| Total               | 1,508              | 1.38          | 161,569,227   | 1.44             | 1,968,610   |

This includes details of the current portfolio and excludes any arrears cases repurchased by the Seller prior to the end of the reporting period. There is no obligation on the Seller to repurchase other than is required by the transaction documents.

Arears are calculated in accordance with standard market practice in the UK. A mortgage is identified as being in arrears when, on any due date, the overdue amounts which were due on previous due dates equal, in the aggregate, one or more full monthly payments. In making an arrears determination, the administrator calculates as of the date of determination the difference between the sum of all monthly payments that were due and payable by a borrower on any due date up to that date of determination (less the aggregate amount of all authorised underpayments made by such borrower up to such date of determination) and the sum of all payments actually made by that borrower up to that date of determination. If the result arrived at by dividing that difference (if any) by the amount of the required monthly payment equals or exceeds 1 the loan is deemed to be in arrears. Arrears classification is determined based on the number of full monthly payments that have been missed. A borrower that has missed payments that in the aggregate equal or exceeding 2 monthly payments (but for which the aggregate of missed payments is lest shan 3 monthly payments) would be desident as being between 2 - 3 monthly is and so on.

<sup>\*</sup>This rises to 5% of the aggregated current balance of loans in the portfolio on the relevant calculation date if the Seller's ratings fall below S&P short term rating A-1 or long term Moody's A2 or Fitch A-

## Loan Analysis

| Weighted Average Seasoning (by value) Months      | 32.56    |
|---------------------------------------------------|----------|
| Weighted Average Remaining Term (by value) Years  | 16.04    |
| Average Loan Size                                 | £103,409 |
| Weighted Average Original LTV (by value)          | 58.13%   |
| Weighted Average Current Indexed LTV (by value) * | 60.91%   |

<sup>\*</sup> Indexation is applied on a regional basis to property valuations on a quarterly basis in January, April, July and October of each year.
