Delinquency and Loss Experience

The following tables set forth the delinquency and loss experience for each of the periods shown for the Bank Portfolio of credit card accounts. The Bank Portfolio's delinquency and loss experience is comprised of segments which may, when taken individually, have delinquency and loss characteristics different from those of the overall Bank Portfolio of credit card accounts. Because the Securitised Portfolio is only a portion of the Bank Portfolio, actual delinquency and loss experience with respect to the Receivables comprised therein may be different from that set forth below for the Bank Portfolio. There can be no assurance that the delinquency and loss experience for the Securitised Portfolio in the future will be similar to the historical experience of the Bank Portfolio set forth below. For further detail, please see the Base Prospectus.

SECURITISED PORTFOLIO RECEIVABLES INFORMATION

As at 28 February 2011

The following tables summarise the Securitised Portfolio by various criteria as of the beginning of the day on 1 March 2011. Because the future composition of the Securitised Portfolio may change over time, these tables are not necessarily indicative of the composition of the Securitised Portfolio at any time subsequent to 28 February 2011.

Recent Lump Additions and Removals

Bank of Scotland may from time to time transfer Receivables to the Penarth Receivables Trust in lump additions by designating additional accounts to the Penarth Receivables Trust. The historical yield figures in these tables are calculated on an accrual basis. Collections of Receivables included in the Penarth Receivables Trust will be on a cash basis and may not reflect the historical yield experience in the table. STATIC POOL DATA

The following tables present yield, net charge off, delinquencies, principal payment rate, total payment rate, Principal Receivables balance and total Receivables balance for credit card receivables included in the Securitised Portfolio since the incorporation of the Penarth Receivables Trust in October 2008. In each case, the information is organised by calendar year of account origination ("**Year of Account Origination**") for each monthly period.

The data up to October 2010 relates to Receivables originated by Bank of Scotland only. In November 2010, £2.9 billion of Receivables originated by LTSB were added to the Penarth Receivables Trust, and data from November 2010 reflects the combined Bank of Scotland and LTSB Receivables in the Penarth Receivables Trust.

Yield from finance charges and fees includes interest income, late fees, forex fees, credit insurance, card protection insurance, overlimit fees, cash advance fees, ATM fees, balance transfer fees and other fees related to credit cards. The yield percentage for each monthly period is calculated by dividing the sum of finance charges, fees and interchange during each monthly period by the Principal Receivables balance as of the beginning of the monthly period, then annualised by dividing the result by the number of days in each monthly period and multiplying by the number of days in the calendar year.

Volatility in the yield percentage is driven primarily by variations in the number of collection days during the performance period; the more collection days there are, the higher the value of payments received, and the higher the reported yield.

The yield during the first 12 months post account origination is low due to the introductory annual percentage rate ("APR") offers at account origination which typically offer 0% on balance transfers and/or purchases during the first 9-12 months. This trend is evident in the yields reported in the first few performance periods for accounts originated in 2009 and 2010.

Pre-2004 the operating environment in the UK for credit cards issuers was less competitive, and Lloyds Banking Group's acquisition strategy for the LTSB portfolio had initial APRs at account origination which were typically higher; accordingly, the pre-2004 vintages have a slightly higher yield compared with the post-2004 vintages. The originators believe that the differential margin in yield compared to post-2004 vintages is reducing as Lloyds Banking Group's risk-based re-pricing strategy across the portfolio results in the convergence of yield over time.

In July 2007, LTSB launched the Airmiles Duo card, taking over the Airmiles relationship from National Westminster Bank plc ("NatWest"). This product rewards credit card spend with Airmiles, and attracts a higher proportion of convenience users who are less likely to revolve a balance on an account and attract interest charges. Yield on the LTSB originated accounts from 2007 is therefore lower than accounts originated in years prior to 2007.

Following the addition of £2.9 billion of LTSB Receivables to the Penarth Receivables Trust in November 2010, overall yield for the Penarth Receivables Trust has increased, driven by higher payment rates and so have the Finance Charge Collections on the LTSB portfolio relative to the Bank of Scotland portfolio.

Net losses for a performance period is calculated as Principal Receivables charged off during the performance period less recoveries received on previously charged off accounts during the performance period, all divided by the Principal Receivables balance as of the beginning of the performance period, then annualised by dividing the result by the number of days in the performance period and multiplying by the number of days in the calendar year.

Net losses during 2008 and the first few months of 2009 are lower due to the initial selection criteria for new Receivables added to the Penarth Receivables Trust which excluded accounts in the later stages of delinquency. This seasoning impact is evident in November 2010 when £2.9 billion of LTSB Receivables were added to the Penarth Receivables Trust resulting in reduced net losses; the originators expect net losses to increase further over the coming months up to the net losses levels observed during 2010 in the months prior to the addition of the LTSB Receivables.

The higher charge offs on accounts originated pre-2004 is due to Bank of Scotland originating accounts above-market volumes during 2002 and 2003 in line with Bank of Scotland's market growth strategy at the time. Since 2004, acquisition and underwriting strategies have been reviewed and substantially revised. In accordance with this revised strategy, Lloyds Banking Group has taken significant steps to reduce its acquisition of accounts, and exposure to existing accounts, in the higher risk segments of the credit cards market.

In 2008 during the economic market dislocation, there was an industry-wide deterioration in the quality of business acquired. Lloyds Banking Group undertook significant de-risking in response, with tighter cut-offs reducing volume and lower initial credit lines. This activity was undertaken in the second half of 2008 and into 2009. The originators believe that this has resulted in a significant improvement in the credit quality of accounts originated in 2009 and 2010.

Delinquencies include both Principal Receivables and Finance Charge Receivables. The 30+ days delinquency percentage for a performance period is calculated as total receivables 30 days or more past due divided by total Principal Receivables and Finance Charge Receivables as of the last day of the performance period.

Delinquencies during 2008 and the first few months of 2009 are lower due to the initial selection criteria for new Receivables added to the Penarth Receivables Trust which excluded accounts in the later stages of delinquency. This seasoning impact is evident in November 2010 when £2.9 billion of LTSB Receivables were added to the Penarth Receivables Trust resulting in reduced delinquencies; the originators expect delinquencies to increase over the coming months up to the delinquency levels observed during 2010 in the months prior to the addition of the LTSB Receivables.

In 2008 in response to the deteriorating economic environment, Lloyds Banking Group undertook significant de-risking of its portfolio, with credit lines of higher risk customers reduced and tighter cut-offs and lower initial credit lines improving the quality of new account acquisitions. This activity was undertaken in 2008 and into 2009. The originators believe that this has resulted in a reduction in delinquencies through the second half of 2009 which has continued through 2010 and into 2011.

Principal payment rate for a performance period is calculated as Principal Collections received from cardholders during the performance period divided by Principal Receivables at the beginning of the performance period.

For the Bank of Scotland portfolio, pre-2004 account originations typically received higher spending rewards and attracted a higher percentage of convenience users. As a result, payment rates for this segment tend to be stronger for the pre-2004 vintage. From 2005 onwards, Bank of Scotland products have typically targeted the borrower population with more attractive lower introductory APRs instead of rewards. This strategy has reduced the average payment rate on Bank of Scotland's credit card receivables originated since 2005.

In July 2007, LTSB launched the Airmiles Duo card, taking over the Airmiles relationship from NatWest. This product rewards credit card spend with Airmiles, and attracts a higher proportion of convenience users who pay down their balance in full each month. Payment rates for this product on the LTSB portfolio increased not only for originations from 2007, but also for the pre-2007 vintages as some existing customers switched to the new product and changed their spending and payment behaviours to benefit from the Airmiles rewards. Payment rates have increased across all origination years from November 2010 following the addition of £2.9 billion of LTSB Receivables to the Penarth Receivables Trust.

Because of the following restrictions, purchasers are advised to consult legal counsel prior to making any offer, sale, resale, pledge or transfer of the notes.

The notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or any state securities or "Blue Sky" laws or the securities laws of any other jurisdiction and, accordingly, may not be reoffered, resold, pledged or otherwise transferred except in accordance with the restrictions described below.

Without limiting the foregoing, by holding a note, each Noteholder will acknowledge and agree, among other things, that such Noteholder understands that neither of the Issuer nor the Securitised Portfolio is registered as an investment company under the United States Investment Company Act of 1940, but that the Issuer and the Securitised Portfolio are exempt from registration as such.

- (i) The Offeree acknowledges that these Final Terms and the Base Prospectus are personal to the Offeree and do not constitute an offer to any other person or to the public generally to subscribe for or otherwise acquire the notes other than pursuant to Rule 144A or Rule 506 of Regulation D, or another exemption from registration from the Securities Act, or in offshore transactions in accordance with Regulation S. Distribution of these Final Terms and the Base Prospectus or disclosure of any of their contents to any person other than the Offeree and those persons, if any, retained to advise the Offeree with respect thereto and other persons meeting the requirements of Rule 144A or Rule 506 of Regulation D or Regulation S is unauthorised and any disclosure of any of their contents, without the prior written consent of the Issuer, is prohibited.

- (i) It (a) is a "**Qualified Institutional Buyer**" ("**QIB**") within the meaning of Rule 144A and is acquiring the notes in reliance on the exemption from Securities Act registration provided by Rule 144A thereunder and (b) understands the notes will bear the legend set forth above and be represented by one or more Rule 144A Global Notes Certificates. In addition, it will be deemed to have represented and agreed that it will hold and transfer in an amount of not less than, with respect to each class of notes, €50,000 (or the equivalent thereof in the specified currency) for it or for each account for which it is acting.
- (ii) It understands that the notes have been offered only in a transaction not involving any public offering in the United States within the meaning of the Securities Act, the notes have not been and will not be registered under the Securities Act and, if in the future it decides to offer, resell, pledge or otherwise transfer the notes, such notes may be offered, resold, pledged or otherwise transferred only in accordance with the provisions of the Note Trust Deed and the legend on such notes. It acknowledges that no representation is made as to the availability of any exemption under the Securities Act or any state securities laws for resale of the notes.
- (iii) In connection with the purchase of the notes: (a) the Issuer is not acting as a fiduciary or financial or investment advisor for it; (b) it is not relying (for purposes of making any investment decision or otherwise) upon any advice, counsel or representations (whether written or oral) of the Issuer or the Dealer (in its capacity as such) or any of their agents, other than any statements in a current prospectus for such notes and any representations expressly set forth in a written agreement with such party; (c) it has consulted with its own legal, regulatory, tax, business, investment, financial

and accounting advisors to the extent it has deemed necessary and has made its own investment decisions based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuer or the Dealer; (d) its purchase of the notes will comply with all applicable laws in any jurisdiction in which it resides or is located; (e) it is acquiring the notes as principal solely for its own account for investment and not with a view to the resale, distribution or other disposition thereof in violation of the Securities Act; and (f) it is a sophisticated investor and is purchasing the notes with a full understanding of all of the terms, conditions and risks thereof and is capable of assuming and willing to assume those risks.

- (v) It understands that an investment in the notes involves certain risks, including the risk of loss of all or a substantial part of its investment under certain circumstances. It has had access to such financial and other information concerning the Issuer and the notes, as it deemed necessary or appropriate in order to make an informed investment decision with respect to its acquisition of the notes, including an opportunity to ask questions of and request information from the Issuer. It understands that the notes will be highly illiquid and are not suitable for short term trading. It understands that it is possible that due to the structure of the transaction and the performance of the Securitised Portfolio, payments on the notes may be deferred, reduced or eliminated entirely. The Issuer has assets limited to the Security (as defined in the STDCMA) for payment of the notes.
- (vi) It understands that the Note Trust Deed permits the Issuer to demand that any beneficial owner of Rule 144A Global Notes who is determined not to be a QIB at the time of acquisition of such Rule 144A Global Notes Certificates to sell all its right, title and interest in such notes (a) to a person who is a QIB in a transaction meeting the requirements of Rule 144A or (b) to a person who will take delivery of its interest in Rule 144A Global Note Certificates in the form of an interest in a Regulation S Global Note Certificate and who is not a U.S. Person in a transaction meeting the requirements of Regulation S in a transaction exempt from registration under the Securities Act or any state or other relevant securities laws and, if it does not comply with such demand within thirty (30) days thereof, the Issuer may sell its interest in the Note.
- (vii) It acknowledges that it is its intent and that it understands it is the Issuer's intent, that for purposes of U.S. federal, state and local income taxes, the Issuer will be treated as a corporation and the notes will be treated as indebtedness of the Issuer; it agrees to such treatment, to report all income (or loss) in accordance with such treatment and to take no action inconsistent with such treatment, except as otherwise required by any taxing authority under applicable law.
- (viii) It is aware that, except as otherwise provided in the Note Trust Deed, the notes being sold to it will be represented by one or more Global Note Certificates, and that beneficial interests therein may be held only through Euroclear and Clearstream or DTC or one of their nominees, as applicable.
- (ix) It understands that the Issuer, the Note Trustee, the Dealer and their counsel will rely on the accuracy and truth of the foregoing representation, and it hereby consents to such reliance.

SWAP AGREEMENT

General

The Series 2011-1 A1 Notes will be denominated in U.S. dollars and the Issuer will be obliged to make U.S. dollar payments of interest and principal in respect of the Series 2011-1 A1 Notes. However, certain amounts received by the Issuer will be denominated in Sterling. In order to protect the Issuer against currency exchange rate exposure, the Issuer and the Swap Counterparty will enter into a currency swap transaction in relation to Series 2011-1 A1 Notes.

The Swap Agreement will not be subject to the Redemption Protection Period.

Under the terms of the currency swap transaction, the Issuer will pay to the Swap Counterparty:

- (a) on or after the Issue Date, the U.S. dollar proceeds received by the Issuer on the issue of the Series 2011-1 A1 Notes;
- (b) on each Interest Payment Date, an amount in Sterling determined by reference to a floating rate of interest on the relevant currency amount (as determined pursuant to the Swap Agreement and shall be subject to adjustment in accordance with the provisions of "*Description of the Swap Agreements - Redemption Period and Redemption Protection Period*" in the Base Prospectus); and
- (c) on the Scheduled Redemption Date (which date shall be subject to adjustment in accordance with the provisions of "*Description of the Swap Agreements - Redemption Period and Redemption Protection Period*" in the Base Prospectus), an amount in Sterling determined in accordance with the provisions of the Swap Agreement.

In return, the Swap Counterparty will be obliged to pay to the Issuer:

- (a) on or after the Issue Date, an amount in Sterling calculated by reference to the U.S. dollar proceeds of the issue of the Series 2011-1 A1 Notes converted into Sterling at the relevant exchange rate as provided in the Swap Agreement;
- (b) on each Interest Payment Date, an amount in U.S. dollars determined by reference to a floating rate of interest on the relevant currency amount (as determined pursuant to the Swap Agreement and shall be subject to adjustment in accordance with the provisions of "*Description of the Swap Agreements - Redemption Period and redemption Protection Period*" in the Base Prospectus); and
- (c) on the Scheduled Redemption Date (which date shall be subject to adjustment in accordance with the provisions of "*Description of the Swap Agreements - Redemption Period and redemption Protection Period*" in the Base Prospectus), an amount in U.S. dollars determined in accordance with the provisions of the Swap Agreement.

A description of the Swap Agreement is set out in the Base Prospectus in section "*Description of the Swap Agreements*".

Subject to the terms and conditions of the Dealer Agreement as supplemented by the relevant subscription agreement for these Series 2011-1 A1 Notes, the Issuer has agreed to sell to each of the Dealers named below, and each of the Dealers has agreed to purchase, the Principal Amount of these Series 2011-1 A1 Notes set forth opposite its name:

<u>Dealers</u>	<u>Class A</u>	<u>Aggregate Amount</u>

After the offering, the offering price and other selling terms may be changed by the Dealers.

In connection with the sale of these Series 2011-1 A1 Notes, the Dealers may engage in:

- over-allotments, in which members of the syndicate selling these Series 2011-1 A1 Notes sell more notes than the Issuer actually sold to the syndicate, creating a syndicate short position;
- stabilising transactions, in which purchases and sales of these Series 2011-1 A1 Notes may be made by the members of the selling syndicate at prices that do not exceed a specified maximum;

- syndicate covering transactions, in which members of the selling syndicate purchase these Series 2011-1 A1 Notes in the open market after the offering has been completed in order to cover syndicate short positions; and
- penalty bids, by which Dealers reclaim a selling concession from a syndicate member when any of these Series 2011-1 A1 Notes originally sold by that syndicate member are purchased in a syndicate covering transaction to cover syndicate short positions.

These stabilising transactions, syndicate covering transactions and penalty bids may cause the price of these Series 2011-1 A1 to be higher than it would otherwise be. These transactions, if commenced, may be discontinued at any time.

The Issuer has agreed to indemnify the Dealers, Joint Lead Managers, agents and their controlling Persons against certain civil liabilities, including liabilities under the Securities Act in connection with their participation in the distribution of the Issuer's notes.
