BACKGROUND

The UK Financial Conduct Authority (**FCA**) has confirmed that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark (including US dollar rates for the purposes of quoting USD LIBOR) after the end of 2021 and expects that some panel banks will cease contributing to LIBOR panels at such time. In the U.S., the Alternative Reference Rates Committee (**ARRC**) has been convened by the Federal Reserve Board and the Federal Reserve Bank of New York and comprises a diverse set of private-sector entities, each with an important presence in markets affected by USD LIBOR, and a wide array of official-sector entities, including banking regulators, and other financial sector regulators, as *ex-officio* members.

ARRC has identified the Secured Overnight Financing Rate (**SOFR**) as the rate that represents best practice for use in certain new USD derivatives and other financial contracts. The Federal Reserve began to publish the Secured Overnight Financing Rate in April 2018. The Federal Reserve has also begun publishing historical indicative Secured Overnight Financing Rates going back to 2014.

The continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021, and regulators have urged market participants to take active steps to implement the transition to risk-free rates ahead of this deadline.

On the basis that, (i) for the Series 2018-5, the contingent period after the Final Maturity Date in November 2021 up to and including the Extended Due for Payment Date in November 2022 has a substantial duration post 2021 and (ii) for the Series 2019-5, the contingent period between the Final Maturity Date and the Extended Due for Payment Date of the Series 2019-5 falls after 2021, the Issuer has convened the Meetings for the purpose of enabling the relevant Covered Bondholders to consider and resolve, if they think fit, to approve the relevant Covered Bond Proposal (as further described below) by way of an Extraordinary Resolution in relation to the relevant Series implementing a change in Interest Basis which is solely applicable during the relevant Extended Due for Payment Period specified in the relevant Final Terms from USD LIBOR to SOFR and corresponding amendments to the relevant Term Advance.

The pricing methodology proposed for the amendment of the Margin on the conversion of the Interest Basis from USD LIBOR to SOFR uses only market observable screen spot rates. However, in light of the fact that the change in Interest Basis relates to Interest Periods which will not occur prior to the Final Maturity Date and otherwise has no impact upon the Interest Basis prior to the Final Maturity Date, these amendments will be implemented as soon as possible following the Pricing Date.

Copies of the draft Amended and Restated Final Terms, the Supplemental Trust Deeds, the Supplemental Agency Agreements and the Amended and Restated Covered Bond Swap Agreements relating to each Series (the **Amendment Documents**), as referred to in the Extraordinary Resolution below, have been reviewed by each of Fitch Ratings Limited (**Fitch**) and Moody's Investors Service Limited (**Moody's**). Fitch and Moody's have, based on the information provided to them, raised no comments in respect of the draft Amendment Documents.

COVERED BONDHOLDER PROPOSAL

Pursuant to the above, the Issuer has convened separate Meetings by the above notice to request that Covered Bondholders of each Series consider and agree by Extraordinary Resolution to the matters contained in the relevant Extraordinary Resolutions set out below.

The Issuer, under the Covered Bondholder Proposal, is requesting that the Covered Bondholders of the relevant Series consider and if thought fit, approve the relevant Extraordinary Resolution. If approved by the Covered Bondholders of the relevant Series, the Extraordinary Resolution will be binding on all holders of such Series of Covered Bonds, including those Covered Bondholders who do not vote in favour of the relevant Extraordinary Resolution or who do not vote in connection with the relevant Extraordinary Resolution.

In order to implement the change in Interest Basis applicable from, and including the Final Maturity Date to, but excluding the Extended Due for Payment Date of the relevant Series (each such period, the **Extended Due for Payment Period**) from 'USD LIBOR' to 'SOFR':

- (a) The Rate of Interest during the Extended Due for Payment Period for the relevant Series will continue to be a floating rate and will be SOFR plus an adjusted Margin (as described in paragraph (b) below and each an **Adjusted Margin**) as specified in the relevant Amended and Restated Final Terms. The detailed provisions relating to the calculation of Compounded Daily SOFR are set out in **Annex A** to this Notice.
- (b) The relevant Adjusted Margin will be the sum of relevant Margin and the USD LIBOR vs SOFR Interpolated Basis. The detailed provisions relating to the adjustment of the Margin for each Series and the calculation of the USD LIBOR vs SOFR Interpolated Basis by the Solicitation Agent are set out in **Annex B** to this Notice.

The relevant Adjusted Margin and the USD LIBOR vs SOFR Interpolated Basis will be announced to Covered Bondholders in accordance with Condition 13 (*Notices*) as soon as practicable following the Pricing Time on the relevant Pricing Date.

It is also proposed, that the Covered Bond Swaps in respect of the Series 2018-5 Covered Bonds and the Series 2019-5 Covered Bonds will be amended and restated in order to implement the change in Interest Basis from

'USD LIBOR' to 'SOFR' during the Extended Due for Payment Period applicable to the Series 2018-5 Covered Bonds and the Series 2019-5 Covered Bonds as described above.

Each Extraordinary Resolution, if passed, constitutes (amongst others) a direction by the Covered Bondholders of each Series to the Bond Trustee and the Security Trustee to consent to and to concur in the amendments to the Final Terms, the Conditions of the relevant Series, the relevant Covered Bond Swap Agreement, the relevant Term Advance for each Series and the Agency Agreement to implement relevant changes to each Series and each Covered Bond Swap Agreement in order to change the Interest Basis applicable during the relevant Extended Due for Payment Period from 'USD LIBOR' to 'SOFR', as more fully set out in the Amended and Restated Series 2018-5 Final Terms and the Amended and Restated Series 2019-5 Final Terms (as applicable) (together, the **Amended and Restated Final Terms**) and Amended and Restated Series 2018-5 Covered Bond Swap Agreement and the Amended and Restated Series 2019-5 Covered Bond Swap Agreement (as applicable) (together, the **Amended and Restated Covered Bond Swap Agreements**), together with the corresponding amendments as more fully set out in the other Amendment Documents and as may be necessary to give effect thereto, the **Covered Bondholder Proposal**).

The Covered Bondholder Proposal is being put to Covered Bondholders for the reasons set out in the Consent Solicitation Memorandum.

Covered Bondholders are referred to the Consent Solicitation Memorandum which provides further background to the Covered Bond Proposals and the reasons therefor.

CONSENT SOLICITATION

Covered Bondholders are further given notice that the Issuer has invited holders of the Covered Bonds of each Series (each such invitation a **Consent Solicitation**) to consent to the approval, by Extraordinary Resolution at the relevant Meeting, of the modification of the Conditions relating to the relevant Series as described in paragraph 1 of the relevant Extraordinary Resolution as set out below, all as further described in the Consent Solicitation Memorandum (as defined in paragraph 10 of the relevant Extraordinary Resolutions set out below).

The Consent Solicitation Memorandum and any other documents or materials relating to the Consent Solicitations are only for distribution or to be made available to persons who are (i) located and resident outside the United States and who are not U.S. persons (as defined in Regulation S under the Securities Act) or acting for the account or benefit of any U.S. person, (ii) eligible counterparties or professional clients (each as defined in MiFID II) and, if applicable and acting on a non-discretionary basis, who is acting on behalf of a beneficial owner that is also an eligible counterparty or a professional client, in each case in respect of the relevant Series of Covered Bonds and (iii) otherwise a person to whom the relevant Consent Solicitation can be lawfully made and that may lawfully participate in the relevant Consent Solicitation (all such persons **Eligible Covered Bondholders**).

Subject to the restrictions described in the previous paragraph, Covered Bondholders may obtain from the date of this Notice a copy of the Consent Solicitation Memorandum from the Tabulation Agent, the contact details for which are set out below. In order to receive a copy of the Consent Solicitation Memorandum, a Covered Bondholder will be required to provide confirmation as to his or her status as an Eligible Covered Bondholder.

Having regard to such requirements, Covered Bondholders are strongly urged either to attend (via teleconference) the Meeting or to take steps to be represented at the Meeting, as referred to below, as soon as possible.

VOTING AND QUORUM

1. The provisions governing the convening and holding of the Meeting are set out in Schedule 4 (*Provisions for Meetings of Covered Bondholders*) to the Trust Deed, a copy of which is available for inspection by the Covered Bondholders during normal business hours at the specified offices of the Principal Paying Agent on any weekday (public holidays excepted) and on the Issuer's Website up to and including the date of the Meetings and at the Meetings.

All of the Covered Bonds are represented by a global Covered Bond and are held by a common depository or common safekeeper for Euroclear Bank S.A./N.V. (**Euroclear**) and Clearstream Banking, S.A. (**Clearstream, Luxembourg**). For the purpose of the Meetings, a **Covered Bondholder** shall mean each person who is for the time being shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a particular Principal Amount Outstanding of the Covered Bonds.

Accordingly, Covered Bondholders wishing to vote in respect of the relevant Extraordinary Resolution are strongly urged either to contact their custodian (in the case of a beneficial owner whose Covered Bonds are held in book-entry form by a custodian) or the relevant Clearing System (in the case of a Covered Bondholder whose Covered Bonds are held in book-entry form directly in the relevant Clearing System), as soon as possible.

2.  - (a) the passing of the relevant Extraordinary Resolution; and
 - (b) the quorum required for, and the requisite majority of votes cast at, the relevant Meeting being satisfied by Eligible Covered Bondholders, irrespective of any participation at the relevant Meeting by Ineligible Covered Bondholders (including the satisfaction of such condition at an adjourned Meeting) (the **Eligibility Condition**),

ANNEX A

COMPOUNDED DAILY SOFR

The Rate of Interest for each Interest Accrual Period will, subject to Condition 14.2(d), and as provided below, be the Compounded Daily SOFR plus or minus the Margin, where:

Compounded Daily SOFR means, with respect to an Interest Accrual Period, the rate of return of a daily compound interest investment in U.S. Dollars (with the applicable SOFR as the reference rate for the calculation of interest) and will be calculated by the Principal Paying Agent (or such other party responsible for the calculation of the Rate of Interest) on the Interest Determination Date as follows, and the resulting percentage will be rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SOFR_{i-pUSBD} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

where:

d is the number of calendar days in the relevant Interest Accrual Period;

d₀ is the number of U.S. Government Securities Business Days in the relevant Interest Accrual Period;

i is a series of whole numbers from one to d₀, each representing the U.S. Government Securities Business Days in chronological order from, and including, the first U.S. Government Securities Business Day in the relevant Interest Accrual Period;

USBD means a U.S. Government Securities Business Day;

n_i, for any U.S. Government Securities Business Day "i", means the number of calendar days from and including such U.S. Government Securities Business Day "i" up to but excluding the following U.S. Government Securities Business Day;

p means the number of U.S. Government Securities Business Days included in the Observation Look-Back Period; and

SOFR_{i-pUSBD} means SOFR for the U.S. Government Securities Business Day (being a U.S. Government Securities Business Day falling in the relevant Observation Period) falling "p" U.S. Government Securities Business Days prior to the relevant U.S. Government Securities Business Day "i".

Subject to Condition 14.2(d), if SOFR is not available in respect of any U.S. Government Securities Business Day, then the reference rate shall be SOFR for the first preceding Business Day on which SOFR was published on the Federal Reserve Bank of New York's Website, and "SOFR" shall be interpreted accordingly.

For the purposes of Condition 4.2(b)(II), the following definitions will apply:

Federal Reserve Bank of New York's Website means the website of the Federal Reserve Bank of New York at <http://www.newyorkfed.org>, or any successor source (for the avoidance of doubt, this website (and/or any successor source) and the contents thereof do not form part of this document).

Observation Period means, in respect of an Interest Accrual Period, the period from and including the date falling "p" U.S. Government Securities Business Days prior to the first day of the relevant Interest Accrual Period and ending on, but excluding, the date which is "p" U.S. Government Securities Business Days prior to the Interest Payment Date for such Interest Accrual Period (or the date falling "p" U.S. Government Securities Business Days prior to such earlier date, if any, on which the Covered Bonds become due and payable).

SOFR means, in respect of any U.S. Government Securities Business Day, a reference rate equal to the daily Secured Overnight Financing Rate as provided by the Federal Reserve Bank of New York, as the administrator of such rate (or any successor administrator of such rate) on the Federal Reserve Bank of

New York's Website, in each case on or about 5:00 p.m. (New York City Time) on the U.S. Government Securities Business Day immediately following such U.S. Government Securities Business Day.

U.S. Government Securities Business Day means any day except for a Saturday, Sunday or a day on which the Securities Industry and Financial Markets Association (or any successor thereto) recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

If the relevant Series of Covered Bonds become due and payable in accordance with Condition 9, the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the applicable Final Terms, be deemed to be the date on which such Covered Bonds became due and payable and the Rate of Interest on such Covered Bonds shall, for so long as any such Covered Bond remains outstanding, be that determined on such date and as if (solely for the purpose of such interest determination) the relevant Interest Accrual Period had been shortened accordingly.

Effect of Benchmark Transition Event

If the Designated Transaction Representative determines on or prior to the relevant determination date that a Benchmark Transition Event has occurred with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR, then the Bond Trustee shall be obliged, without the consent or sanction of the Covered Bondholders (including without the requirement to provide to Covered Bondholders an opportunity to object) or any confirmation from any Rating Agencies, to concur with the Designated Transaction Representative in making any modification (other than in respect of a Series Reserved Matter, provided that neither replacing the then-current Benchmark with the Benchmark Replacement nor any Benchmark Replacement Conforming Changes (each as defined below) shall constitute in respect of a Series Reserved Matter) of the Conditions or any of the Transaction Documents solely with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR that the Designated Transaction Representative decides may be appropriate to give effect to the provisions set forth under this section titled "*Effect of Benchmark Transition Event*" in relation only to all determinations of the rate of interest payable on any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR (and any related swap agreements):

- I. If the Designated Transaction Representative determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any determination of the Benchmark on any date applicable to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR in respect of such determination on such date and all determinations on all subsequent dates.
- II. In connection with the implementation of a Benchmark Replacement with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR, the Designated Transaction Representative will have the right to make Benchmark Replacement Conforming Changes with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR from time to time.
- III. Any determination, decision or election that may be made by the Designated Transaction Representative pursuant to this section titled "*Effect of Benchmark Transition Event*", including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, in each case, solely with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR, will be conclusive and binding absent manifest error, may be made in the Designated Transaction Representative's sole discretion, and, notwithstanding anything to the contrary in the documentation relating to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR, shall become effective without consent, sanction or absence of objection from any other party (including Covered Bondholders).

IV. The following definitions shall apply with respect to this section titled “*Effect of Benchmark Transition Event*”:

Benchmark means, initially, SOFR, as applicable; provided that if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to SOFR, as applicable, or the then-current Benchmark, then “Benchmark” means the applicable Benchmark Replacement.

Benchmark Replacement means the first alternative set forth in the order below that can be determined by the Designated Transaction Representative as of the Benchmark Replacement Date:

- (2) the sum of: (a) the ISDA Fallback Rate and (b) the Benchmark Replacement Adjustment;
- (3) the sum of: (a) the alternate rate of interest that has been selected by the Designated Transaction Representative as the replacement for the then-current Benchmark for the applicable Corresponding Tenor giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Benchmark for any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to at such time and (b) the Benchmark Replacement Adjustment.

Benchmark Replacement Adjustment means the first alternative set forth in the order below that can be determined by the Designated Transaction Representative as of the Benchmark Replacement Date:

- (1) the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected, endorsed or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;
- (2) if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, then the ISDA Fallback Adjustment;
- (3) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Designated Transaction Representative giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR at such time.

Benchmark Replacement Conforming Changes means, with respect to any Benchmark Replacement, any technical, administrative or operational changes with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR (including changes to the definition of “Interest Accrual Period”, timing and frequency of determining rates and making payments of interest, changes to the definition of “Corresponding Tenor” solely when such tenor is longer than the Interest Accrual Period and other administrative matters) and any related swap agreements that the Designated Transaction Representative decides may be appropriate to reflect the adoption of such Benchmark Replacement with respect to any U.S. dollar denominated Floating Rate Covered

Bonds calculated by reference to SOFR in a manner substantially consistent with market practice (or, if the Designated Transaction Representative decides that adoption of any portion of such market practice is not administratively feasible or if the Designated Transaction Representative determines that no market practice for use of the Benchmark Replacement exists, in such other manner as the Designated Transaction Representative determines is reasonably necessary).

Benchmark Replacement Date means:

- (1) in the case of paragraph (1) or (2) of the definition of “Benchmark Transition Event,” the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of the relevant Benchmark permanently or indefinitely ceases to provide such Benchmark, or
- (2) in the case of paragraph (3) of the definition of “Benchmark Transition Event,” the date of the public statement or publication of information;

provided, however, that on or after the 60th day preceding the date on which such Benchmark Replacement Date would otherwise occur (if applicable), the Designated Transaction Representative may give written notice to holders of any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR in which the Designated Transaction Representative designates an earlier date (but not earlier than the 30th day following such notice) and represents that such earlier date will facilitate an orderly transition of any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR to the Benchmark Replacement, in which case such earlier date shall be the Benchmark Replacement Date.

For the avoidance of doubt, if the event giving rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination.

Benchmark Transition Event means the occurrence of one or more of the following events with respect to the then-current Benchmark (including any daily published component used in the calculation thereof):

- (1) a public statement or publication of information by or on behalf of the administrator of the Benchmark announcing that the administrator has ceased or will cease to provide the Benchmark permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark;
- (2) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark, the central bank for the currency of the Benchmark, an insolvency official with jurisdiction over the administrator for the Benchmark, a resolution authority with jurisdiction over the administrator for the Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator for the Benchmark, which states that the administrator of the Benchmark has ceased or will cease to provide the Benchmark permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark; or
- (3) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark announcing that the Benchmark is no longer representative.

Corresponding Tenor with respect to a Benchmark Replacement means a tenor (including overnight) having approximately the same length (disregarding business day adjustment) as the applicable tenor for the then-current Benchmark.

Designated Transaction Representative means, with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR and a particular obligation to be performed in connection with the transition to a Benchmark Replacement, the Issuer.

Federal Reserve Bank of New York's Website means the website of the Federal Reserve Bank of New York at <http://www.newyorkfed.org>, or any successor source (for the avoidance of doubt, this website (and/or any successor source) and the contents thereof do not form part of this document).

ISDA Definitions means the 2006 ISDA Definitions published by the International Swaps and Derivatives Association, Inc. or any successor thereto, as amended or supplemented from time to time, or any successor definitional booklet for interest rate derivatives published from time to time.

ISDA Fallback Adjustment means the spread adjustment, (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Benchmark for the applicable tenor.

ISDA Fallback Rate means the rate that would apply for derivatives transactions referencing the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Benchmark for the applicable tenor excluding the applicable ISDA Fallback Adjustment.

Reference Time with respect to any determination of the Benchmark means (1) if the Benchmark is SOFR, 2:00 p.m. (London time) on the day that is two London banking days preceding the date of such determination, and (2) if the Benchmark is not SOFR, the time determined by the Designated Transaction Representative in accordance with the Benchmark Replacement Conforming Changes.

Relevant Governmental Body means the Federal Reserve Board and/or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto.

SOFR means, in respect of any U.S. Government Securities Business Day, a reference rate equal to the daily Secured Overnight Financing Rate as provided by the Federal Reserve Bank of New York, as the administrator of such rate (or any successor administrator of such rate) on the Federal Reserve Bank of New York's Website, in each case on or about 5:00 p.m. (New York City Time) on the Business Day immediately following such U.S. Government Securities Business Day.

Unadjusted Benchmark Replacement means the Benchmark Replacement excluding the applicable Benchmark Replacement Adjustment.

- V. To the extent that there is any inconsistency between the conditions set out in this section titled "*Effect of Benchmark Transition Event*" and any other Condition, the statements in this section shall prevail with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR.

- VI. Notwithstanding anything to the contrary in this section titled “*Effect of Benchmark Transition Event*” or any Transaction Document, when implementing any replacement of the then-current Benchmark with the Benchmark Replacement or any Benchmark Replacement Conforming Changes pursuant to this section:
- a. the Bond Trustee shall not consider the interests of the Covered Bondholders, any other Secured Creditor or any other person and shall act and rely solely, and without further enquiry or liability, on any certificate or evidence provided to it by the Issuer and shall not be liable to the Covered Bondholders, any other Secured Creditor or any other person for so acting or relying, irrespective of whether any such replacement of the then-current Benchmark with the Benchmark Replacement or any Benchmark Replacement Conforming Changes is or may be materially prejudicial to the interests of any such person; and
 - b. the Bond Trustee shall not be obliged to agree to any modification which, in the sole opinion of the Bond Trustee, would have the effect of (i) exposing the Bond Trustee to any liability against which it has not been indemnified and/or secured and/or pre-funded to its satisfaction and/or (ii) increasing the obligations or duties, or decreasing the rights or protections, of the Bond Trustee in the Transaction Documents and/or these Conditions.
- VII. For the avoidance of doubt, the Issuer may propose that a Benchmark Replacement replace the then-current Benchmark and any Benchmark Replacement Conforming Changes on more than one occasion provided that the conditions set out in this section titled “*Effect of Benchmark Transition Event*” are satisfied.

ANNEX B

MARGIN ADJUSTMENT

Rationale for the Proposal

The pricing methodology proposed for the amendment of the Margin on conversion of the Interest Basis from USD LIBOR to SOFR uses only market observable screen spot rates. The pricing methodology will only be applied in respect of each of the Series that receives the support of investors via an Extraordinary Resolution. References in this Annex B shall be applied using the applicable terms defined in the Final Terms as amended following the Extraordinary Resolution applicable to that Series and shall be construed accordingly.

The date from which the proposed change in reference rate is to occur will be 18 December 2020 (the **Effective Date**).

The determination of the relevant market observable screen spot rates will take place at 2 p.m. London time (the **Pricing Time**) on 18 December 2020 (the **Pricing Date**). This is to ensure that the Pricing Date is as close as possible to the Expiration Deadline, following completion of the applicable Meeting.

For the avoidance of doubt, the margin adjustments set out herein do not apply to the Rate of Interest for the period up to but excluding the relevant Final Maturity Date for the Series.

The Margin Adjustment

The Rate of Interest for the relevant Series applicable for any period from and including the relevant Final Maturity Date to the relevant Extended Due for Payment Date shall be equal to Compounded Daily SOFR plus the relevant Margin adjusted as follows (the **Adjusted Margin**):

A. the Margin; *plus*

B. the USD LIBOR vs SOFR Interpolated Basis,

where:

A. the **Margin** means:

(a) in respect of the Series 2018-5 Covered Bonds, 0.320 per cent; and

(b) in respect of the Series 2019-5 Covered Bonds, 0.360 per cent;

B. **USD LIBOR vs SOFR Interpolated Basis** is the number of basis points rounded to the nearest 0.1 basis points (with 0.05 basis points rounded upwards) as calculated by the Solicitation Agent on the Pricing Date by means of linear interpolation to the relevant Final Maturity Date of the applicable USD LIBOR vs SOFR Basis as follows:

On the Pricing Date the Solicitation Agent will determine the applicable USD LIBOR vs SOFR Basis for the relevant Series as detailed below:

In respect of the Series 2018-5 Covered Bonds:

(a) the mid 9 Month USD LIBOR vs SOFR Basis (as quoted on the Bloomberg page IRSB45 at or around the Pricing Time, or such other page as may replace it on that information service, or on such similar or replacement service as may be determined by the Solicitation Agent); and

- (b) the mid 1 Year USD LIBOR vs SOFR Basis (as quoted on the Bloomberg page IRSB45 at or around the Pricing Time, or such other page as may replace it on that information service, or on such similar or replacement service as may be determined by the Solicitation Agent).

In respect of the Series 2019-5 Covered Bonds:

- (a) the mid 18 Month USD LIBOR vs SOFR Basis (as quoted on the Bloomberg page IRSB45 at or around the Pricing Time, or such other page as may replace it on that information service, or on such similar or replacement service as may be determined by the Solicitation Agent); and
- (b) the mid 2 Year USD LIBOR vs SOFR Basis (as quoted on the Bloomberg page IRSB45 at or around the Pricing Time, or such other page as may replace it on that information service, or on such similar or replacement service as may be determined by the Solicitation Agent).

Thereafter the Solicitation Agent will calculate the applicable USD LIBOR vs SOFR Interpolated Basis for each Series by:

- (i) Subtracting the applicable USD LIBOR vs SOFR Basis in sub-paragraph (a) above from the applicable USD LIBOR vs SOFR Basis in sub-paragraph (b) above for the relevant Series and multiplying the result of such subtraction by the relevant Maturity Weight for the relevant Series (and rounding the result of such multiplication to the nearest 0.1 basis points, with 0.05 basis points rounded upwards); and
- (ii) adding the applicable USD LIBOR vs SOFR Basis in sub-paragraph (a) above to the result calculated in accordance with sub-paragraph (i) for the relevant Series .

For the purposes of this calculation:

Maturity Weight means the amount, expressed as a percentage, calculated by dividing the actual number of days from (and including):

- (a) in respect of the Series 2018-5 Covered Bonds, the date falling exactly 9 months after the Pricing Date; and
- (b) in respect of the Series 2019-5 Covered Bonds, the date falling exactly 18 months after the Pricing Date;

in each case to (but excluding) the relevant Final Maturity Date of the applicable Series by the following:

- (a) in respect of the Series 2018-5 Covered Bonds, the number of days between the date falling exactly 9 months after the Pricing Date and the date falling exactly 1 year after the Pricing Date; and
- (b) in respect of the Series 2019-5 Covered Bonds, the number of days between the date falling exactly 18 months after the Pricing Date and the date falling exactly 2 years after the Pricing Date.

The Bloomberg page IRSB45 means the Screen Page “IRSB” in Bloomberg with the country set to “United States” and then selecting the “45) SOFR / LIBOR Basis” tab page.

The Adjusted Margin and the USD LIBOR vs SOFR Interpolated Basis for each applicable Series will be announced to Covered Bondholders in accordance with Condition 13 (*Notices*) as soon as practicable following the Pricing Time on the Pricing Date.

The detailed provisions relating to the calculation of Compounded Daily SOFR are set out in Annex A.
