Basis of preparation

This report presents the half-year Pillar 3 disclosures of Bank of Scotland plc (‘the Bank’) as at 30 June 2023 and should be read in conjunction with the Bank’s 2023 Half-Year Results.

The disclosures have been prepared in accordance with the Disclosure section of the PRA Rulebook.

Specific Pillar 3 templates are required to be disclosed on a semi-annual basis and these are included within this report with the following exceptions:

PRA reference	Template name	Reason for exclusion
CR2a	Changes in the stock of non-performing loans and advances and related net accumulated recoveries	Threshold for disclosure not met
CQ2	Quality of forbearance	Threshold for disclosure not met
CQ7	Collateral obtained by taking possession and execution processes	No collateral taken into possession is recognised on the balance sheet
CR7	IRB – Effect on the RWAs of credit derivatives used as CRM techniques	Excluded on materiality basis
CR10.3	Specialised lending – Object finance (Slotting approach)	Not applicable to the Bank
CR10.4	Specialised lending: Commodities finance (Slotting approach)	Not applicable to the Bank
CR10.5	Equity exposures subject to the simple risk weight method	Not applicable to the Bank
CCR7	RWA flow statements of CCR exposures under the IMM	Not applicable to the Bank
LIQ1	Quantitative information of LCR	
LIQ2	Quantitative information of NSFR	Liquidity is managed at a DoLSub level, refer to the Lloyds Bank plc Q2 2023 Pillar 3 disclosures for further information.
LIQB	Qualitative information on LCR, which complements template LIQ1	

The information presented in this Pillar 3 report is not required to be, and has not been, subject to external audit.

A description of the main features of common equity tier 1 (CET1), additional tier 1 (AT1) and tier 2 (T2) capital instruments issued by Lloyds Banking Group plc (the ultimate parent company) and its large subsidiaries (including Bank of Scotland plc) are included in a separate document on the Lloyds Banking Group website located at www.lloydsbankinggroup.com/investors/financial-downloads. In addition, the report identifies and provides a description of the main features of debt instruments that are recognised as eligible liabilities in accordance with the Bank of England’s MREL framework. Template TLAC 2 is included within the half-year Pillar 3 disclosures for Lloyds Banking Group plc and details the creditor hierarchy and nominal values of instruments issued by Bank of Scotland plc. The Lloyds Banking Group plc 2023 Half-Year Pillar 3 Disclosures can be found on the Lloyds Banking Group plc website.

¹ The Bank applies the full extent of the IFRS9 transitional arrangements for capital as set out under CRR Article 473a (revised). Specifically, the Bank has opted to apply both paragraphs 2 and 4 of CRR Article 473a (static and dynamic relief) and in addition to apply a 100 per cent risk weight to the consequential Standardised credit risk exposure add-back as permitted under paragraph 7a of the revisions. The transitional arrangements for static relief (including 'locked' dynamic relief recognised prior to 1 January 2020) ended on 1 January 2023 and therefore no static relief exists at 30 June 2023 (31 December 2022: £80 million). Dynamic relief (from 1 January 2020) under the transitional arrangements amounted to £71 million (31 December 2022: £74 million) through CET1 capital.

² Represents, as a percentage, the level of CET1 capital left available to meet buffer requirements after subtracting the minimum amount of CET1 capital required to meet total Pillar 1 plus Pillar 2A capital requirements, also referred to as total SREP own funds requirements. The minimum CET1 requirement is equivalent to 4.5 per cent (Pillar 1) plus the additional CET1 SREP requirement (56.25 per cent of Pillar 2A).

³ The average leverage exposure measure (excluding claims on central banks) for the period from 1 April 2023 to 30 June 2023 amounted to £301,598 million.

⁴ The countercyclical leverage ratio buffer (CCLB) is required to be rounded to the nearest tenth of a percentage.

Common Equity Tier 1

The Bank's common equity tier 1 (CET1) capital ratio reduced from 15.4 per cent at 31 December 2022 to 14.5 per cent at 30 June 2023. This largely reflected dividends received from subsidiaries, which were more than offset by the loss for the period, a reduction in IFRS 9 transitional relief following the end of static relief and phased reduction of dynamic relief and an increase in risk-weighted assets.

Total Capital

The total capital ratio reduced to 20.2 per cent (31 December 2022: 21.0 per cent), primarily reflecting the increase in risk-weighted assets, partially offset by the issuance of a new AT1 capital instrument during the period.

Risk-Weighted Assets

Risk-weighted assets increased by £4.5 billion to £77.6 billion at 30 June 2023 (31 December 2022: £73.1 billion), largely reflecting an adjustment for the anticipated impact of CRD IV models taken in the second quarter, a small uplift from model calibration and an increase in securitisation exposures. The CRD IV model updates reflect an updated impact assessment following a further iteration of model development. The models remain subject to further development and final approval by the PRA. On that basis final impacts remain uncertain and further increases could be required.

Leverage

The Bank's UK leverage ratio of 4.6 per cent at 30 June 2023 has increased from 4.5 per cent at 31 December 2022, largely reflecting the increase in total tier 1 capital.

1 The references (a) to (h) identify regulatory balance sheet components that link initially to items disclosed in table CC1, prior to the application of regulatory definitions and adjustments per the rules for calculating own funds.

2 Deferred tax assets that rely on future profitability may be reduced by associated deferred tax liabilities where the conditions specified in Article 38 of the CRR are met. The resultant net deferred tax asset positions are deducted from CET1 capital, except in the case of deferred tax assets that arise from temporary differences which may be risk weighted instead of deducted from capital for the portion of the balance that does not exceed a threshold limit. Deferred tax assets are also adjusted to reflect the application of the IFRS 9 transitional arrangements.

3 The regulatory definition of eligible items for inclusion in retained earnings differs from the accounting definition. The aggregate of retained earnings and accumulated other comprehensive income and other reserves is comparable on both bases but the allocation between categories differ.

1 The breakdown by country is disclosed on the following basis:

i) those countries for which a countercyclical capital buffer rate has been set.

ii) those countries for which a countercyclical capital buffer rate has not been set and have an own funds requirement weighting of greater than or equal to one per cent, the threshold having been determined by the Bank in accordance with guidelines on materiality for Pillar 3.

iii) the aggregate of all remaining countries for which a countercyclical buffer rate has not been set and individually have an own funds requirement weighting of less than one per cent.

2 For the purposes of the calculation of the countercyclical capital buffer, general credit risk and trading book exposures exclude exposures to central governments, central banks, regional governments, local authorities, public sector entities, multilateral development banks, international organisations and institutions. In addition, trading book exposures are limited to those that are subject to the own funds requirement for specific risk or incremental default and migration risk.

3 General credit and securitisation exposures include counterparty credit risk and are stated on a post CRM basis.

The table below summarises the movements of risk-weighted assets for credit risk exposures under the Internal Ratings Based (IRB) Approach. The table excludes counterparty credit risk exposures, securitisation exposures, other non-credit obligation assets and equity exposures.

CR8: Risk-weighted assets flow statements of credit risk exposures – year to 30 Jun 2023

	Total RWA quarter to 30 Jun 2023	Total RWA YTD 30 Jun 2023
	£m	£m
1 Risk weighted exposure amount as at the end of previous reporting period	57,238	56,375
2 Asset size (+/-)	203	236
3 Asset quality (+/-)	224	485
5 Methodology and policy (+/-)	3,010	3,581
7 Foreign exchange movements (+/-)	(6)	(8)
8 Other (+/-)	(65)	(65)
9 Risk weighted exposure amount at the end of the reporting period	60,604	60,604

Key movements year to date 30 June 2023

- Asset size movement largely driven by growth in the unsecured Retail portfolio.
- Asset quality movement primarily driven by Retail model calibrations.
- Methodology and Policy movements largely reflects the CRD IV model updates for an updated impact assessment following a further iteration of model development. The models remain subject to further development and final approval by the PRA. On that basis final impacts remain uncertain and further increases could be required.

1. For AIRB the value of eligible collateral has been capped at individual exposure amount. The percentage immovable property collateral for Retail immovable property non-SMEs without capping collateral is 242 per cent. For FIRB, the amount is capped at the value used in determining the LGD.

2. For AIRB, the unfunded credit protection includes only cases where unfunded credit protection is taken into account in own estimates of LGD. For FIRB, it relates to unfunded credit protection which has substitution effect.

Forward looking statements

This document contains certain forward looking statements within the meaning of Section 21E of the US Securities Exchange Act of 1934, as amended, and section 27A of the US Securities Act of 1933, as amended, with respect to the business, strategy, plans and/or results of Bank of Scotland plc together with its subsidiaries (the Group) and its current goals and expectations. Statements that are not historical or current facts, including statements about the Group's or its directors' and/or management's beliefs and expectations, are forward looking statements. Words such as, without limitation, 'believes', 'achieves', 'anticipates', 'estimates', 'expects', 'targets', 'should', 'intends', 'aims', 'projects', 'plans', 'potential', 'will', 'would', 'could', 'considered', 'likely', 'may', 'seek', 'estimate', 'probability', 'goal', 'objective', 'deliver', 'endeavour', 'prospects', 'optimistic' and similar expressions or variations on these expressions are intended to identify forward looking statements. These statements concern or may affect future matters, including but not limited to: projections or expectations of the Group's future financial position, including profit attributable to shareholders, provisions, economic profit, dividends, capital structure, portfolios, net interest margin, capital ratios, liquidity, risk-weighted assets (RWAs), expenditures or any other financial items or ratios; litigation, regulatory and governmental investigations; the Group's future financial performance; the level and extent of future impairments and write-downs; the Group's ESG targets and/or commitments; statements of plans, objectives or goals of the Group or its management and other statements that are not historical fact; expectations about the impact of COVID-19; and statements of assumptions underlying such statements. By their nature, forward looking statements involve risk and uncertainty because they relate to events and depend upon circumstances that will or may occur in the future. Factors that could cause actual business, strategy, plans and/or results (including but not limited to the payment of dividends) to differ materially from forward looking statements include, but are not limited to: general economic and business conditions in the UK and internationally; political instability including as a result of any UK general election and any further possible referendum on Scottish independence; acts of hostility or terrorism and responses to those acts, or other such events; geopolitical unpredictability; the war between Russia and Ukraine; the tensions between China and Taiwan; market related risks, trends and developments; exposure to counterparty risk; instability in the global financial markets, including within the Eurozone, and as a result of the exit by the UK from the European Union (EU) and the effects of the EU-UK Trade and Cooperation Agreement; the ability to access sufficient sources of capital, liquidity and funding when required; changes to the Group's credit ratings; fluctuations in interest rates, inflation, exchange rates, stock markets and currencies; volatility in credit markets; volatility in the price of the Group's securities; tightening of monetary policy in jurisdictions in which the Group operates; natural pandemic (including but not limited to the COVID-19 pandemic) and other disasters; risks concerning borrower and counterparty credit quality; longevity risks affecting defined benefit pension schemes; risks related to the uncertainty surrounding the integrity and continued existence of reference rates; changes in laws, regulations, practices and accounting standards or taxation; changes to regulatory capital or liquidity requirements and similar contingencies; the policies and actions of governmental or regulatory authorities or courts together with any resulting impact on the future structure of the Group; risks associated with the Group's compliance with a wide range of laws and regulations; assessment related to resolution planning requirements; risks related to regulatory actions which may be taken in the event of a bank or Group failure; exposure to legal, regulatory or competition proceedings, investigations or complaints; failure to comply with anti-money laundering, counter terrorist financing, anti-bribery and sanctions regulations; failure to prevent or detect any illegal or improper activities; operational risks; conduct risk; technological changes and risks to the security of IT and operational infrastructure, systems, data and information resulting from increased threat of cyber and other attacks; technological failure; inadequate or failed internal or external processes or systems; risks relating to ESG matters, such as climate change (and achieving climate change ambitions), including the Group's ability along with the government and other stakeholders to measure, manage and mitigate the impacts of climate change effectively, and human rights issues; the impact of competitive conditions; failure to attract, retain and develop high calibre talent; the ability to achieve strategic objectives; the ability to derive cost savings and other benefits including, but without limitation, as a result of any acquisitions, disposals and other strategic transactions; inability to capture accurately the expected value from acquisitions; assumptions and estimates that form the basis of the Group's financial statements; and potential changes in dividend policy. A number of these influences and factors are beyond the control of the Group or any of the Group's immediate or ultimate parent entities (if applicable). Please refer to the latest Annual Report on Form 20-F filed by Lloyds Bank plc with the US Securities and Exchange Commission (the SEC), which is available on the SEC's website at www.sec.gov, for a discussion of certain factors and risks. Lloyds Banking Group plc may also make or disclose written and/or oral forward-looking statements in other written materials and in oral statements made by the directors, officers or employees of Lloyds Banking Group plc to third parties, including financial analysts. Except as required by any applicable law or regulation, the forward-looking statements contained in this document are made as of today's date, and the Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward looking statements contained in this document whether as a result of new information, future events or otherwise. The information, statements and opinions contained in this document do not constitute a public offer under any applicable law or an offer to sell any securities or financial instruments or any advice or recommendation with respect to such securities or financial instruments.
