BACKGROUND

The UK Financial Conduct Authority (“**FCA**”) has confirmed that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after the end of 2021 and expects that some panel banks will cease contributing to LIBOR panels at such time. In addition, the Bank of England and the FCA announced that they have mandated a working group to promote a broad-based transition to the Sterling Overnight Index Average (“**SONIA**”) across sterling bond, loan and derivative markets, so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021. Therefore, the continuation of

LIBOR on the current basis cannot and will not be guaranteed after 2021, and regulators have urged market participants to take active steps to implement the transition to SONIA and other risk-free rates ahead of this deadline.

On 29 September 2020 the Issuer launched its consent solicitation in respect of the Securities in order to present a proposal to Securityholders to implement the transition to SONIA (the “**Original Securityholder Proposal**”). The Issuer is launching this Updated Consent Solicitation following its decision to modify the Original Securityholder Proposal. Securityholders should note that any electronic voting instructions cast in respect of the Original Securityholder Proposal will not be valid in respect of the Updated Consent Solicitation and any Securities blocked pursuant to such electronic voting instructions have been unblocked.

On the basis that the First Reset Date of each Series falls after 2021, the Issuer has convened the Meetings for the purpose of enabling the relevant Securityholders to consider and resolve, if they think fit, to approve the relevant Security Proposal (as further described below) by way of an Extraordinary Resolution in relation to the relevant Series implementing a change in the Reset Reference Rate such that (i) the Reset Reference Rate ceases to be a LIBOR linked mid-swap rate (specifically being the mid-rate for a 5 year Sterling fixed-for-floating interest rate swap (where the floating leg pays 6 month GBP LIBOR semi-annually)) and becomes a SONIA linked mid-swap rate (specifically being the mid-rate for a 5 year Sterling fixed-for-floating interest rate swap (where the floating leg pays daily compounded SONIA annually)); (ii) the Reset Reference Rate Adjustment is made to reflect the economic difference between the LIBOR and SONIA rates; (iii) the Margin applicable to each Series of Securities remains unaltered by these changes; (iv) the fallbacks relating to the Reset Reference Rate are amended; and (v) new fallbacks are included in case a Benchmark Event occurs with respect to the Reset Rate of Interest.

The Proposed Amendments as set out in the Updated Consent Solicitation Memorandum are identical to the proposed amendments set out in the Original Securityholder Proposal save in respect of the calculation of the Reset Reference Rate Adjustment and consequential adjustment to the definitions of “Adjusted Reset Reference Rate” and “Reset Reference Rate Adjustment”, as more particularly outlined in the Updated Consent Solicitation Memorandum.

The updated pricing methodology proposed for the adjustment to the Reset Reference Rate on conversion of the Reset Reference Rate from a LIBOR linked mid-swap rate to a SONIA linked mid-swap rate (the “**Reset Reference Rate Adjustment**”) is based on the approach of using a 5 year historical median lookback. Bloomberg Index Services Limited, as the adjustment services vendor for IBOR fallback calculations, currently publishes the median of the differences between LIBOR and the compounded Risk Free Rate (including SONIA) for different tenors calculated over a lookback period of five years prior to the relevant calculation date and this will be used for determining the Reset Reference Rate Adjustment.

The determination of the relevant Reset Reference Rate Adjustment will take place at or around 2 p.m. (London time) (the “**Pricing Time**”) on 7 December 2020 (the “**Pricing Date**”).

The date from which the proposed change in Reset Reference Rate is to occur will be the Effective Date (which is expected to be 7 December 2020).

Prudential Regulatory Authority (“PRA”)

In paragraph 2.22 of the PRA’s Policy Statement dated March 2020 (PS5/20: Regulatory capital instruments: Update to Pre-Issuance Notification (PIN) requirements)¹ (the “**Policy Statement**”) the PRA accepts that if “targeted amendments” are made to capital instruments “in relation to benchmark rates”, the instruments will continue to be ‘substantially the same’ for the purposes of the Policy Statement. Sam Woods, the Deputy Governor of PRA, has also reiterated this in his letter dated 18 December 2019 where he has stated that the

¹ <https://www.bankofengland.co.uk/-/media/boe/files/prudential-regulation/policy-statement/2020/ps520.pdf>

PRA does not believe it is desirable to reassess the eligibility of the additional tier 1 and tier 2 capital where the amendments are solely to replace the benchmark reference rate.

As the only changes which would be made to the Securities pursuant to the Proposed Amendments are to change the underlying Reset Reference Rate and supporting fall-back provisions for such Reset Reference Rate as described in this Updated Consent Solicitation Memorandum and to make the necessary consequential adjustments, the Issuer considers that capital eligibility of each Series of Securities will remain unaffected.

The PRA has been informed of these Updated Consent Solicitations and the Issuer is not aware of any objection being raised by the PRA with respect to this view being taken by the Issuer with respect to the eligibility of the Securities.

UPDATED SECURITYHOLDER PROPOSAL

Pursuant to the above, the Issuer has convened separate Meetings by the above notice to request that Securityholders of each Series consider and agree by Extraordinary Resolution to the matters contained in the relevant Extraordinary Resolutions set out below.

The Issuer, under the Updated Securityholder Proposal, is requesting that the Securityholders of the relevant Series consider and if thought fit, approve the relevant Extraordinary Resolution. If approved by the Securityholders of the relevant Series, the Extraordinary Resolution will be binding on all holders of such Series of Securities, including those Securityholders who do not vote in favour of the relevant Extraordinary Resolution or who do not vote in connection with the relevant Extraordinary Resolution.

In order to implement the change in Reset Reference Rate from a LIBOR linked mid-swap rate (specifically being the mid-rate for a 5 year Sterling fixed-for-floating interest rate swap (where the floating leg pays 6 month GBP LIBOR semi-annually)) to a SONIA linked mid-swap rate (specifically being the mid-rate for a 5 year Sterling fixed-for-floating interest rate swap (where the floating leg pays daily compounded SONIA annually)) certain adjustments will be made to the Reset Reference Rate payable in respect of the Securities to the extent that either Series of Securities remains outstanding beyond the First Reset Date. The Conditions will be amended by incorporating an adjustment (the “**Reset Reference Rate Adjustment**”) which will be added to the Reset Reference Rate when calculating the relevant Reset Rate of Interest in order to reflect the difference in LIBOR linked mid-swap rate and SONIA linked mid-swap rate.

The Reset Reference Rate Adjustment for the Securities determined on the Pricing Date and effective on the Effective Date will be equal to the LIBOR vs SONIA IRS Basis.

The LIBOR vs SONIA IRS Basis will be the greater of (a) the Minimum Spread Adjustment and (b) a number of basis points rounded to the nearest 0.1 basis points (with 0.05 basis points rounded upwards) as determined by the Solicitation Agent at the Pricing Time on the Pricing Date. The detailed provisions relating to the calculation of the Reset Reference Rate Adjustment are set out in Annex B to this Notice.

The Updated Securityholder Proposal is being put to Securityholders for the reasons set out in the Updated Consent Solicitation Memorandum.

Securityholders are referred to the Updated Consent Solicitation Memorandum which provides further background to the Security Proposals and the reasons therefor.

UPDATED CONSENT SOLICITATION

Securityholders are further given notice that the Issuer has invited holders of the Securities of each Series (each such invitation a “**Updated Consent Solicitation**”) to consent to the approval, by Extraordinary Resolution at the relevant Meeting, of the modification of the Conditions relating to the relevant Series as described in paragraph 1 of the relevant Extraordinary Resolution as set out below, all as further described in

the Updated Consent Solicitation Memorandum (as defined in paragraph 10 of the relevant Extraordinary Resolutions set out below).

The Updated Consent Solicitation Memorandum and any other documents or materials relating to the Updated Consent Solicitations are only for distribution or to be made available to persons who are (i) located and resident outside the United States and who are not U.S. persons (as defined in Regulation S under the Securities Act) or acting for the account or benefit of any U.S. person, (ii) eligible counterparties or professional clients (each as defined in MiFID II) and, if applicable and acting on a non-discretionary basis, who are acting on behalf of a beneficial owner that is also an eligible counterparty or a professional client, in each case in respect of the relevant Series of Securities and (iii) otherwise a person to whom the relevant Updated Consent Solicitation can be lawfully made and that may lawfully participate in the relevant Updated Consent Solicitation (all such persons “**Eligible Securityholders**”).

Subject to the restrictions described in the previous paragraph, Securityholders may obtain from the date of this Notice a copy of the Updated Consent Solicitation Memorandum from the Tabulation Agent, the contact details for which are set out below. In order to receive a copy of the Updated Consent Solicitation Memorandum, a Securityholder will be required to provide confirmation as to his or her status as an Eligible Securityholder.

Submission of Ineligible Holder Instructions

In respect of any Securities held through Euroclear Bank SA/NV (“**Euroclear**”) or Clearstream Banking, S.A. (“**Clearstream, Luxembourg**”), the submission of Ineligible Holder Instructions will be deemed to have occurred upon receipt by the Tabulation Agent from Euroclear or Clearstream, Luxembourg, as applicable, of a valid instruction (an “**Ineligible Holder Instruction**”) submitted in accordance with the requirements of Euroclear or Clearstream, Luxembourg, as applicable. Dated 23 November 2020

ANNEX A

Amendments to the Relevant Conditions and Trust Deed of the Securities

(A) Condition 5(d) shall be deleted and replaced with the following:

5(d) Reset Interest Rate

The Interest Rate will be reset (the “**Reset Rate of Interest**”) in accordance with this Condition 5 on each Reset Date. The Reset Rate of Interest in respect of each Reset Period will be determined by the Calculation Agent on the relevant Reset Determination Date as the sum of the relevant Adjusted Reset Reference Rate plus the Margin, converted to a quarterly rate in accordance with market convention (rounded to three decimal places, with 0.0005 rounded down).

(B) Following provision shall be included in the Conditions as new Condition 5(i):

(i) Benchmark discontinuation

- A. Notwithstanding the provisions above in Condition 5(d), if a Benchmark Event occurs in relation to an Original Reference Rate when any required Reset Rate of Interest (or any component part thereof), remains to be determined by reference to such Original Reference Rate, then the following provisions of this Condition 5(i)(A) shall apply.

(i) Independent Adviser

The Issuer shall use its reasonable endeavours to appoint and consult with an Independent Adviser, as soon as reasonably practicable, to advise the Issuer in determining a Successor Rate, failing which an Alternative Rate (in accordance with Condition 5(i)(A)(ii)) and, in either case, an Adjustment Spread (in accordance with Condition 5(i)(A)(iii)) and any Benchmark Amendments (in accordance with Condition 5(i)(A)(iv)).

(ii) Successor Rate or Alternative Rate

If the Issuer, following consultation with the Independent Adviser, determines that:

- (A) there is a Successor Rate, then such Successor Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the Reset Rate of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the AT1 Securities (subject to the further operation of this Condition 5(i)); or
- (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the Reset Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the AT1 Securities (subject to the further operation of this Condition 5(i)).

(iii) Adjustment Spread

The applicable Adjustment Spread shall be applied to the Successor Rate or the Alternative Rate (as the case may be) for each subsequent determination of a Reset Rate of Interest (or a component part thereof) by reference to such Successor Rate or Alternative Rate (as applicable).

(iv) *Benchmark Amendments*

If any Successor Rate or Alternative Rate and, in either case, the applicable Adjustment Spread is determined in accordance with this Condition 5(i)(A) and the Issuer, following consultation with the Independent Adviser, determines (A) that amendments to these Conditions and/or the Trust Deed are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and/or (in either case) the applicable Adjustment Spread (such amendments, the “**Benchmark Amendments**”); and (B) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 5(i)(B), without any requirement for the consent or approval of AT1 Securityholders, vary these Conditions and/or the Trust Deed to give effect to such Benchmark Amendments with effect from the date specified in such notice.

At the request of the Issuer, but subject to receipt by the Trustee of a certificate signed by two authorised signatories of the Issuer pursuant to Condition 5(i)(B), the Trustee shall (at the expense of the Issuer), without any requirement for the consent or approval of the AT1 Securityholders, be obliged to concur with the Issuer in effecting any Benchmark Amendments (including, *inter alia*, by the execution of a deed or an agreement supplemental to or amending the Trust Deed and/or the Agency Agreement (as applicable)) and the Trustee shall not be liable to any party for any consequences thereof, provided that the Trustee shall not be obliged so to concur if in the sole opinion of the Trustee doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend rights and/or the protective provisions afforded to the Trustee in these Conditions or the Trust Deed (including, for the avoidance of doubt, any supplemental trust deed) in any way.

In connection with any such variation in accordance with this Condition 5(i)(A)(iv), the Issuer shall comply with the rules of any stock exchange on which the AT1 Securities are for the time being listed or admitted to trading.

Notwithstanding any other provision of this Condition 5(i)(A), no Successor Rate or Alternative Rate will be adopted, nor will the applicable Adjustment Spread be applied, nor will any other amendment to the terms and conditions of the AT1 Securities be made to effect the Benchmark Amendments, if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of the AT1 Securities as Tier 1 Capital.

- B. Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 5(i) will be notified promptly by the Issuer to the Trustee, the Calculation Agent, the Paying and Conversion Agents, the Transfer Agents and, in accordance with Condition 17, the AT1 Securityholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

No later than notifying the Trustee of the same, the Issuer shall deliver to the Trustee a certificate signed by two authorised signatories of the Issuer where a Benchmark Event in relation to an Original Reference Rate has occurred in accordance with Condition 5(i)(A) above:

- (I) confirming (i) that a Benchmark Event has occurred, (ii) the Successor Rate or, as the case may be, the Alternative Rate, (iii) the Adjustment Spread and (iv) the specific terms of the Benchmark Amendments (if any), in each case as determined in accordance with the provisions of this Condition 5(i);

- (II) certifying that the Benchmark Amendments (if any) are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and (in either case) the applicable Adjustment Spread; and
- (III) certifying that (i) the Issuer has duly consulted with an Independent Adviser with respect to each of the matters above or, if that is not the case, (ii) explaining, in reasonable detail, why the Issuer has not done so.

The Trustee shall be entitled to rely on such certificate (without enquiry or liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Rate and the Adjustment Spread and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error in the determination thereof and without prejudice to the Trustee's ability to rely on such certificate as aforesaid) be binding on the Issuer, the Trustee, the Calculation Agent, the Paying and Conversion Agents, the Transfer Agents and the AT1 Securityholders.

- C. Without prejudice to the obligations of the Issuer under Condition 5(i)(A), the Original Reference Rate and the fallback provisions provided for in Condition 5(d), will continue to apply unless and until the Calculation Agent has been notified of the Successor Rate or the Alternative Rate (as the case may be) and the Adjustment Spread and Benchmark Amendments (if any) determined in accordance with Condition 5(i)(A) and Condition 5(i)(B).

An Independent Adviser appointed pursuant to this Condition 5(i) shall act in good faith as an expert and (in the absence of bad faith or fraud) shall have no liability whatsoever to the Trustee, the Calculation Agent, the Paying and Conversion Agents, the Transfer Agents or the AT1 Securityholders for any advice given to the Issuer in connection with any determination made by the Issuer, pursuant to this Condition 5(i).

In making any determination pursuant to this Condition 5(i), the Issuer shall act in good faith and, in the absence of bad faith or fraud, the Issuer shall have no liability whatsoever to the Trustee, the Calculation Agent, the Paying and Conversion Agents, the Transfer Agents or the AT1 Securityholders for any such determination made by it.

(C) Condition 13(b) shall be amended as follows:

(b) Modification of the Trust Deed:

The Trustee may agree, without the consent of the AT1 Securityholders, to (i) any modification of any of the provisions of the Trust Deed that is of a formal, minor or technical nature or is made to correct a manifest error, and (ii) any other modification (except as mentioned in the Trust Deed), and any waiver or authorisation of any breach or proposed breach, of any of the provisions of the Trust Deed that is in the opinion of the Trustee not materially prejudicial to the interests of the AT1 Securityholders. The Trustee shall be obliged to concur with the Issuer in effecting any Benchmark Amendments in the circumstances and as otherwise set out in Condition 5(i) (and subject to receipt of the certificate of the Issuer required pursuant to Condition 5(i)(B)) without the consent of the Securityholders. Any such modification, authorisation or waiver shall be binding on the AT1 Securityholders and, if the Trustee so requires, shall be notified to the AT1 Securityholders as soon as practicable.

“**Reset Reference Bank Rate**” means the percentage rate determined on the basis of the Mid-Swap Quotations provided by the Reset Reference Banks to the Calculation Agent at or around 11:00 a.m. (London time) on the relevant Reset Determination Date and, rounded, if necessary, to the nearest 0.001 per cent. (0.0005 per cent. being rounded upwards). If at least four quotations are provided, the Reset Reference Bank Rate will be the rounded arithmetic mean of the quotations provided, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest). If only two or three quotations are provided, the Reset Reference Bank Rate will be the rounded arithmetic mean of the quotations provided. If only one quotation is provided, the Reset Reference Bank Rate will be the rounded quotation provided. If no quotations are provided, the Reset Reference Bank Rate will be (i) in the case of each Reset Period other than the First Reset Period, the relevant Reset Reference Rate but calculated as at the last available date preceding the relevant Reset Determination Date on which such a rate was published; or (ii) in the case of the First Reset Period, an amount equal to 2.042 per cent³.

(D) Clause 14.1 (Modification) of the relevant Trust Deed shall be deleted and replaced with the following:

14.1 Modification: Subject to the Issuer giving such notice to, and receiving such permission from, the Relevant Regulator as may from time to time be required by the Relevant Regulator under the Applicable Regulations, the Trustee may from time to time and at any time without the consent of the Holders concur with the Issuer in:

14.1.1 making any modification to the Conditions, this Trust Deed or the Agency Agreement which in its opinion is not materially prejudicial to the interests of the Holders; or

14.1.2 making any modification to the Conditions, this Trust Deed or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest error,

³ Amount determined by reference to the intra-day high for the 5 year mid-swap rate cited as on 20 March 2014, being the pricing date for the Securities at the time of their issuance (Source: Bloomberg).

but such power in Clause 14.1.1 does not extend to any such modification which require the passing of a special quorum resolution under paragraph 3 of Schedule 3. In addition, the Trustee shall be obliged to concur with the Issuer in effecting any amendments to the Conditions, this Trust Deed or the Agency Agreement in the circumstances and as otherwise set out in Condition 5(i) (and subject to receipt of the certificate of the Issuer required pursuant to Condition 5(i)(B)) without the requirement for consent of the Holders.

ANNEX B

Pricing Methodology

Rationale for the Proposal

Due to the differences in the nature of LIBOR and SONIA, the replacement of the LIBOR linked mid-swap rate (specifically being the mid-rate for a 5 year Sterling fixed-for-floating interest rate swap (where the floating leg pays 6 month GBP LIBOR semi-annually)) as the Reset Reference Rate for the Securities with a SONIA linked mid-swap rate (specifically being the mid-rate for a 5 year Sterling fixed-for-floating interest rate swap (where the floating leg pays daily compounded SONIA annually)) will require certain adjustments to the Reset Reference Rate payable in respect of the Securities to the extent that either Series of Securities remains outstanding beyond the First Reset Date. The Conditions will be amended by incorporating an adjustment (the “**Reset Reference Rate Adjustment**”) which will be added to the Reset Reference Rate when calculating the relevant Reset Rate of Interest in order to reflect the difference between LIBOR linked mid-swap rates and SONIA linked mid-swap rates.

The pricing methodology proposed for the adjustment to the Reset Reference Rate on conversion of the Reset Reference Rate from a LIBOR linked mid-swap rate to a SONIA linked mid-swap rate is based on the approach of using a 5 year historical median lookback. Bloomberg Index Services Limited, as the adjustment services vendor for IBOR fallback calculations, currently publishes the median of the differences between LIBOR and the compounded Risk Free Rate (including SONIA) for different tenors calculated over a lookback period of five years prior to the relevant calculation date and this will be used for determining the Reset Reference Rate Adjustment.

The determination of the Reset Reference Rate Adjustment will take place at or around 2 p.m. (London time) (the “**Pricing Time**”) on 7 December 2020 (the “**Pricing Date**”, except where there is an adjournment of the Meeting, in which case the Pricing Date will be specified in the notice of the adjourned Meeting). If there is an adjourned Meeting, the adjustment to the Reset Reference Rate may be different to the amounts which would have been calculated if the relevant Extraordinary Resolution had been passed (and the Eligibility Condition satisfied) at the initial Meeting.

The date from which the proposed change in Reset Reference Rate is to occur will be the Effective Date (which is expected to be 7 December 2020).

Determination of the Reset Reference Rate Adjustment

The Reset Reference Rate Adjustment for the Securities to be determined on the Pricing Date and effective on the Effective Date will be equal to the LIBOR vs SONIA IRS Basis.

The LIBOR vs SONIA IRS Basis will be the greater of (a) the Minimum Spread Adjustment and (b) the number of basis points rounded to the nearest 0.1 basis points (with 0.05 basis points rounded upwards) as determined by the Solicitation Agent on the Pricing Date, as follows:

On the Pricing Date, at or around the Pricing Time, the Solicitation Agent shall observe the basis in the column entitled “Spread Adjustments” for the 6 month tenor in respect of the spread between GBP LIBOR and SONIA as calculated by Bloomberg Index Services Limited (Bloomberg reference “SBP0006M Index”) as disclosed on the Basis Screen Page (as defined below). Such adjustment will be set as the LIBOR vs SONIA IRS Basis for each of the Securities.

The “Basis Screen Page” is the Bloomberg page GDCO 9003 6 1 which shows the spread adjustments between GBP LIBOR and SONIA as calculated by Bloomberg Index Services Limited using the 5-year lookback approach for various tenors of LIBOR which can also be found from the Bloomberg page “FBAK” and selecting “Official Spread Adjustments between the Adjusted Reference Rates and IBOR Rates” then “GBP

LIBOR” as the applicable IBOR or, such other page as may replace Bloomberg page GDCO 9003 6 1, or on such similar or replacement service as may be determined by the Solicitation Agent in its sole discretion in each case for the purposes of showing the above-mentioned spread adjustments.

The “Minimum Spread Adjustment” is 27.8 bps, being the amount which was determined by reference to the Basis Screen Page on the basis set out above as at 2pm (London time) on 30 October 2020, using the aforementioned approach.

The Reset Reference Rate Adjustment will be announced to Securityholders as soon as practicable following the Pricing Time on the Pricing Date.
