Performance Summary
2018

The year in review

Another year of strong strategic and financial performance

Our continued strong performance positions us well to succeed in a digital world.

António Horta-Osório
Group Chief Executive

Dear shareholder

I am delighted to be able to report that in 2018 the Group once more delivered strong financial results with increased profits and returns. As a low risk, simple, UK focused financial services provider, our business model continues to position us well for future success.

Our strength is evident from our 24 per cent increase in statutory profit after tax, to £4.4 billion. Earnings per share increased by 27 per cent to 5.5 pence per share. As a result the Board has recommended a final ordinary dividend of 2.14 pence per share, bringing the 2018 total dividend to 3.21 pence, 5 per cent higher than last year, and in line with our progressive and sustainable ordinary dividend policy. In addition, we intend to implement a share buyback of up to £1.75 billion starting in March of this year. Together these represent a return to shareholders of up to £4.0 billion which is an increase of up to 26 per cent in the year. Our strong dividend performance also illustrates how, as an institution, we fulfil our purpose, to Help Britain Prosper. As the most widely held share in the UK, our dividends not only benefit our shareholders but countless pensioners whose funds are invested in Lloyds.

My colleagues and I are proud of the financial performance we have delivered. To build long-term success we will remain focused on delivering for our customers and, in turn, for our shareholders. That's why in February 2018 we announced our new strategy to prepare the

Group for success in a digital world. We have already made a great start by implementing the strategic initiatives which will deliver this. In addition, towards the end of the year we announced an exciting new partnership with Schroders to create our new wealth proposition, Schroders Private Wealth, which we plan to launch officially later in 2019. I will tell you more about this when I write to you about the 2019 half year results.

Over 2018 the UK economy remained strong with record employment and continued GDP growth and while the imminent outlook remains uncertain, particularly given the ongoing EU withdrawal negotiations, we continue to believe our business model is the right one for our customers and for our shareholders. Our purpose, to Help Britain Prosper, remains unchanged and we continue to maintain the largest retail and commercial presence in the country. We are helping our customers achieve their goals and supporting the wider communities we serve.

Thank you for your continuing support and I look forward to reporting on further progress at the half year.

HOW WE'VE HELPED

BRITAIN PROSPER IN 2018

We recognise our responsibility to support the core banking needs of Britain's people, businesses and communities, and to help address some of the economic, social and environmental challenges the UK faces. We do this through our Helping Britain Prosper Plan.

Launched in 2014 and revised every year to ensure its relevance, the Plan focuses on the areas in which we can make the biggest difference. It continues to unite and inspire the Group and our colleagues. In 2018 we published a simplified Plan supporting our three year Group Strategy. We particularly focused on the six metrics that would have the most impact on people, businesses and communities, and in addition, for 2019, we have included a specific sustainability metric.
