Bank of Scotland plc confirms that it continues to retain a material net economic interest of not less than 5 per cent in accordance with Article 405 of Regulation 575/2013. At the date of this report, Bank of Scotland plc retains a material net economic interest in the form of the transferor interest in the securitised exposures (Article 405 paragraph 1 (b)). The current transferor interest is disclosed in the relevant section of this report.

For US Credit Risk Retention, Bank of Scotland, as the "sponsor" of the securitisation transactions, intends to satisfy its risk retention requirements by maintaining a "seller's interest" (as defined in the rules) equal to at least 5 per cent of the aggregate outstanding balance of the notes of all series. The obligation under the U.S. Credit Risk Retention Rules to maintain a seller's interest at least equal to 5 per cent of the aggregate outstanding balance of the notes of all series is different from the requirement to maintain a Minimum Transferor Interest, and each is calculated differently.
