- 2 Month Previous		10.13%
- 3 Month Average		10.36%

Note

1. Accelerated Charge off initiative / policy

At the end of October, an initiative was implemented to accelerate the charge off of 'age-out' accounts, where a customer is unable to make the minimum payment and does not qualify for a repayment plan. These accounts were charged off when they reached 4 cycles delinquent, rather than wait until they are 6 cycles delinquent in line with the bank charge off policy. The initiative was intended as a trial in October to December, with an expected one off increase in the charge off rate during these months being offset by a corresponding reduction from January to March when these accounts would have otherwise charged off. This initiative has been implemented as a permanent policy change from 26th January 2012, and the acceleration of 'age out' accounts reaching 4 cycles delinquent will offset the reduction in charge off from the one off trial. As the policy implementation is embedded, the charge off rate is expected to return back to trend from April 2012.

* Includes Principal and Finance Charge Collections in the numerator and Principal and Finance Charge Receivables in the denominator.

^ The Payment Rate numerator excludes non-cash entries.
