Lloyds TSB Bank plc €30bn Global Covered Bond Programme - Monthly Report September 2012

Glossary

Arrears

Arrears are calculated in accordance with standard market practice in the UK. A mortgage is identified as being in arrears when, on any due date, the overdue amounts which were due on previous due dates equal, in the aggregate, one or more full monthly payments. In making an arrears determination, the servicer calculates as of the date of determination the difference between the sum of all monthly payments that were due and payable by a borrower on any due date up to that date of determination (less the aggregate amount of all authorised underpayments made by such borrower up to such date of determination) and the sum of all payments actually made by that borrower up to that date of determination. If the result arrived at by dividing that difference (if any) by the amount of the required current monthly payment equals or exceeds 1 the account is deemed to be in arrears. Arrears classification is determined based on the number of equivalent full current monthly payments that have been missed. A borrower that has missed payments is less than 3 monthly payments) would be classified as being 2 to <3 months in arrears, and so on. For the purpose of the Asset Coverage Test, an account is treated as being in default if it is 3 or more months in arrears.

Arrears Capitalisation Policy

Monthly Constant Prepayment Date (CPR/PPR)

We will consider capitalising arrears where a customer has made at least 6 consecutive full repayments since the last missed payment and the customer has provided consent for the capitalisation.

Monthly CPR on any portfolio calculation date means the total unscheduled principal receipts received during the period of one month ending on that calculation date means the total unscheduled principal receipts received during the period of one month ending on that calculation date means the total unscheduled principal receipts received during the period of one month ending on that calculation date means the total unscheduled principal receipts received during the period of one month ending on that calculation date means the total unscheduled principal receipts received during the period of one month ending on that calculation date means the total unscheduled principal receipts received during the period of one month ending on that calculation date means the total unscheduled principal receipts received during the period of one month ending on that calculation date means the total unscheduled principal receipts receipts received during the period of one month ending on that calculation date means the total unscheduled principal receipts receipts receipts received during the period of one month ending on that calculation date means the total unscheduled principal receipts receipts receipts receipts receipts receipts and the period of the peri Unscheduled Principal Repayments comprise payments from Lloyds TSB for the repurchase of loans from the portfolio, and capital repayments and redemptions other than those received at the expected term end date of the loan. Where there has been portfolio transfers within the month, CPR is calculated on a

weighted average basis.

Monthly PPR on any portfolio calculation date means the total scheduled and unscheduled principal receipts received during the period of one month ending on that calculation date divided by the aggregate current balance of the loans comprised in the portfolio property as at the immediately preceding portfolio calculation date. Where there has been portfolio transfers within the month, PPR is calculated on a weighted average basis.

These are annualised using the formula: 1-((1-M)^12) where M is the monthly CPR or PPR expressed as a percentage.

Please note that CPR, as defined in the programme documentation, and as previously reported in the Investor Reports, corresponds with PPR in this revised format Investor Report.

Quarterly CPR/PPR

The average of the three most recent monthly annualised CPR / PPR expressed as a percentage.

Current Balance

In relation to any Loan at any date (the current balance determination date), the aggregate at such date (but avoiding double counting) of:

(i) the Initial Advance;

(ii) Further Advances and/or Flexible Loan Drawings;

(iii) Capitalised Expenses;

(iv) Capitalised Interest; and

(v) all expenses, charges, fees, premium or payment due and owing by the Borrower which have not yet been capitalised,

in each case relating to such Loan less all prepayments, repayments or payments of any of the foregoing made on or prior to the current balance determination date, the aggregate at such date of the Current Balance in respect of

each Loan comprised in the relevant Mortgage Account

A mortgage account consists of one or more loans secured, by way of equal ranking first charge, on the same property and thereby forming a single mortgage account. Mortgage Account / Loan

Mortgage Collections All cash receipts on a mortgage within the portfolio excluding monies paid by LTSB in respect of loans repurchased from the portfolio.

The origination channel of each loan. Direct origination includes loans originated in Lloyds TSB branches, C&G branches, direct telephone sales and internet sales. Origination Channel

Whether the purpose of the initial loan origination was to finance the purchase of a new property or to remortgage a property already owned by the borrower. Purpose of Loan

Based on the original amount advanced on the date of the origination of the initial loan (excluding capitalised interest, high LTV fees, insurance fees, booking fees and valuation fees), divided by the value of the property securing the loans in that mortgage account at that date. Original LTV

The number of months since the date of origination of the loan. Loan Seasoning

Remaining Term The number of remaining years of the term of each loan.

The aggregate current balance of all loans within a mortgage account divided by the indexed valuation of the property securing the loans in that mortgage account at the reporting date. Indexed LTV

Indexed Valuation Indexation is applied on a regional basis to property valuations on a quarterly basis in January, April, July and October of each year using the Halifax House Price Index.

Month End Spot Balance **Product Balance**

The pre swap mortgage yield is defined as the total revenue receipts generated by the mortgage assets in the period divided by the average mortgage balance for the period. Pre Swap Mortgage yield
