Arrears Analysis of Non-Repossessed Mortgage Accounts

Month(s) In Arrears	Number of Mortgage Accounts	% of Total by Number	Current Balance (£)	% of Current Balance	Arrears Balance (£)
1 to <2	1,030	0.87	100,890,184	0.85	737,904
2 to <3	383	0.32	37,669,267	0.32	507,827
3 to <6	486	0.41	50,349,035	0.42	1,140,597
6 to <9	236	0.20	21,696,462	0.18	902,671
9 to <12	135	0.11	13,463,508	0.11	696,204
12+	243	0.20	24,629,079	0.21	1,856,747
Total	2,513	2.12	248,697,534	2.10	5,841,950

This includes details of the current portfolio and excludes any arrears cases repurchased by the Seller prior to the end of the reporting period. There is no obligation on the Seller to repurchase other than is required by the transaction documents.

^{**}This asset percentage is the required level for a AAA rating from each Rating Agency, including a AAA rating on a Probability of Default (PD) only basis from Fitch. A rating of AAA from each Rating Agency would also be achieved using a lower level of over-collateralisation (a higher asset percentage of 85.1).

^{*} Arrears are calculated in accordance with standard market practice in the UK. A mortgage is identified as being in arrears when, on any due date, the overdue amounts which were due on previous due dates equal, in the aggregate, one or more full monthly payments. In making an arrears determination, the administrator calculates as of the date of determination the difference between the sum of all monthly payments that were due and payable by a borrower on any due date up to that date of determination (less the aggregate amount of all authorised underpayments made by such borrower up to such date of determination) and the sum of all payments actually made by that borrower up to that date of determination. If the result arrived at by dividing that difference (if any) by the amount of the required monthly payment equals or exceeds 1 the account is deemed to be in arrears. Arrears classification is determined based on the number of full monthly payments that have been missed. A borrower that has missed payments that in the aggregate equal or exceeding 2 monthly payments (but for which the aggregate of missed payments is less than 3 monthly payments) would be classified as being 2 to <3 months in arrears, and so on. For the purpose of the Asset Coverage Test, an account is treated as being in default if it is 3 or more months in arrears.

Loan Analysis

Weighted Average Seasoning (by value) Months	46.52
Weighted Average Remaining Term (by value) Years	15.45
Average Mortgage Account Balance	£99,881
Weighted Average Original LTV (by value)	58.87%
Weighted Average Current Indexed LTV (by value) *	57.31%

^{*} Indexation is applied on a regional basis to property valuations on a quarterly basis in January, April, July and October of each year.
