3. CONDITION 4.2(B)(II) (SCREEN RATE DETERMINATION FOR FLOATING RATE COVERED BONDS)

With effect from the date hereof Condition 4.2(b)(ii) (Screen Rate Determination for Floating Rate Covered Bonds) shall be amended, in respect of the Series 2019-5 Covered Bonds only, to add the following sub-section at the end of Condition 4.2(b)(ii) (Screen Rate Determination for Floating Rate Covered Bonds):

"SOFR

The Rate of Interest for each Interest Accrual Period will, subject to Condition 14.2(d), and as provided below, be the Compounded Daily SOFR plus or minus the Margin, where:

Compounded Daily SOFR means, with respect to an Interest Accrual Period, the rate of return of a daily compound interest investment in U.S. Dollars (with the applicable SOFR as the reference rate for the calculation of interest) and will be calculated by the Principal Paying Agent (or such other party responsible for the calculation of the Rate of Interest) on the Interest Determination Date as follows, and the resulting percentage will be rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SOFR_{i-pUSBD} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

where:

d is the number of calendar days in the relevant Interest Accrual Period;

d₀ is the number of U.S. Government Securities Business Days in the relevant Interest Accrual Period;

i is a series of whole numbers from one to d_0 , each representing the U.S. Government Securities Business Days in chronological order from, and including, the first U.S. Government Securities Business Day in the relevant Interest Accrual Period;

USBD means a U.S. Government Securities Business Day;

n_i , for any U.S. Government Securities Business Day "i", means the number of calendar days from and including such U.S. Government Securities Business Day "i" up to but excluding the following U.S. Government Securities Business Day;

p means the number of U.S. Government Securities Business Days included in the Observation Look-Back Period; and

SOFR_{i-pUSBD} means SOFR for the U.S. Government Securities Business Day (being a U.S. Government Securities Business Day falling in the relevant Observation Period) falling "p" U.S. Government Securities Business Days prior to the relevant U.S. Government Securities Business Day "i".

Subject to Condition 14.2(d), if SOFR is not available in respect of any U.S. Government Securities Business Day, then the reference rate shall be SOFR for the first preceding Business Day on which SOFR was published on the Federal Reserve Bank of New York's Website, and "SOFR" shall be interpreted accordingly.

For the purposes of Condition 4.2(b)(ii), the following definitions will apply:

Federal Reserve Bank of New York's Website means the website of the Federal Reserve Bank of New York at <http://www.newyorkfed.org>, or any successor source (for the avoidance of doubt, this website (and/or any successor source) and the contents thereof do not form part of this document).

Observation Period means, in respect of an Interest Accrual Period, the period from and including the date falling "p" U.S. Government Securities Business Days prior to the first day of the relevant Interest Accrual Period and ending on, but excluding, the date which is "p" U.S. Government Securities Business Days prior to the Interest Payment Date for such Interest Accrual Period (or the date falling "p" U.S. Government Securities Business Days prior to such earlier date, if any, on which the Covered Bonds become due and payable).

SOFR means, in respect of any U.S. Government Securities Business Day, a reference rate equal to the daily Secured Overnight Financing Rate as provided by the Federal Reserve Bank of New York, as the administrator of such rate (or any successor administrator of such rate) on the Federal Reserve Bank of New York's Website, in each case on or about 5:00 p.m. (New York City Time) on the U.S. Government Securities Business Day immediately following such U.S. Government Securities Business Day.

U.S. Government Securities Business Day means any day except for a Saturday, Sunday or a day on which the Securities Industry and Financial Markets Association (or any successor thereto) recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

If the relevant Series of Covered Bonds become due and payable in accordance with Condition 9, the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the applicable Final Terms, be deemed to be the date on which such Covered Bonds became due and payable and the Rate of Interest on such Covered Bonds shall, for so long as any such Covered Bond remains outstanding, be that determined on such date and as if (solely for the purpose of such interest determination) the relevant Interest Accrual Period had been shortened accordingly.

Effect of Benchmark Transition Event

If the Designated Transaction Representative determines on or prior to the relevant determination date that a Benchmark Transition Event has occurred with respect to any U.S. dollar denominated

Floating Rate Covered Bonds calculated by reference to SOFR, then the Bond Trustee shall be obliged, without the consent or sanction of the Covered Bondholders (including without the requirement to provide to Covered Bondholders an opportunity to object) or any confirmation from any Rating Agencies, to concur with the Designated Transaction Representative in making any modification (other than in respect of a Series Reserved Matter, provided that neither replacing the then-current Benchmark with the Benchmark Replacement nor any Benchmark Replacement Conforming Changes (each as defined below) shall constitute in respect of a Series Reserved Matter) of the Conditions or any of the Transaction Documents solely with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR that the Designated Transaction Representative decides may be appropriate to give effect to the provisions set forth under this section titled “*Effect of Benchmark Transition Event*” in relation only to all determinations of the rate of interest payable on any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR (and any related swap agreements):

- I. If the Designated Transaction Representative determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any determination of the Benchmark on any date applicable to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR in respect of such determination on such date and all determinations on all subsequent dates.
- II. In connection with the implementation of a Benchmark Replacement with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR, the Designated Transaction Representative will have the right to make Benchmark Replacement Conforming Changes with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR from time to time.
- III. Any determination, decision or election that may be made by the Designated Transaction Representative pursuant to this section titled “*Effect of Benchmark Transition Event*”, including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, in each case, solely with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR, will be conclusive and binding absent manifest error, may be made in the Designated Transaction Representative’s sole discretion, and, notwithstanding anything to the contrary in the documentation relating to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR, shall become effective without consent, sanction or absence of objection from any other party (including Covered Bondholders).
- IV. The following definitions shall apply with respect to this section titled “*Effect of Benchmark Transition Event*”:

Benchmark means, initially, SOFR, as applicable; provided that if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to SOFR, as applicable, or the then-current Benchmark, then “Benchmark” means the applicable Benchmark Replacement.

Benchmark Replacement means the first alternative set forth in the order below that can be determined by the Designated Transaction Representative as of the Benchmark Replacement Date:

- (1) the sum of: (a) the alternate rate of interest that has been selected or recommended by the Relevant Governmental Body as the replacement for the then-current

Benchmark for the applicable Corresponding Tenor and (b) the Benchmark Replacement Adjustment;

- (2) the sum of: (a) the ISDA Fallback Rate and (b) the Benchmark Replacement Adjustment;
- (3) the sum of: (a) the alternate rate of interest that has been selected by the Designated Transaction Representative as the replacement for the then-current Benchmark for the applicable Corresponding Tenor giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Benchmark for any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to at such time and (b) the Benchmark Replacement Adjustment.

Benchmark Replacement Adjustment means the first alternative set forth in the order below that can be determined by the Designated Transaction Representative as of the Benchmark Replacement Date:

- (1) the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected, endorsed or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;
- (2) if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, then the ISDA Fallback Adjustment;
- (3) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Designated Transaction Representative giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR at such time.

Benchmark Replacement Conforming Changes means, with respect to any Benchmark Replacement, any technical, administrative or operational changes with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR (including changes to the definition of “Interest Accrual Period”, timing and frequency of determining rates and making payments of interest, changes to the definition of “Corresponding Tenor” solely when such tenor is longer than the Interest Accrual Period and other administrative matters) and any related swap agreements that the Designated Transaction Representative decides may be appropriate to reflect the adoption of such Benchmark Replacement with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR in a manner substantially consistent with market practice (or, if the Designated Transaction Representative decides that adoption of any portion of such market practice is not administratively feasible or if the Designated Transaction Representative determines that no market practice for use of the Benchmark Replacement exists, in such other manner as the Designated Transaction Representative determines is reasonably necessary).

Benchmark Replacement Date means:

- (1) in the case of paragraph (1) or (2) of the definition of “Benchmark Transition Event,” the later of (a) the date of the public statement or publication of

information referenced therein and (b) the date on which the administrator of the relevant Benchmark permanently or indefinitely ceases to provide such Benchmark, or

- (2) in the case of paragraph (3) of the definition of “Benchmark Transition Event,” the date of the public statement or publication of information;

provided, however, that on or after the 60th day preceding the date on which such Benchmark Replacement Date would otherwise occur (if applicable), the Designated Transaction Representative may give written notice to holders of any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR in which the Designated Transaction Representative designates an earlier date (but not earlier than the 30th day following such notice) and represents that such earlier date will facilitate an orderly transition of any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR to the Benchmark Replacement, in which case such earlier date shall be the Benchmark Replacement Date.

For the avoidance of doubt, if the event giving rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination.

Benchmark Transition Event means the occurrence of one or more of the following events with respect to the then-current Benchmark (including any daily published component used in the calculation thereof):

- (1) a public statement or publication of information by or on behalf of the administrator of the Benchmark announcing that the administrator has ceased or will cease to provide the Benchmark permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark;
- (2) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark, the central bank for the currency of the Benchmark, an insolvency official with jurisdiction over the administrator for the Benchmark, a resolution authority with jurisdiction over the administrator for the Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator for the Benchmark, which states that the administrator of the Benchmark has ceased or will cease to provide the Benchmark permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark; or
- (3) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark announcing that the Benchmark is no longer representative.

Corresponding Tenor with respect to a Benchmark Replacement means a tenor (including overnight) having approximately the same length (disregarding business day adjustment) as the applicable tenor for the then-current Benchmark.

Designated Transaction Representative means, with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR and a particular obligation to be performed in connection with the transition to a Benchmark Replacement, the Issuer.

Federal Reserve Bank of New York's Website means the website of the Federal Reserve Bank of New York at <http://www.newyorkfed.org>, or any successor source (for the avoidance of doubt, this website (and/or any successor source) and the contents thereof do not form part of this document).

ISDA Definitions means the 2006 ISDA Definitions published by the International Swaps and Derivatives Association, Inc. or any successor thereto, as amended or supplemented from time to time, or any successor definitional booklet for interest rate derivatives published from time to time.

ISDA Fallback Adjustment means the spread adjustment, (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Benchmark for the applicable tenor.

ISDA Fallback Rate means the rate that would apply for derivatives transactions referencing the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Benchmark for the applicable tenor excluding the applicable ISDA Fallback Adjustment.

Reference Time with respect to any determination of the Benchmark means (1) if the Benchmark is SOFR, 2:00 p.m. (London time) on the day that is two London banking days preceding the date of such determination, and (2) if the Benchmark is not SOFR, the time determined by the Designated Transaction Representative in accordance with the Benchmark Replacement Conforming Changes.

Relevant Governmental Body means the Federal Reserve Board and/or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto.

SOFR means, in respect of any U.S. Government Securities Business Day, a reference rate equal to the daily Secured Overnight Financing Rate as provided by the Federal Reserve Bank of New York, as the administrator of such rate (or any successor administrator of such rate) on the Federal Reserve Bank of New York's Website, in each case on or about 5:00 p.m. (New York City Time) on the Business Day immediately following such U.S. Government Securities Business Day.

Unadjusted Benchmark Replacement means the Benchmark Replacement excluding the applicable Benchmark Replacement Adjustment.

- V. To the extent that there is any inconsistency between the conditions set out in this section titled "*Effect of Benchmark Transition Event*" and any other Condition, the statements in this section shall prevail with respect to any U.S. dollar denominated Floating Rate Covered Bonds calculated by reference to SOFR.
- VI. Notwithstanding anything to the contrary in this section titled "*Effect of Benchmark Transition Event*" or any Transaction Document, when implementing any replacement of the then-current Benchmark with the Benchmark Replacement or any Benchmark Replacement Conforming Changes pursuant to this section:
- a. the Bond Trustee shall not consider the interests of the Covered Bondholders, any other Secured Creditor or any other person and shall act and rely solely, and without further enquiry or liability, on any certificate or evidence provided to it by the Issuer and shall not be liable to the Covered Bondholders, any other Secured Creditor or

any other person for so acting or relying, irrespective of whether any such replacement of the then-current Benchmark with the Benchmark Replacement or any Benchmark Replacement Conforming Changes is or may be materially prejudicial to the interests of any such person; and

- b. the Bond Trustee shall not be obliged to agree to any modification which, in the sole opinion of the Bond Trustee, would have the effect of (i) exposing the Bond Trustee to any liability against which it has not been indemnified and/or secured and/or pre-funded to its satisfaction and/or (ii) increasing the obligations or duties, or decreasing the rights or protections, of the Bond Trustee in the Transaction Documents and/or these Conditions.

VII. For the avoidance of doubt, the Issuer may propose that a Benchmark Replacement replace the then-current Benchmark and any Benchmark Replacement Conforming Changes on more than one occasion provided that the conditions set out in this section titled “Effect of Benchmark Transition Event” are satisfied.

4. GENERAL
