply with the relevant provisions of Part XV of the Companies Act 2006, as applying to Limited Liability Partnerships.

The financial statements are presented in Sterling which is the LLP's functional and presentation currency and have been prepared on the historical cost basis

#### (b) Interest receivable and payable

Interest receivable and similar income and interest payable and similar charges have been calculated using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or liability and of allocating the interest income or interest expense over the expected life of the financial instrument. The effective interest rate is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset or financial liability.

#### (c) Financial instruments

The LLP's financial instruments principally comprise a deemed loan to LTSB (equivalent to the value of the LLP's investment in mortgages), cash and liquid resources, loans and borrowings and various other receivables and payables that arise directly from its operations. The main purpose of these financial instruments is to raise finance for LTSB. These financial instruments are classified in accordance with the principles of IAS 39 as described below.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (c) Financial instruments (continued)

#### (c)(ı) Deemed loan to originator

Under IFRS, if a transferor retains substantially all the risks and rewards associated with the transferred assets, the transaction is accounted for as a financing transaction, notwithstanding that it is a sale transaction from a legal perspective. The members of the LLP have concluded that LTSB has retained substantially all the risks and rewards of the pool of mortgage loans and as a consequence, the LLP does not recognise the mortgage loans on its Balance Sheet but rather a deemed loan to originator, where recourse to LTSB is limited to the cash flows from the mortgage loans and any additional credit enhancement provided by LTSB.

The initial amount of the deemed loan to LTSB corresponds to the consideration paid by the LLP for the mortgage loans. The LLP recognises principal and interest cash flows from the underlying pool of mortgage loans only to the extent that it is entitled to retain such cash flows. Cash flows attributable to LTSB are not recognised by the LLP.

The deemed loan to originator is classified within 'loans and receivables' in accordance with IAS 39. The initial measurement is at fair value with subsequent measurement being at amortised cost using the effective interest method. The effective interest on the deemed loan is calculated with reference to the interest earned on the beneficial interest in the mortgage portfolio less the residual interest due to LTSB. Under the terms of the mortgage sale agreement, LTSB retains the right to receive excess income arising on those loans, as deferred consideration, after certain higher priority payments have been met by the LLP

#### Impairment of financial assets

The deemed loan to the originator is subject to impairment reviews in accordance with IAS 39 A charge for impairment would be recognised where there is a risk that the income on the deemed loan is insufficient to meet the liabilities of the LLP. This could occur if the credit quality of the mortgage assets that are pledged as collateral for the loan significantly deteriorated. Taking into account the credit enhancement provided by, amongst other features, the overcollateralisation of the LLP, the members currently consider that no impairment exists.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- (c) Financial instruments (continued)
- (c)(i) Deemed loan to originator (continued)

#### Swaps with originator

The deemed loan consists of the failed sale of the sterling mortgage assets, an interest rate swap and foreign currency/basis swaps to match the receipts from the mortgage assets to the currency and interest rate basis of the term loans

Interest rate risk associated with the deemed loan to the originator is managed by means of an interest rate basis swap with LTSB, which requires the LLP to pay an amount calculated with reference to the interest received on the beneficial interest in the mortgage portfolio and receive payments based on a rate linked to one-month Sterling LIBOR

Foreign currency and further basis risk between the mortgage assets and the term loans from the originator is managed by means of foreign currency and basis swaps with LTSB These require the LLP to pay sterling floating rate and receive amounts which match the currency and rates of the term loans

These swaps are not recognised separately as financial instruments as the amounts payable under each swap reflect interest flows from the mortgage loans which are not recognised by the LLP for accounting purposes. Instead, the deemed loan to LTSB is recognised with an effective interest rate and currency which incorporate the net amounts received or paid under the swaps.

Interest receivable or payable on the swaps is accounted for on an accruals basis within interest on the deemed loan

#### (c)(ii) Cash and cash equivalents

The LLP holds deposits with the provider of a Guaranteed Investment Contract bank account and a transaction bank account with the same provider. These accounts are held in the LLP's name and meet the definition of cash and cash equivalents. All cash disclosed on the face of the Balance Sheet is restricted by a detailed priority of payments set out in the transaction documents governing the activities of the LLP (the 'Programme Documentation'). As the cash can only be used to meet certain specific liabilities and is not available to be used with discretion, it is viewed as restricted cash.

These bank accounts are classified as 'loans and receivables' in accordance with IAS 39 and income is being recorded within interest receivable and similar income using the effective interest method

#### 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (c) Financial instruments (continued)

#### (c)(iii) Foreign currency

The bonds secured against the LLP are denominated in Euro, Sterling, Norwegian Kroner and Swedish Kronor The members consider Sterling to be the LLP's functional currency, as it most closely represents the economic effects of its underlying transactions, and the financial statements are presented in Sterling

Foreign currency transactions are translated into Sterling using the exchange rate prevailing at the date of the relevant transaction. All foreign currency balances existing at the Balance Sheet date are translated into Sterling using the exchange rate at that date.

#### (c)(iv) Financial guarantees

Financial guarantees are contracts that require the LLP to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument

Where the LLP enters into financial guarantee contracts to guarantee the indebtedness of LTSB, the LLP treats such guarantee contracts as a contingent liability until such time as it becomes probable that the LLP will be required to make payments under the guarantee

#### (c)(v) Loans and borrowings

Loans and borrowings are recognised initially at fair value less directly related incremental transaction costs. Subsequent to initial recognition, loans and borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest basis. The term loans (equivalent to the proceeds of the Covered Bonds issued) which are received from LTSB are also accounted for on this basis.

Capital contributions from members are non-interest-bearing but a nominal profit share amount is paid out in accordance with the priority of payments (see (d) below) and included as part of profit for the financial year available for division amongst members

#### (d) Contributions and drawings

Under the terms of the Programme Documentation for the sale of the mortgage loans, LTSB is treated as having made a capital contribution to the LLP in an amount equal to the difference between the current balance of the loans sold at each transfer date and the cash payment made by the LLP for the loans and relevant security on that transfer date. The outstanding capital contributions are not reflected in the financial statements of the LLP as there has been no sale of mortgages for accounting purposes.

#### 1 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (d) Contributions and drawings (continued)

LTSB may from time to time make cash contributions to the LLP which will constitute cash capital contributions. No interest is paid on the members' capital balances. Capital distributions may only be made in accordance with the Programme Documentation where sufficient principal receipts are available and higher priority payments have been made.

Under the priority of payments, payment to the members of the sum of £3,000 in aggregate (or such other sum as may be agreed by members from time to time), is allocated to each member in proportion to their respective capital contribution balances as at the relevant calculation date, subject to a minimum of £1 each, as their profit for their respective interests as members in the LLP

During the year £2,999 was allocated to LTSB and £1 was allocated to Lloyds TSB Covered Bonds (LM) Limited

#### (e) Segment reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is engaged in providing products or services within a particular economic environment that is subject to risks and returns that are different from those segments operating in other economic environments

The members of the LLP consider that the entity has only one geographical and one business segment and therefore is not required to produce additional segmental disclosure

#### (f) Critical accounting estimates and judgements

The preparation of the financial statements necessarily requires the exercise of judgement both in the application of accounting policies and in the selection of assumptions used in the calculation of accounting estimates. The members do not consider there to be any critical accounting estimates or judgements due to the straightforward nature of the accounting

All assets and liabilities are recognised on an amortised cost basis that is considered to be a close approximation to fair value

#### (g) Taxation

Taxation on all partnership profits is solely the personal liability of individual members, consequently, neither taxation nor related deferred taxation are accounted for in these financial statements

#### (h) Related parties

In accordance with the provisions of IAS 24 'Related Party Disclosures', the LLP has disclosed details of transactions with its related parties, LTSB, C&G and SFM

#### 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (ı) Other payables

Other payables are stated at cost, or at amortised cost if deemed to be a financial liability

#### (j) Value added tax

Value added tax is not recoverable by the LLP and is included with its related cost

#### 2 INTEREST RECEIVABLE AND SIMILAR INCOME

	For the year ended 31 December 2012 £000	For the year ended 31 December 2011 £000
Interest receivable on deemed loan	709,804	383,298
Bank interest receivable	3,882	15,763
	713,686	399,061
3. INTEREST PAYABLE AND SIMILAR CHARGES		
	For the year ended 31 December 2012 £000	For the year ended 31 December 2011 £000
interest payable on term loans	706,414	385,281

#### 4. OPERATING EXPENSES

	For the year ended 31 December 2012 £000	For the year ended 31 December 2011 £000
Administration charges	7,244	13,750
Audit fees	15	18
Asset monitor fees	10	9
	7,269	13,777

Audit fees relate to the statutory audit Asset monitor fees are also payable to the auditors and their associates for services in relation to their role as asset monitor. The LLP had no employees during the year (2011 none) Included in administration charges is a management fee for administration services charged by C&G and a corporate service fee charged by SFM. In April 2012 the administration services carried out by C&G were taken over by LTSB and the subsequent fees charged have been included within the deemed loan interest.

#### 5. DEEMED LOAN TO ORIGINATOR

The mortgage portfolio, which is accounted for as a deemed loan to originator and in which the LLP holds a beneficial interest, is held by LTSB. The mortgage loans are secured on residential property in England, Wales and Scotland. Mortgages in the pool have to fulfil certain criteria. If they fail to do so they are removed from the pool and the pool may be replenished.

	2012 £000	2011 £000
Deemed loan to originator	21,614,910	10,717,487

#### 6. LOANS AND BORROWINGS

Loans and borrowings comprise a series of term loans from LTSB, equivalent to the amounts raised under the Covered Bond Programme. The term loans are held in a number of different currencies and have interest charged on either a fixed rate basis or at a rate set in reference to LIBOR for one month sterling deposits.

LTSB will not be relying on repayment of any term loan by the LLP nor the interest thereon in order to meet its repayment or interest obligations under the Covered Bonds. The term loans will not be repaid by the LLP until amounts payable under the corresponding series of Covered Bonds have been repaid. Amounts owed by the LLP will be paid in accordance with the priority of payments as detailed in the Programme Documentation.

The Covered Bonds issued by LTSB are unconditionally guaranteed by the LLP. Under the terms of the Trust Deed, the LLP has provided a guarantee as to payments of interest and principal under the Covered Bonds, where amounts would otherwise be unpaid by LTSB. The obligations of the LLP under its guarantee constitute direct obligations of the LLP secured against the assets from time to time of the LLP and recourse against the LLP is limited to such assets. The principal asset is the beneficial interest in the mortgage loans acquired from LTSB.

Principal Term loans with LTSB	2012 £000	2011 £000
EUR - priced against 1 month Euribor Weighted average margin +1 23% (2011 +0 85%)	7,086,913	795,055
GBP - priced against 1 month Libor Weighted average margin +1 63% (2011 +1 08%)	1,045,000	45,000
SEK - priced against 1 month Stibor Weighted average margin +0 93% (2011 +0 93%)	52,245	51,629
EUR – fixed rate Weighted average rate 3 73% (2011 3 76%)	9,751,966	8,610,027

#### 9 MANAGEMENT OF RISK

All of the LLP's assets and liabilities have been classified as financial instruments in accordance with IAS 32 'Financial Instruments Presentation'

The LLP's financial instruments principally comprise a deemed loan to LTSB (equivalent to the value of the LLP's investment in LTSB mortgages), cash and liquid resources, loans and borrowings and various other receivables and payables that arise directly from its operations

The principal risks arising from the LLP's financial instruments are credit risk, foreign currency and interest rate risk and liquidity risk. Further detailed analysis of the risks facing the LLP in relation to its financial instruments is provided below.

The LLP's exposure to risk on its financial instruments and the management of such risk is largely determined at the initial set-up of the LLP. The LLP's activities and the role of each party to the transaction is clearly defined and documented. Cash flow modelling, including multiple stress scenarios, is carried out as part of the structuring of the transaction.

In addition interest rate swaps and foreign currency swaps have been entered into with the originator as part of the transaction to hedge interest rate and foreign currency risks arising in the transaction including the obligations under the term loans. The derivative counterparty is selected as a regulated financial institution and this reduces the risk of default and loss for the LLP. Additional credit protection may be afforded by the requirement for the derivative counterparties to post collateral in the event of a downgrade to a counterparty's credit rating

Following initial set-up, the Management Board monitor the LLP's performance, reviewing monthly reports on the performance of the mortgages. Such review is designed to ensure that the terms of the Programme Documentation have been complied with, that no unforeseen risks have arisen and that the interest and principal on the term loans have been paid on a timely basis. Where necessary, the members also make appropriate enquiries of the LLP's professional advisers concerning specific matters which may affect the nature and extent of particular risks to the LLP

#### 9. MANAGEMENT OF RISK (CONTINUED)

#### 9(a) Credit risk

Credit risk arises where there is a possibility that a counterparty may default on its financial obligations resulting in a loss to the LLP

The LLP has a concentration of risk to LTSB as the originator of the mortgages, the LLP's bank account provider and swap counterparty

Credit risk arises on the individual loans within the mortgage loan portfolio which are in turn secured on UK residential properties. The performance of these loans is therefore influenced by the economic background and the UK housing market. The ability of the LLP to pay the term loan interest and principal to LTSB will depend on the amount and timing of payments of interest and principal on the mortgage loans by the borrowers.

In terms of arrears management, the LLP has engaged a servicer of the loans in the portfolio to help reduce the risk of loss. This role was previously held by C&G but was transferred to LTSB in April 2012. The servicer is required to monitor repayments on the mortgage loans in accordance with its usual credit policies. The servicer is also responsible for ensuring mortgage loans in the pool meet the eligibility criteria set out in the Programme Documentation.

The income on the mortgage pool is expected to exceed the LLP's expenses and the interest payable on the term loans. Any excess income that is not required to meet expenses or interest payments is returned to the originator as deferred consideration.

Credit risk for the LLP is mitigated by the amount of over collateralisation of the beneficial interest in mortgages which is provided by LTSB and which is monitored using the ACT. The over collateralisation is available in full for the benefit of the LLP. The Programme Documentation provides that the LLP and its members should ensure that the adjusted aggregate loan amount of the mortgage pool asset and cash is at least equal to or greater than the aggregate amount outstanding on the Covered Bonds on each calculation date after taking into account other deductions. The adjusted loan amount is the balance of the mortgage loans after adjusting for various set-offs and adjustments unique to particular groups of loans, together with allowances for loan defaults.

In the event that there is a breach of the ACT, LTSB is required to take steps to make good the deficit by providing the necessary capital contributions in order that the ACT breach is cured before the next ACT calculation. If there is a breach at the following calculation date, this will constitute a LTSB Event of Default, which will entitle the Bond Trustee to serve a LTSB Acceleration Notice on the Issuer of the Covered Bonds. Upon service of such notice, the Bond Trustee will serve a Notice to Pay on the LLP under the Covered Bond guarantee. This would require the LLP to repay all amounts outstanding on the Covered Bonds, including principal and accrued interest amounts.

#### 9. MANAGEMENT OF RISK (CONTINUED)

#### 9(a) Credit risk (continued)

The total mortgage pool made available to the LLP at 31 December 2012 amounted to £33 27bn (2011 £18 86bn) As noted in the accounting policies section, the LLP does not recognise the mortgage pool but rather a deemed loan to the originator

To the extent that the income on the deemed loan does not provide sufficient funds to recover the LLP's investment in the mortgage portfolio, the LLP has no further claim on the assets of LTSB. During the current year, sufficient cash has been received from the deemed loan to enable the LLP to make all necessary payments on the term loans following repayment of the related series of Covered Bonds by LTSB.

The LLP assesses its counterparties for credit risk before contracting with them. Credit rating is the main method used to measure credit risk. In accordance with the criteria of the rating agencies that rate the Covered Bonds issued by LTSB and by association the term loans received by the LLP, the Programme Documentation contains various rating triggers linked to each counterparty, which require certain actions to be taken if triggers are breached

Rating as at 31 December 2012

Rating as at date of approval of financial statements

Moody's/Fitch

Moody's/Fitch

LTSB as provider of

Covered bond swap, interest rate swap and bank accounts

Short term P-1/F1 Long term A2/A Short term P-1/F1 Long term A2/A

In the event that a swap counterparty is downgraded by a rating agency below the ratings specified in the relevant swap agreement, the relevant swap provider will be required to take certain remedial measures as defined in that agreement which may include providing collateral for its obligations under the relevant swap, arranging for its obligations to be transferred to an entity with sufficient rating, procuring another entity with sufficient rating to become co-obligor for its obligations, or taking such other action as it may agree with the relevant rating agency

#### 9 MANAGEMENT OF RISK (CONTINUED)

#### 9(a) Credit risk (continued)

#### Financial assets subject to credit risk

The maximum exposure to credit risk arising on the LLP's financial assets at the reporting date is disclosed in the table below and equates to carrying value

	2012 £000	2011 £000
Assets held at amortised cost:		
Cash and cash equivalents	515,942	249,047
Deemed loan to originator	21,614,910	10,717,487
	22,130,852	10,966,534

At the Balance Sheet date all financial assets subject to credit risk were neither past due nor impaired. A financial asset is 'past due' if a counterparty has failed to make a payment when contractually due.

#### Secured mortgage assets

Secured mortgage loans can be analysed according to the rating systems used by the LLP and the originator when assessing customers and counterparties

For the purposes of the LLP's disclosures regarding credit quality, total secured mortgage loans subject to credit risk have been analysed as follows

	2012 £000	2011 £000
Neither past due nor impaired	32,543,021	18,534,359
Past due but not impaired	603,967	248,976
Impaired	120,975	73,162
	33,267,963	18,856,497

#### 9 MANAGEMENT OF RISK (CONTINUED)

#### 9(a) Credit risk (continued)

#### Secured mortgage assets (continued)

Secured loans and advances which are past due but not impaired

2012 £000	2011 £000

66,269 75,788	25,311 30,870 -
<del></del>	
603,967	248,976
	£000 334,291 127,619 66,269 75,788

The number and value of loans currently in arrears will have a bearing on the receipt of cash by the LLP. Key indicators are as follows

- At 31 December 2012 2,186 accounts were in arrears by three or more months which represents 0.7% of the mortgage pool (31 December 2011 1,198, 0.7%)
- At 31 December 2012 the number of properties in possession amounted to 11 (31 December 2011 2)

#### 9(b) Foreign currency and interest rate risk

Interest rate and foreign currency risks exist where assets and liabilities have different currencies and interest rates set under a different basis or which reset at different times. The mortgage assets, the term loans and the cash and cash equivalents are exposed to these risks. The LLP minimises its exposure to such risks by ensuring that the foreign currency and interest rate characteristics of assets and liabilities are similar, where this is not possible the LLP uses derivative financial instruments to mitigate these risks.

#### 9. MANAGEMENT OF RISK (CONTINUED)

#### 9(b) Foreign currency and interest rate risk (continued)

The underlying mortgage pool comprises loans which are subject to variable rates of interest set by LTSB based on general interest rates and competitive considerations, loans which track the Bank of England base rate and loans which are subject to fixed rates of interest. To mitigate the changes in interest and foreign currency rates that may result in the interest cash flows from the mortgage pool being insufficient to meet the payments under the term loans, the LLP has entered into currency and basis swaps with LTSB. The basis swaps substantially eliminate the sensitivity to movements in interest rates and the currency swaps eliminate the sensitivity to movements in foreign currency rates.

#### 9(c) Liquidity risk

Liquidity risk is the risk that the LLP is not able to meet its financial obligations as they fall due

The LLP's ability to meet payments on the term loans as they fall due is dependent on timely receipt of funds from the deemed loan to originator which may be delayed due to slow repayment on the mortgage portfolio (see 9(a) credit risk above)

Principal repayments are made on the term loans with LTSB in accordance with the LLP's principal priority of payments and reflect the amount of principal collection on the underlying mortgage loans. In the event that the LLP does not have sufficient cash flows from the underlying mortgage loans in order to be able to repay the term loans as and when they fall due, the members may be required to make cash capital contributions, extend the repayment of the term loans, or sell mortgages from the mortgage pool, in accordance with the terms of the Programme Documentation.

The liquidity tables below reflect the undiscounted cash payments which will fall due if the structure continues until the contractual maturity date as set out in the Programme Documentation. It is anticipated that the interest and principal received on the deemed loan to originator will be sufficient to allow repayment of the term loans.

The designated members are Lloyds TSB Bank plc and Lloyds TSB Covered Bonds (LM) Limited (as Liquidation Member) For accounting purposes under IFRS, the LLP's ultimate parent and controlling party is Lloyds Banking Group plc The LLP's results are included within the consolidated financial statements of Lloyds Banking Group plc Copies of the group financial statements may be obtained from the Company Secretary's Office, Lloyds Banking Group plc, 25 Gresham Street, London EC2V 7HN

LACD offeeting

<sup>&</sup>lt;sup>(2)</sup> IFRS 9 is the initial stage of the project to replace IAS 39. Future stages are expected to result in amendments to IFRS 9 to deal with changes to the impairment of financial assets measured at amortised cost and hedge accounting, as well as a reconsideration of classification and measurement. Until all stages of the replacement project are complete, it is not possible to determine the overall impact on the financial statements of the replacement of IAS 39.
