1 – Pro forma based on restated balances. 2 – UK Consumer includes credit cards, motor finance, unsecured personal loans. 3 – Includes Retail Business Banking. 4 – Includes closed mortgage book, European mortgages, Global Corporates, Financial Institutions, other small items. 5 – 2010-2018 adjusted to reflect IFRS 16, excludes TSB, MBNA included from 2017 and Zurich from 2018. 6 – RWAs under current rules.
UK economy has remained resilient but uncertainty remains

• Consumers remain well positioned
  - Employment continues to grow with real wages rising at >1% per year
  - Consumption remains strong supporting GDP growth

• Continued economic uncertainty resulting in some softening in business confidence
  - Companies’ intentions for employment and investment deteriorated in the quarter
  - PMI surveys declined in Q2, showing lower activity levels across business sectors

• Global growth softened and interest rate expectations declined in the second quarter

Balance sheet – growth in targeted segments while optimising the portfolio

• Loans and advances £441bn, flat on Q1
  - Open mortgage book up £0.8bn on Q1 and expect to close 2019 in line with 2018
  - Loan growth in targeted segments offsetting reduction in closed mortgage portfolio
  - SME(1) growth continues ahead of the market
  - Continued high-quality growth in consumer portfolio including £0.9bn in Motor Finance since year end

• RWAs down £1bn in Q2 to £207bn
  - Improved capital returns and RWA efficiency through business mix optimisation

---

1 – Retail Business Banking included within SME.  2 – Other includes Insurance & Wealth, Central, threshold RWAs and reflects the sale of the Group’s Irish mortgage portfolio in H1 2018 (c.£4bn).

- Stable liability margin with continued growth in targeted high quality current accounts
  - Current accounts £110bn, up £1bn in H1 and continued reduction in tactical balances
- Structural hedge £172bn; weighted average life c.3 years
  - Not currently investing hedge capacity due to market rates; currently around 90% invested
  - £13bn hedgeable capacity available to invest

1 – Includes Retail Business Banking within SME and other reclassifications. 2 – Equity, savings and current accounts assume a behavioural life of up to 10, 5 and 10 years respectively; the external structural hedge notional is managed as a portfolio, split shown is indicative.
Credit quality remains strong reflecting a continued prudent approach to risk

- Low risk book with over 75% of lending secured and underwriting discipline maintained
  - >60% of lending in UK mortgages
  - Motor Finance predominantly secured and subject to prudent assumptions and provisioning
  - Prime credit card book with conservative risk appetite
  - Diversified, high quality Commercial portfolio with prudent approach to sectors and significant collateral

- Continue to expect net AQR <30bps in 2019

- Gross AQR higher than prior year at 34bps, largely due to alignment of credit card provisioning methodologies, softer used car prices and two corporate names

- Mortgage and credit card new to arrears remain low
Summary – well placed to deliver sustainable, superior performance

- Strong strategic progress and the right strategy in the current environment
- Good financial performance supporting increased interim dividend
- Business model resilience reflected in 2019 guidance
  - NIM to be around 290bps
  - Operating costs to be below £8bn
  - AQR to be less than 30bps
  - Capital build to be at the lower end of 170-200bps
  - Now expect 2019 RoTE of around 12%, below original guidance given below the line charges
- Longer term targets remain unchanged, although continued economic uncertainty could impact outlook
- Well placed to continue supporting customers, Help Britain Prosper and deliver sustainable, superior returns

---

1. Comparatives restated to reflect amendments to IAS 12.
2. 2015 to 2017 restated to show Remediation / Other Conduct within underlying profit.
Capital, Funding & Liquidity
Strong capital build through H1, end state capital requirements confirmed

- Systemic Risk Buffer confirmed at 2.0% for the ring-fenced subgroup (equivalent to 1.7% at Group)
- Capital build of 70bps in H1 (post. IFRS 16)
- CET1 guidance remains c.12.5%, plus a management buffer of c.1%
- Continue to expect ongoing capital build of 170-200bps p.a. - 2019 now expected to be towards the lower end of this range
MREL ratio ahead of interim requirement, well on-track for end-state

- Total capital remains strong at 21.7%
- £1,481m AT1 security called on June 27th
- Steady state MREL issuance of c.£5bn p.a. on average
- Total 2019 MREL issuance likely to be lower than average given current MREL position

1 - FY 18 CET 1 ratio of 13.9% is shown pro-forma, reflecting the Insurance dividend received in February 2019, ordinary dividends and the share buyback. 2 - Indicative interim MREL Requirements = (2x P1) + P2A + buffers. 3 - Indicative final MREL Requirements = (2x P1) + (2x P2A) + buffers. Final requirement to be confirmed following Bank of England review in 2020. 4 - H1 19 MREL ratio is shown pro-forma for the insurance dividend received in July, post ordinary dividends and post the share buyback.
Strong progress against funding plan; LBCM EMTN programme launched

- c.£6bn sterling equivalent issued across 7 public transactions in H1
- Funding in H2 2019 will be focused on secured products and OpCo senior
- Continue to guide to a steady state funding requirement of £15-20bn per annum, diversified across:
  - Core markets - USD, EUR and GBP
  - Strategic markets - AUD, JPY, CAD and CHF
- We will consider pre-funding some of our 2020 issuance plan if markets are conducive
PPI activity significantly increased in the second quarter

- £550m charge in Q2 primarily driven by significant increase in PPI information request (PIR) volumes
- PIRs are first stage in CMC complaints process
- Historic run rate of c.70k PIRs driving c.9k complaints per week with a further c.4k complaints coming direct
- Average c.150k PIRs per week in Q2 and c.190k currently; will drive higher complaints in Q3
- Outstanding provision of £1.1bn assumes 190k PIRs per week with lower quality until 29 August industry deadline
- PIR and complaint volumes remain uncertain

Statements that are not historical facts, including statements about the Group's or its directors' and/or management's beliefs and expectations, are forward looking statements. By their nature, forward looking statements involve risk and uncertainty because they relate to events and depend upon circumstances that will or may occur in the future. Factors that could cause actual business, strategy, plans and/or results (including but not limited to the payment of dividends) to differ materially from forward looking statements made by the Group or on its behalf include, but are not limited to: general economic and business conditions in the UK and internationally; market related trends and developments; fluctuations in interest rates, inflation, exchange rates, stock markets and currencies; any impact of the transition from IBORs to alternative reference rates; the ability to access sufficient sources of capital, liquidity and funding when required; changes to the Group's credit ratings; the ability to derive cost savings and other benefits including, but without limitation as a result of any acquisitions, disposals and other strategic transactions; the ability to achieve strategic objectives; changing customer behaviour including consumer spending, saving and borrowing habits; changes to borrower or counterparty credit quality; concentration of financial exposure; management and monitoring of conduct risk; instability in the global financial markets, including Eurozone instability, instability as a result of uncertainty surrounding the exit by the UK from the European Union (EU) and as a result of such exit and the potential for other countries to exit the EU or the Eurozone and the impact of any sovereign credit rating downgrade or other sovereign financial issues; political instability including as a result of any UK general election; technological changes and risks to the security of IT and operational infrastructure, systems, data and information resulting from increased threat of cyber and other attacks; natural, pandemic and other disasters, adverse weather and similar contingencies outside the Group's control; inadequate or failed internal or external processes or systems; acts of war, other acts of hostility, terrorist acts and responses to those acts, geopolitical, pandemic or other such events; risks relating to climate change; changes in laws, regulations, practices and accounting standards or taxation, including as a result of the exit by the UK from the EU, or a further possible referendum on Scottish independence; changes to regulatory capital or liquidity requirements and similar contingencies outside the Group's control; the policies, decisions and actions of governmental or regulatory authorities or courts in the UK, the EU, the US or elsewhere including the implementation and interpretation of key legislation and regulation together with any resulting impact on the future structure of the Group; the ability to attract and retain senior management and other employees and meet its diversity objectives; actions or omissions by the Group's directors, management or employees including industrial action; changes to the Group's post-retirement defined benefit scheme obligations; the extent of any future impairment charges or write-downs caused by, but not limited to, depressed asset valuations, market disruptions and illiquid markets; the value and effectiveness of any credit protection purchased by the Group; the inability to hedge certain risks economically; the adequacy of loss reserves; the actions of competitors, including non-bank financial services, lending companies and digital innovators and disruptive technologies; and exposure to regulatory or competition scrutiny, legal, regulatory or competition proceedings, investigations or complaints. Please refer to the latest Annual Report on Form 20-F filed with the US Securities and Exchange Commission for a discussion of certain factors and risks together with examples of forward looking statements. Except as required by any applicable law or regulation, the forward looking statements contained in this document are made as of today's date, and the Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward looking statements contained in this document to reflect any change in the Group’s expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. The information, statements and opinions contained in this document do not constitute a public offer under any applicable law or an offer to sell any securities or financial instruments or any advice or recommendation with respect to such securities or financial instruments.

Basis of presentation
The results of the Group and its business are presented in this presentation on an underlying basis. The principles adopted in the preparation of the underlying basis of reporting are set out on the inside front cover of the 2019 Half-Year Results News Release.
