## **BOS (SHARED APPRECIATION MORTGAGES) NO. 4 PLC STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2014**

The directors present their strategic report and the audited financial statements for BOS (Shared Appreciation Mortgages) NO. 4 plc (the "Company") for the year ended 31 December 2014.

### **PRINCIPAL ACTIVITIES**

The principal activity of the Company is to finance mortgage lending. In 1998 the Company issued £203.7m floating rate notes (the "Notes"). Following a business restructure on 28 February 2011 the terms of the Notes were modified and bear a zero rate of interest until 2073. The Notes are secured on the mortgage portfolio. The capital appreciation realised on the sale of a mortgage holder's property is shared between the mortgage holder and the Company as set out in the original loan agreement. The Company pays its entire share of the appreciation to Note holders.

The activities of the Company are conducted primarily by reference to a series of transaction documents (the "Programme Documentation").

Movements in the mortgage book are disclosed in the notes to the financial statements.

### **BUSINESS STRUCTURE**

The Company is a subsidiary undertaking of Bank of Scotland plc ("BOS") and ultimately Lloyds Banking Group plc ("LBG").

### **BUSINESS REVIEW AND PERFORMANCE**

No new mortgages were acquired or originated by the Company in the year and no new Notes were issued.

The profit for the financial year amounted to £148,951 (2013: £1,726,806). Total equity as at 31 December 2014 amounted to £2,812,731 (2013: £5,163,780).

The Company's business will continue to unwind over the life of the mortgages issued as no further advances will be made. Cash is continuing to be collected.

The principal asset in the Company is a mortgage portfolio which is subject to an annual impairment review. The mortgage portfolio is subject to the economic factors relating to the housing market (see "Credit Risk" below). The Company's results are not impacted by changes in interest rates as the mortgage loans and Notes bear a zero rate of interest. No impairment provision was deemed necessary as at 31 December 2014 or 31 December 2013.

Under International Financial Reporting Standards ("IFRSs") the mortgages and Notes are recognised initially at fair value with an appropriate effective yield adjustment recognised in the income statement. Subsequent measurement is at amortised cost with revenue being recognised using the effective interest method. The discount arising on initial recognition is being amortised over the expected life of the mortgages.

### **KEY PERFORMANCE INDICATORS**

The key performance indicator used by management in assessing the performance of the Company is the monitoring of actual cash flows against planned cash flows on the Notes.

The Company has made all necessary payments on the Notes in accordance with the scheduled repayment dates for the year ended 31 December 2014.

The Company's performance is addressed in the quarterly management accounts provided to the directors.

**BOS (SHARED APPRECIATION MORTGAGES) NO. 4 PLC**  
**STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2014 (CONTINUED)**

**RISK MANAGEMENT**

The majority of the Company's assets and liabilities have been classified as financial instruments in accordance with IAS 32 "Financial Instruments: Presentation".

The Company's financial instruments comprise a mortgage portfolio, cash and liquid resources, an embedded derivative, loans and borrowings and various other payables that arise directly from its operations.

It is, and has been throughout the year under review, the Company's policy that no trading in financial instruments is undertaken.

The principal risk arising from the Company's financial instruments is credit risk. This and other risks which may affect the Company's performance are detailed below. Further analysis of the risks facing the Company on its financial instruments is provided in note 15.

**Credit Risk**

Credit risk arises on the individual loans within the mortgage loan portfolio which are in turn secured on the underlying UK residential properties. The performance of these loans is therefore influenced by the economic background and the UK housing market. However, the maximum loan-to-value of the original advances was 25% hence the credit exposure is low.

The extent to which the Company can meet its obligations to repay the Notes will be dependent upon the principal receipts on the mortgage loans. If this income does not provide sufficient funds, the Note holders have no claim on the assets of BOS.

The terms of the Mortgage Portfolio Agreement given by BOS in respect of the mortgages require BOS to repurchase any mortgage which is found to be in breach of warranty. BOS will repurchase any mortgages that are found or held not to be valid, binding and enforceable.

Although in such an event the total value of the outstanding loan will be covered by BOS, the Note holder will not receive the benefit of any future payments of appreciation amounts or partial repayment of appreciation amounts in respect of the mortgages repurchased.

**Market risk**

Market risk is the risk of financial losses to the Company in the event of movements in the prices of the market in which it operates. The Company's market is the UK residential housing market.

Under the terms of the Notes the Company is obligated to pay the Note holders the return on the shared appreciation that has accrued during the life of the mortgage loan at the rate implicit in the specific mortgage loan agreement as and when repaid by the mortgage loan customer. Shared appreciation is subject to the movement in the market value of the property which is dependent upon house price inflation, as measured by the Halifax House Price Index ("HPI").

However, the Company itself is not impacted by market risk as the risk of returns on the Notes being below initial expectations lies with the Note holder and there are no guarantees within the terms of the Notes for expected increases in value.

**BOS (SHARED APPRECIATION MORTGAGES) NO. 4 PLC**  
**STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2014 (CONTINUED)**

**RISK MANAGEMENT (CONTINUED)**

**Interest rate risk**

On 28 February 2011, the with the closure of the Guaranteed Investment Contract account (the "GIC") and partial repayment of the Notes on which the GIC account was a guarantee for their repayment, the Company's exposure to interest rate risk is limited to interest earned on its bank accounts, as both the mortgage loans and the remaining Notes pay a zero rate of interest. Therefore, it is not considered to be a significant risk.

**Liquidity risk**

The Company holds a Reserve Account of £1,697,250 deposited with BOS which, should it be needed, can be used to withdraw money to meet its obligations. The reliance on this facility is therefore dependent on the creditworthiness of BOS. The Company has not drawn on this facility since inception.

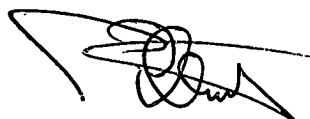

**Operational risk**

In accordance with the Programme Documentation the Company is bound to make payments to meet third party expenses.

To mitigate this risk the directors hold quarterly board meetings to review the performance of the Company and ensure that the Company is in a position to meet all necessary payments.

BOS has been appointed to act as account bank and servicer of the mortgage book on behalf of the Company. The Company also uses the Bank of New York Mellon to provide all corporate services in respect of the Notes in issue.

**BOS (SHARED APPRECIATION MORTGAGES) NO. 4 PLC  
DIRECTORS' REPORT FOR THE YEAR ENDED 31 DECEMBER 2014**

The directors present their annual report and the audited financial statements for BOS (Shared Appreciation Mortgages) NO. 4 plc (the "Company") for the year ended 31 December 2014.

**DIRECTORS**

The directors who served during the year and up to the date of signing the financial statements are listed on page 1.

**STATEMENT OF DIRECTORS' RESPONSIBILITIES**

Directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable International Financial Reporting Standards (IFRSs) as adopted by the European Union have been followed, subject to any material departures disclosed and explained in the financial statements;

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**DISCLOSURE OF INFORMATION TO AUDITORS**

So far as the directors are aware, there is no relevant audit information of which the Company's auditors are unaware, and the directors have taken all the steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information. This confirmation is given, and should be interpreted, in accordance with the provisions of section 418(2) of the Companies Act 2006.

**DIRECTORS' INDEMNITIES**

Lloyds Banking Group plc has granted to the Directors of the Company a deed of indemnity through deed poll which constituted 'qualifying third party indemnity provisions' for the purposes of the Companies Act 2006. The deed was in force during the whole of the financial year and at the date of approval of the financial statements or from the date of appointment in respect of the Director who joined the Board of the Company during the financial year. The indemnity remains in force for the duration of a Director's period of office. The deed indemnifies the Directors to the maximum extent permitted by law. The Deed for existing Directors is available for inspection at the registered office of Lloyds Banking Group plc (see note 19). In addition, Lloyds Banking Group plc has in place appropriate Directors and Officers Liability Insurance cover which was in place throughout the financial year.

**BOS (SHARED APPRECIATION MORTGAGES) NO. 4 PLC  
DIRECTORS' REPORT FOR THE YEAR ENDED 31 DECEMBER 2014 (CONTINUED)**

**FUTURE DEVELOPMENTS**

The Company's business will continue to unwind over the life of the mortgages issued as no further advances will be made. Cash is continuing to be collected. A review of the business can be found in the Strategic Report.

**DIVIDENDS**

The directors recommended and paid a dividend of £2,500,000 during the year ended 31 December 2014 (2013: £nil).

**RISK MANAGEMENT**

Further details on the risks facing the Company and how these risks are managed are detailed in the Strategic Report.

**EMPLOYEES**

The Company had no employees during the year ended 31 December 2014 or the previous year.

**INDEPENDENT AUDITORS**

A resolution will be proposed at the 2015 Annual General Meeting to re-appoint PricewaterhouseCoopers LLP as auditors of the Company.

**STATEMENT OF GOING CONCERN**

The directors are satisfied that the Company has adequate resources to continue to operate for the foreseeable future and is financially sound. For this reason, they continue to adopt the going concern basis in preparing these financial statements.

INDEPENDENT AUDITORS' REPORT  
TO THE MEMBERS OF BOS (SHARED APPRECIATION MORTGAGES) NO. 4 PLC**

**REPORT ON THE FINANCIAL STATEMENTS**

**Our opinion**

In our opinion, BOS (Shared Appreciation Mortgages) No.4 plc financial statements (the "financial statements"):

- give a true and fair view of the state of the company's affairs as at 31 December 2014 and of its profit and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

**What we have audited**

BOS (Shared Appreciation Mortgages) No.4 plc's financial statements comprise:

- the balance sheet as at 31 December 2014;
- the statement of comprehensive income for the year then ended;
- the cash flow statement for the year then ended;
- the statement of changes in equity for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies and other explanatory information.

The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

In applying the financial reporting framework, the directors have made a number of subjective judgements, for example in respect of significant accounting estimates. In making such estimates, they have made assumptions and considered future events.

**OPINION ON OTHER MATTER PRESCRIBED BY THE COMPANIES ACT 2006**

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

**OTHER MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION**

**Adequacy of accounting records and information and explanations received**

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

**Directors' remuneration**

Under the Companies Act 2006 we are required to report to you if, in our opinion, certain disclosures of directors' remuneration specified by law are not made. We have no exceptions to report arising from this responsibility.

**INDEPENDENT AUDITORS' REPORT**  
**TO THE MEMBERS OF BOS (SHARED APPRECIATION MORTGAGES) NO. 4 PLC**  
**(CONTINUED)**

**RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS AND THE AUDIT**

**Our responsibilities and those of the directors**

As explained more fully in the Statement of Directors' Responsibilities set out on page 5, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and ISAs (UK & Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

**What an audit of financial statements involves**

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) ("ISAs (UK & Ireland)"). An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of:

- whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed;
- the reasonableness of significant accounting estimates made by the directors; and
- the overall presentation of the financial statements.

We primarily focus our work in these areas by assessing the directors' judgements against available evidence, forming our own judgements, and evaluating the disclosures in the financial statements.

We test and examine information, using sampling and other auditing techniques, to the extent we consider necessary to provide a reasonable basis for us to draw conclusions. We obtain audit evidence through testing the effectiveness of controls, substantive procedures or a combination of both.

In addition, we read all the financial and non-financial information in the Annual Report and Financial Statements to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

**BOS (SHARED APPRECIATION MORTGAGES) NO. 4 PLC**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2014**

**1. SIGNIFICANT ACCOUNTING POLICIES**

BOS (Shared Appreciation Mortgages) NO. 4 plc is a public limited company domiciled and incorporated in the United Kingdom.

**(a) Statement of compliance**

The financial statements for the year ended 31 December 2014 have been prepared in accordance with EU adopted International Financial Reporting Standards (IFRSs) and interpretations issued by the IFRS Interpretations Committee (IFRS IC). The standards applied by the Company are those endorsed by the European Union and effective at the date the financial statements are approved by the Board. All accounting policies have been consistently applied in the financial statements.

The Company has adopted the following new and relevant IFRS pronouncement which became effective for financial years beginning on or after 1 January 2013. This has not had a material impact on these company financial statements.

- *Amendments to IAS 32 Financial Instruments: Presentation – Offsetting Financial Assets and Financial Liabilities*

The amendments to IAS 32 clarify the requirements for offsetting financial instruments and address inconsistencies identified in applying the offsetting criteria used in the standard.

The financial statements have been prepared in accordance with the Companies Act 2006 as applicable to companies using IFRSs and comply with the relevant provisions of Part XV of the Companies Act 2006.

The Company is reliant on funding provided by BOS which is a subsidiary of LBG. Lloyds Bank plc has provided letters of support dated 26 February 2015 stating that in its capacity as the indirect parent of BOS, it will continue to provide access to adequate liquidity and capital resources for the foreseeable future and, accordingly, the directors of the Company are satisfied that the financial statements have been prepared on a going concern basis.

The financial statements are presented in sterling which is the Company's functional and presentation currency and have been prepared on the historical cost basis (except that derivative financial instruments are stated at fair value).

**(b) Interest income and interest payable**

Interest receivable and similar income and interest payable and similar charges have been calculated using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or liability and of allocating the interest income or interest expense over the expected life of the financial instrument. The effective interest rate is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the future cash flows are estimated after considering all the contractual terms of the instrument.

**BOS (SHARED APPRECIATION MORTGAGES) NO. 4 PLC**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2014 (CONTINUED)**

**1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(c) Taxation**

Income tax recognised in the Statement of Comprehensive Income comprises both current and deferred tax. Current income tax, which is payable on taxable profits, is recognised as an expense in the period in which the profits arise.

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax is determined using tax rates that have been enacted or substantially enacted by the balance sheet date which are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

The Company's tax charge is calculated on an IFRS basis and disclosed in accordance with IAS 12.

**(d) Financial instruments**

The Company's financial instruments comprise a mortgage portfolio, cash and liquid resources, an embedded derivative, loans and borrowings and various other payables that arise directly from its operations.

The main purpose of these financial instruments is to raise finance for the Company's operations. These financial instruments are classified in accordance with the principles of IAS 39 as described below.

**(d)(i) Mortgage portfolio**

The Company's mortgage portfolio comprises mortgage loans with no fixed maturity date. The individual mortgage loans terminate on the earlier of the date of sale of the property or the death of the mortgage account holder.

Under IAS 39, the mortgage portfolio is classified within "loans and receivables". The initial measurement is at fair value (excluding amounts for the shared appreciation referred to in (d)(iv) below). Subsequent measurement is at amortised cost with revenue being recognised using the effective interest method. The discount arising on initial recognition is being amortised over the expected life of the mortgages.

At each reporting period end, the Company assesses whether there is any objective evidence that mortgage loans within the portfolio are impaired. The directors do not consider that a provision for impaired assets is currently required.

**(d)(ii) Cash and cash equivalents**

The Company holds bank accounts with BOS, its parent undertaking. These accounts are held in the Company's name and meet the definition of cash and cash equivalents. The use of certain accounts is restricted by a detailed priority of payments set out in the Programme Documentation. As the cash can only be used to meet certain specific liabilities and is not available to be used with discretion, it is viewed as restricted cash.

These bank accounts are classified within "loans and receivables" in accordance with IAS 39 and income is being recognised using the effective interest method.

**BOS (SHARED APPRECIATION MORTGAGES) NO. 4 PLC**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2014 (CONTINUED)**

**1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(d) Financial instruments (continued)**

**(d)(iii) Loans and borrowings**

The Company's loans and borrowings comprise mortgage-backed Notes that have been issued in the capital market.

Loans and borrowings are recognised initially at fair value less directly related incremental transaction costs. Subsequent to initial recognition, loans and borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest basis.

**(d)(iv) Embedded derivatives**

Certain derivatives are embedded within other non-derivative host financial instruments to create a hybrid instrument. Where the economic characteristics and risks of the embedded derivatives are not closely related to the economic characteristics and risks of the host instrument, and where the hybrid instrument is not measured at fair value, the embedded derivative is separated from the host instrument with changes in fair value of the embedded derivative recognised in the income statement. Depending on the classification of the host instrument, the host is then measured in accordance with IAS 39.

The capital appreciation arising on the sale of a mortgage holder's property is shared between the mortgage holder and the Company as set out in the original loan agreement. The Company pays its entire share of the appreciation to the Note holders.

The economic characteristics and risks of the shared appreciation rights receivable and payable are not viewed as being closely related to those arising on the mortgages and Notes, respectively. The shared appreciation rights receivable and payable have therefore been valued separately from the mortgages and Notes using current HPI at balance sheet date. There is uncertainty regarding the timing of any future shared appreciation. As a borrower could sell immediately the directors consider that spot price is the best estimate of shared appreciation and therefore current HPI is used.

The resulting fair value movements of these embedded derivatives are recorded in net fair value gains and losses on derivatives in the income statement and the embedded derivatives are shown separately on the face of the balance sheet. The host instruments are valued at amortised cost, as noted above in (d)(i) and (d)(iii).

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2014 (CONTINUED)**

**1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(e) Critical accounting judgements and estimates**

The preparation of the financial statements necessarily requires the exercise of judgement both in the application of accounting policies and in the selection of assumptions used in the calculation of estimates. These judgements are reviewed on an ongoing basis and are continually evaluated based on historical experience and other factors. The most significantly affected components of the financial statements and associated critical judgements are as follows:

**Effective interest rate method**

The effective interest rate is calculated on initial recognition of the financial asset or liability, estimating the future cash flows after considering all the contractual terms of the instrument. The calculation includes all amounts expected to be paid or received by the Company including expected early redemption fees and related penalties and premiums and discounts that are an integral part of the overall return. Direct incremental transaction costs related to the acquisition, issue or disposal of a financial instrument are also taken into account in the calculation. Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

For the purpose of the effective yield calculation on the Notes, an average expected life has been calculated based on prepayment expectations for the mortgages. This is revised on a regular basis, considering actual redemption experience and actual contractual terms of Notes.

**Fair value**

Fair value is defined as the value at which assets, liabilities or positions could be closed out or sold in a transaction with a willing and knowledgeable counterparty.

The value of the embedded derivative has been calculated separately from the host contract using current HPI at balance sheet date. All inputs into the valuation models are obtained from observable market data. No assumption for future HPI has been included as the directors do not consider it is possible to make a reliable estimate on this basis. As a borrower could sell immediately, spot price is deemed more appropriate to use.

There are no other derivative financial instruments.

**(f) Fees and commissions**

Fees and commissions receivable for the continuing servicing of loans and receivables are recognised on the basis of services provided. Other fees are recognised when receivable.

**(g) Dividends**

Dividends on ordinary shares are recognised in equity in the year in which they are paid.

**(h) Trade and other payables**

Trade and other payables are stated at cost or at amortised cost if deemed to be a financial liability.

The current tax liability of £51,898 (2013: £55,313) represents the net amount of income tax payable in respect of the current year.

The adjustment in respect of prior years relates to an amount of group relief paid for by the company but subsequently made available for £nil payment. The credit represents the reversal of the tax charge.

The Finance Act 2013, which was substantively enacted on 2 July 2013, included legislation to reduce the main rate of corporation tax from 23% to 21% with effect from 1 April 2014 and 20% with effect from 1 April 2015.

The Company holds bank accounts with BOS. The use of the accounts is restricted by a detailed priority of payments set out in the Programme Documentation. As the cash can only be used to meet certain specific liabilities and is not available to be used with discretion, it is viewed as restricted cash. The accounts are held in the Company's name and meet the definition of cash and cash equivalents, therefore amounts are repayable on demand.

At 31 December	18,484,763	19,494,851

The mortgage loans advanced by the Company have no fixed maturity date but would terminate on the earlier of the date of sale of the property or the death of the mortgage account holder. Therefore all mortgage loans are considered to be non-current as maturity cannot be reasonably determined, with the exception of an amount of £1,045,091 (2013:£1,045,090) in respect of the discount amortisation due within 12 months.

**10. SHARED APPRECIATION RIGHTS RECEIVABLE / PAYABLE**

The Company is contractually obliged to pay to the Note holders any amounts received from mortgage customers for the shared appreciation. A corresponding embedded derivative liability has therefore been recognised in the balance sheet.

As the shared appreciation rights receivable are intrinsically linked to the maturity of the mortgage loans which have no fixed maturity, then the balance is considered to be non-current (see note 9).

The mortgage-backed Notes are due in 2073. On 28 February 2011, the interest rate applicable to the Notes was changed as part of the restructure and the Notes now bear a zero rate of interest until 2073. At the end of the year the Notes, as rated by S&P, had a rating of A (2013: rating of AAA).

The Notes carry rights to receive certain amounts calculated by reference to the value of shared appreciation proceeds received from redeemed mortgages. The Notes are subject to mandatory part redemption from time to time based on the level of redeemed mortgages and can be redeemed in full, in certain circumstances, at the option of the Company. The Notes are secured on the mortgage portfolio, the bank accounts and certain other assets of the Company.

	<hr/>	<hr/>

The Company is a directly held subsidiary undertaking of BOS.

The £1 deferred share is held by Deutsche Trustee Company Limited (formerly Bankers Trustee Company Limited).

The holder of the ordinary shares is entitled to receive dividends as declared from time to time.

The deferred share carries no entitlement to any dividend or to any share in any surplus assets of the Company on a winding-up, other than the right to be repaid the amount of any paid-up share capital thereon. The right to be repaid any paid-up share capital in the deferred share shall be deferred until after all paid-up share capital has been first repaid on all other classes of issued share capital in the Company.

The deferred share carries the right to receive notice of all general meetings of the Company but does not carry the right to attend, speak or vote at a general meeting unless a resolution is to be proposed abrogating, varying or modifying any of the rights or privileges of the holder of the deferred share, or for the winding up or administration of the Company under the Insolvency Act 1986, or for the entry by the Company with any other party into a merger, reconstruction, scheme of arrangement or amalgamation of or affecting the Company, in any of which cases such holder shall have the right to attend such general meeting and shall be entitled to speak and vote. Whenever the holder of the deferred share is entitled to vote at a general meeting, such holder shall have one vote and on a poll such number of votes as is equal to 34% of the number of votes attached to all other issued shares of the Company.

**15. MANAGEMENT OF RISK**

The principal risk arising from the Company's financial instruments is credit risk. However, considerable resource is given to maintaining effective controls to manage, measure and mitigate this risk. Further detailed analysis of this risk and other risks facing the Company in relation to its financial instruments is provided below.

The Company's exposure to risk on its financial instruments and the management of such risk is largely determined at the inception of the securitisation transaction. The Company's activities and the role of each party to the transaction are clearly defined and documented.

**BOS (SHARED APPRECIATION MORTGAGES) NO. 4 PLC**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2014 (CONTINUED)**

**15. MANAGEMENT OF RISK (CONTINUED)**

**15(a) Credit risk**

Credit risk is the risk of financial loss arising from a customer's failure to settle financial obligations as they fall due.

Credit risk arises on the individual loans within the mortgage portfolio which are in turn secured on the underlying UK residential properties. The performance of these loans is therefore influenced by the economic background and the UK housing market. Mortgage loans are no longer offered by the Company but the maximum loan-to-value of the original advances was 25% and the credit risk is considered to be low.

The extent to which the Company can meet its obligations to repay the Notes will be dependent upon the principal receipts on the mortgages. To the extent that this income does not provide sufficient funds to cover the repayment of the Notes, the Note holders have no claim on the assets of BOS.

The terms of the Mortgage Portfolio Agreement given by BOS in respect of the mortgages require BOS to repurchase any mortgage which is found to be in breach of warranty. BOS will repurchase any mortgages that are found or held not to be valid, binding and enforceable.

Although in such an event the total value of the outstanding loan will be covered by BOS, the Note holder will not receive the benefit of any future payments of appreciation amounts or partial repayment of appreciation amounts in respect of the mortgages repurchased. In terms of the shared appreciation, in accordance with the Programme Documentation, amounts received by the Company from the borrower are required to be paid over to the Note holders.

All loans in the mortgage portfolio pay a zero rate of interest. As a result, there are no arrears of interest, properties in possession or bad debts within the Company. With this combined with the low loan-to-value of the properties no impairment provision is considered to be necessary at 31 December 2014 or 31 December 2013. The maximum exposure to credit risk arising on the Company's financial assets at the reporting date is disclosed in the table below.

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2014 (CONTINUED)**

**15. MANAGEMENT OF RISK (CONTINUED)**

**15(b) Market risk**

Market risk is the risk of financial losses to the Company in the event of movements in the prices of the market in which it operates. The Company's market is the UK residential housing market.

Under the terms of the Notes the Company is obligated to pay the Note holders the return on the shared appreciation that has accrued during the life of the mortgage loan at the rate implicit in the specific mortgage loan agreement as and when repaid by the mortgage loan customer. Shared appreciation is subject to the movement in the market value of the property which is dependent upon house price inflation, as measured by the Halifax House Price Index ("HPI").

However, the Company itself is not impacted by market risk as the risk of returns on the Notes being below initial expectations lies with the Note holder and there are no guarantees within the terms of the Notes for expected increases in value.

**15(c) Interest rate risk**

On 28 February 2011, with the closure of the Guaranteed Investment Contract account (the "GIC") and partial repayment of the Notes on which the GIC account was a guarantee for their repayment, the Company's exposure to interest rate risk is limited to interest earned on its bank accounts, as both the mortgage loans and the remaining Notes pay a zero rate of interest. Therefore, it is not considered to be a significant risk with no impact if there was a 100 basis points movement in interest rates.

**15(d) Liquidity risk**

Liquidity risk is the risk that the Company is not able to meet its financial obligations as they fall due or can do so only at an unacceptably high cost.

The Company holds a Reserve Account of £1,697,250 to assist the Company should it not be able to meet its obligations. The reliance on this facility is therefore dependent upon the creditworthiness of BOS, which currently has a long term rating from Standard and Poor's (S&P) of A (2013: S&P long-term rating: A). The Company has not drawn on this facility since inception.

The liquidity tables reflect the undiscounted cash payments which will fall due if the structure continues until the earliest contractual maturity date as set out in the Programme Documentation. The Note repayment profile mirrors the repayment of the mortgages, and based on current modelling assumptions, it is not anticipated that any mortgages will still be outstanding beyond the original step-up date of February 2028.

**FOR THE YEAR ENDED 31 DECEMBER 2014 (CONTINUED)**

**15. MANAGEMENT OF RISK (CONTINUED)**

**15(e) Fair values**

The financial instruments below are analysed by valuation method. The different levels are defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

**Financial assets and liabilities carried at fair value**

	2014 £ Level 2	2013 £ Level 2

Shared appreciation rights payable	(178,223,037)	(158,710,946)
	<hr/>	<hr/>

**Share appreciation rights**

The shared appreciation rights receivable and shared appreciation rights payable are measured at fair value. The fair value has been calculated by discounting expected cash flows at an appropriate market rate. All significant inputs into the valuation models are obtained from observable market data. For this reason, in accordance with "IFRS 7 Financial Instruments: Disclosures", the fair value measurement is considered to be Level 2 in the Fair Value Hierarchy.

**Financial assets and liabilities carried at amortised cost**

The table below analyses the fair values of the financial assets and liabilities of the Company which are carried at amortised cost.

**15(e) Fair values (continued)**

The fair value of the mortgage portfolio and loans and borrowings have been calculated by discounting future cash flows at an appropriate market rate and are considered to be Level 2 in the Fair Value Hierarchy in accordance with "IFRS 7 Financial Instruments: Disclosures".

Trade and other payables are recognised on an amortised cost basis that is considered to be a close approximation to fair value due to the short nature of these liabilities.

**16. RELATED PARTIES**

The Company is a subsidiary undertaking of BOS and ultimately LBG.

The Company receives bank interest from BOS on its bank deposits. BOS administers the mortgage portfolio on behalf of the Company, for which quarterly service fees are paid. A dividend of £2,500,000 was paid during the year (2013: £nil).

During the year the Company undertook the following transactions with companies in the LBG Group:

The following pronouncements are relevant to the Company but are not applicable for the year ended 31 December 2014 and have not been applied in preparing these financial statements. The full impact of these accounting changes is being assessed by the Company.

Pronouncement	Nature of change	IASB effective date
IFRS 9 <i>Financial Instruments</i> <sup>1</sup>	<p>Replaces IAS 39 <i>Financial Instruments: Recognition and Measurement</i>.</p> <p>IFRS 9 requires financial assets to be classified into three measurement categories, fair value through profit and loss, fair value through other comprehensive income and amortised cost, on the basis of the objectives of the entity's business model for managing its financial assets and the contractual cash flow characteristics of the instruments. The requirements for derecognition are broadly unchanged from IAS 39. The standard also retains most of the IAS 39 requirements for financial liabilities except for those designated at fair value through profit or loss whereby that part of the fair value change attributable to the entity's own credit risk is recorded in other comprehensive income. The classification and measurement change is not expected to have a significant impact on the Group.</p> <p>IFRS 9 also replaces the existing IAS 39 'incurred loss' impairment approach with an expected credit loss approach. Loan commitments and financial guarantees not measured at fair value through profit or loss are also in scope. Those changes may result in an increase in the Group's balance sheet provisions for credit losses at the initial application date (1 January 2018) depending upon the composition of the Group's amortised cost financial assets, as well as the general economic conditions and the future outlook.</p> <p>The hedge accounting requirements of IFRS 9 are more closely aligned with risk management practices and follow a more principle-based approach than IAS 39. The general hedging change is not expected to have a significant impact on the Group.</p>	Annual periods beginning on or after 1 January 2018
