Lloyds Bank plc

Q3 2019 Interim Pillar 3 Report

31 October 2019

BASIS OF PRESENTATION

This report presents the consolidated interim Pillar 3 disclosures of Lloyds Bank plc (the Bank) together with its subsidiaries (the Group) as at 30 September 2019 and should be read in conjunction with the Group's Q3 2019 Interim Management Statement.

The disclosures have been prepared in accordance with the European Banking Authority's revised guidelines:

- on materiality, proprietary and confidentiality and on disclosure frequency;
- on Pillar 3 disclosure formats and frequency that were published in December 2016 and;
- on uniform disclosures regarding the transitional period for mitigating the impact of the introduction of IFRS 9 on own funds that were published in January 2018.

In addition to summary capital and leverage disclosures, the guidelines require specific templates to be disclosed on a quarterly basis and these are included within this report with the following exceptions:

- Disclosures required by Template CR8 (RWA flow statements of credit risk exposures under the IRB approach) have been covered through the analysis of risk-weighted asset movements by key driver.
- Template CCR7 (RWA flow statements of CCR exposures under the IMM) is not applicable to Lloyds Bank Group.
- Template MR2-B (RWA flow statements of market risk exposures under the IMA) has been omitted on the grounds of materiality.

The information presented in this Pillar 3 report is not required to be, and has not been, subject to external audit.

FORWARD LOOKING STATEMENTS

This document contains certain forward looking statements with respect to the business, strategy, plans and/or results of the Group and its current goals and expectations relating to its future financial condition and performance. Statements that are not historical facts, including statements about the Group's or its directors' and/or management's beliefs and expectations, are forward looking statements. By their nature, forward looking statements involve risk and uncertainty because they relate to events and depend upon circumstances that will or may occur in the future. Factors that could cause actual business, strategy, plans and/or results (including but not limited to the payment of dividends) to differ materially from forward looking statements made by the Group or on its behalf include, but are not limited to: general economic and business conditions in the UK and internationally; market related trends and developments; fluctuations in interest rates, inflation, exchange rates, stock markets and currencies; any impact of the transition from IBORs to alternative reference rates; the ability to access sufficient sources of capital, liquidity and funding when required; changes to the Group's credit ratings; the ability to derive cost savings and other benefits including, but without limitation as a result of any acquisitions, disposals and other strategic transactions; the ability to achieve strategic objectives; changing customer behaviour including consumer spending, saving and borrowing habits; changes to borrower or counterparty credit quality; concentration of financial exposure; management and monitoring of conduct risk; instability in the global financial markets, including Eurozone instability, instability as a result of uncertainty surrounding the exit by the UK from the European Union (EU) and as a result of such exit and the potential for other countries to exit the EU or the Eurozone and the impact of any sovereign credit rating downgrade or other sovereign financial issues; political instability including as a result of any UK general election; technological changes and risks to the security of IT and operational infrastructure, systems, data and information resulting from increased threat of cyber and other attacks; natural, pandemic and other disasters, adverse weather and similar contingencies outside the Group's control; inadequate or failed internal or external processes or systems; acts of war, other acts of hostility, terrorist acts and responses to those acts, geopolitical, pandemic or other such events; risks relating to climate change; changes in laws, regulations, practices and accounting standards or taxation, including as a result of the exit by the UK from the EU, or a further possible referendum on Scottish independence; changes to regulatory capital or liquidity requirements and similar contingencies outside the Group's control; the policies, decisions and actions of governmental or regulatory authorities or courts in the UK, the EU, the US or elsewhere including the implementation and interpretation of key legislation and regulation together with any resulting impact on the future structure of the Group: the ability to attract and retain senior management and other employees and meet its diversity objectives; actions or omissions by the Group's directors, management or employees including industrial action; changes to the Group's post-retirement defined benefit scheme obligations; the extent of any future impairment charges or write-downs caused by, but not limited to, depressed asset valuations, market disruptions and illiquid markets; the value and effectiveness of any credit protection purchased by the Group; the inability to hedge certain risks economically; the adequacy of loss reserves; the actions of competitors, including non-bank financial services, lending companies and digital innovators and disruptive technologies; and exposure to regulatory or competition scrutiny, legal, regulatory or competition proceedings, investigations or complaints. Please refer to the latest Annual Report on Form 20-F filed with the US Securities and Exchange Commission for a discussion of certain factors and risks together with examples of forward looking statements. Except as required by any applicable law or regulation, the forward looking statements contained in this document are made as of today's date, and the Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward looking statements contained in this document to reflect any change in the Group's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. The information, statements and opinions contained in this document do not constitute a public offer under any applicable law or an offer to sell any securities or financial instruments or any advice or recommendation with respect to such securities or financial instruments.

¹ The Group has opted to apply paragraph 4 of CRR Article 473a (the 'transitional rules') which allows for additional capital relief in respect of any post 1 January 2018 increase in Stage 1 and Stage 2 IFRS 9 expected credit loss provisions (net of regulatory expected losses) during the transition period. As at 30 September 2019 no additional capital relief has been recognised.

² The LCR is calculated as the simple average of the preceding 9 monthly periods (preceding 6 monthly periods for Q2 2019 and 3 for Q1 2019).

CAPITAL AND LEVERAGE DISCLOSURES

The capital and leverage information disclosed in the table below, together with the overview of risk-weighted assets disclosed on the subsequent page, are reflective of the application of IFRS 9 transitional arrangements.

	Transitional		Fully loaded	
	At 30 Sept 2019	At 31 Dec 2018	At 30 Sept 2019	At 31 Dec 2018

Common equity tier 1 capital	24,380	26,060	24,380	26,060
Additional tier 1 instruments	5,257	5,937	3,217	3,217
Total tier 1 capital	29,637	31,997	27,597	29,277
Tier 2 instruments and eligible provisions	6,608	7,087	4,255	4,844
Total capital resources	36,245	39,084	31,852	34,121
Total risk-weighted assets	175,631	174,391	175,631	174,391
Leverage ¹				
Statutory balance sheet assets Deconsolidation, qualifying central bank claims and other			596,108	593,486
adjustments			(45,115)	(49,958)
Off-balance sheet items Total exposure measure			46,883 597,876	47,863 591,391
Average exposure measure ⁴			595,600	331,331
CRD IV exposure measure ²			632,447	626,903
Ratios				
Common equity tier 1 capital ratio	13.9%	14.9%	13.9%	14.9%
Tier 1 capital ratio	16.9%	18.3%	15.7%	16.8%
Total capital ratio	20.6%	22.4%	18.1%	19.6%
UK leverage ratio ³			4.6%	5.0%
Average UK leverage ratio ⁴			4.8%	
CRD IV leverage ratio			4.4%	4.7%

Calculated in accordance with the UK Leverage Ratio Framework which requires qualifying central bank claims to be excluded from the leverage exposure measure.

² Calculated in accordance with CRD IV rules which include central bank claims within the leverage exposure measure.

³ The countercyclical leverage buffer is currently 0.3 per cent. The additional leverage ratio buffer is 0.7 per cent.

⁴ The average UK leverage ratio is based on the average month end tier 1 capital position and average exposure measure over the quarter (1 July 2019 to 30 September 2019). The average of 4.8 per cent compares to 4.8 per cent at the start and 4.6 per cent at the end of the quarter.

Overview of risk-weighted assets (OV1)

	At 30 Sept 2019 RWA £m	At 31 Dec 2018 RWA £m
Credit risk (excluding counterparty credit risk)	142,200	140,815
Of which standardised approach	23,278	23,065
Of which the foundation rating-based (FIRB) approach	37,760	40,820
Of which the retail IRB (RIRB) approach	63,645	59,500
Of which corporates – specialised lending	10,182	11,448

Of which: standardised approach	24,096	24,558
Of which: advanced measurement approach	-	-
Amounts below the thresholds for deduction (subject to 250% risk weight)	2,000	1,442
Of which: Significant investment		
Of which: Deferred tax asset	2,000	1,442
Floor adjustment		
Total	175,631	174,391
Pillar 1 capital requirement ³	14,051	13,951
Pillar 2A capital requirement ⁴	8,531	8,729
Total capital requirement	22,582	22,680
rotal capital requirement	22,302	ZZ,00U

Non-credit obligation assets (IRB approach) predominately relate to other balance sheet assets including fixed assets, prepayments, cash and sundry debtors

Securitisations are shown separately in the table but are included within credit risk in the movements by key driver analysis.

The Pillar 1 capital requirement is 8 per cent of aggregated risk-weighted assets.

⁴ The Pillar 2A capital requirement is currently c.4.9 per cent of aggregated risk-weighted assets, of which c.2.7 per cent must be met with CET1 capital.

Threshold risk-weighted assets ³							2,000
Total risk-weighted assets at 30 September 2019							175,631

¹ Credit risk includes movements in securitisation risk-weighted assets.

The risk-weighted assets movement table provides analysis of the movement in risk-weighted assets in the period by risk type and an insight into the key drivers of the movements. The key driver analysis is compiled on a monthly basis through the identification and categorisation of risk-weighted asset movements and is subject to management judgment.

Credit risk, risk weighted assets:

- Asset size reduction of £0.3bn includes changes in book size (both drawn and undrawn balances) and composition, excluding acquisitions and disposals.
- Asset quality increase of £0.1bn captures movements due to changes in borrower risk, including changes in the
 economic environment.
- Model updates increase in risk-weighted assets of £1.8bn principally as a result of changes to mortgage models.
- Methodology and policy changes reduced risk-weighted assets by £1.3bn principally a result of securitisation activity, partially offset by the introduction of IFRS 16.
- Acquisitions and disposals increase of £1.3bn reflects the purchase of the Tesco Bank UK prime residential mortgage portfolio.

Counterparty credit risk, risk weighted assets decrease of £0.4bn largely driven by reduced contributions to default funds, partially offset by increases from the introduction of ring-fencing legislation impacting intra-group exposures.

Market risk, risk-weighted asset reduction of £0.2bn due to various small risk and model changes.

Operational risk, risk-weighted assets decreased by £0.5bn following the actualisation of calculation inputs.

² Counterparty credit risk includes movements in contributions to the default fund of central counterparties and movements in credit valuation adjustment risk.

³ Threshold risk-weighted assets reflect the element of deferred tax assets that are permitted to be risk-weighted instead of being deducted from CET1 capital.
