Loan Amount is less than the sterling equivalent of the principal amount outstanding of covered bonds. Any of the conditions, events or acts provided in Condition 9.2 of the Terms and

Conditions of the Covered Bonds (LLP Events of Default) occur.

Glossary	
----------	--

Term	Definition
Constant Pre-Payment Rate (CPR)	The annualised Constant Pre-Payment Rate based upon Monthly CPR. Monthly CPR is equal to the total unscheduled principal receipts, excluding the proceeds from loan repurchases by the Seller, received during the calculation period. The Monthly CPR is then annualised using the formula: 1-((1-Monthly CPR)*12).
Principal Payment Rate (PPR)	The annualised Principal Payment Rate based upon Monthly PPR. Monthly PPR is equal to the total scheduled and unscheduled principal receipts, including the proceeds from loan repurchases by the Seller, received during the calculation period ended prior to a calculation date divided by the aggregate current balance of the loans comprised in the portfolio as at the start of the calculation period. The Monthly PPR is then annualised using the formula: 1-((1-Monthly PPR)>12).
Amount (GBP)	The aggregate current balance of the loans including (without double counting) the initial advance, any further advance, any flexible drawing, capitalised expenses, capitalised arrears and capitalised interest less any prepayments, repayments or payments of the foregoing.
Mortgage Collections	All cash receipts on a mortgage account within the portfolio including monies paid by the Seller in respect of loans repurchased from the portfolio.
Non-indexed LTV	The aggregate current balance of the loans in a mortgage account divided by the latest valuation of the property, securing that mortgage account, held in the Seller's records at the end of the reporting period.
Seasoning	Seasoning is reported on an aggregated basis for each mortgage account. It is calculated using the origination date of the original loan in the mortgage account and ignores any subsequent loans on the mortgage account.
Remaining Term	The number of remaining months of the term of the mortgage account i.e. the loan with the longest dated maturity.
Indexed LTV	The aggregate current balance of the loans in a mortgage account divided by the Halifax Price Indexed Valuation of the property, securing that mortgage account, held in the Seller's records at the end of the reporting period.
Halifax Price Indexed Valuation	The latest valuation of the property, held in the Seller's records, increased or decreased, as appropriate, by the increase or decrease in the Halifax House Price Index since the date of that latest valuation. Indexation is applied quarterly to latest valuations, on a regional basis, in January, April, July and October of each year.
Indexed Valuation	(a) where the latest valuation of the property is equal to or greater than the Halifax Price Indexed Valuation, the Halifax Price Indexed Valuation; or (b) where the latest valuation of the property is less than the Halifax Price Indexed Valuation, the latest valuation plus 85% of the difference between the latest valuation and the Halifax Price Indexed Valuation.
Defaulted Loan	Any loan in the portfolio where the amount in arrears is equal to or greater than three times the current monthly payment.

Footnotes

- (1) There are no minimum ratings for the Issuer, Seller or Cash Manager. However, there are certain event triggers linked to their ratings. Please refer to the Programme triggers table on page 8 for details.
- (2) For triggers relating to the swap provider(s) on the cover pool, the rating trigger disclosed is the next trigger point. There may be subsequent triggers and these are detailed in the relevant swap agreement.

(3) Relates to the cover pool swap.

- (4) For full description, refer to the Prospectus.
- (5) A(a) is calculated as the lower of (i) the current balance of the loan and (ii) the indexed valuation relating to that loan multiplied by 0.75 for non-defaulted loans and 0.4 or 0.25 for defaulted loans with a current balance of the loan and (ii) the indexed valuation relating to that loan multiplied by 1 for non-defaulted loans and 0.4 or 0.25 for defaulted loans with a current balance to indexed valuation ratio of <=75% or >75%, respectively.
- (6) The GIC account balance has been adjusted to include cash from assets collected on the last day of the month and passed to the LLP on the first day of the following month.
- ⁽⁷⁾ The aggregate deposits total has been adjusted to account for the Financial Services Compensation Scheme limit.
- (8) The nominal level of overcollateralisation includes cash held on the principal ledger.
- (9) Not applicable for the cover pool which is a revolving pool.
- (10) Following the implementation of its new Covered Bonds Rating Criteria, Fitch Ratings no longer uses its D-Cap. At the time of this report, the replacement Payment Continuity Uplift (PCU) on the programme is 6.
- (11) Source: Moody's performance report dated 17 March 2025.
- (12) Based on the mortgage accounts' current primary product holding (rather than any historic product previously held). In addition to the primary product holding, an account may have other active product holdings which may or may not be the same as the primary product holding.
- (13) The margins are based on the appropriate index rate and, therefore, fixed rate loans are reported at the fixed rate, tracker rate loans versus Bank Base Rate (4.50%) and variable rate loans versus the Originators' relevant discretionary rates (6.50% or 7.99%).
- (14) The initial rate is considered to be the same as the current rate.
- (15) Effective 1 January 2020, Regions are NUTS1 classifications (Nomenclature of Units for Territorial Statistics).
- (16) Any 'Part-and-part' loans have been included in 'Interest-only'.
- (17) Data on second home loans only available in the Seller's reporting system used from February 2017.
- (18) The Seller does not currently retain these details in the reporting system used for the programme.
- (19) The date stated is the final maturity date applicable to the Issuer. However, the extended due for payment date applicable to the LLP is 12 months following this date.

*All bonds issued from the programme are 'soft bullet' maturities. If the Issuer (Lloyds Bank plc) fails to pay the Final Redemption Amount of the relevant Series of Covered Bonds on the Final Maturity Date (subject to the applicable grace period), then it will be in default on its obligation and the Bond Trustee would be expected to initiate proceedings against the Issuer. With regards to the bond, a Notice to Pay would be served on the LLP who is then required to make payments of Guaranteed Amounts. If the LLP has insufficient moneys available in accordance with the Guarantee Priority of Payments to pay in full the Final Redemption Amount of the relevant Series of Covered Bonds, then payment of any unpaid portion shall be automatically deferred for a period of 12 months (up to the Extended Due for Payment Date stated in the Final Terms).
