Mortgage Sale Agreement: Breach of these (or any other) conditions under	Loans with an arrears amount which is more than three times the monthly payment due account for more than 5% of the aggregate outstanding principal balance of the Loans in the Mortgages Trust.	Seller unable to sell new portfolio to Mortgages Trustee and	
Clause 4.2	The product of the weighted average foreclosure frequency (WAFF) and the weighted average loss severity (WALS) of the Loans exceeds the product of the WAFF and WALS of the Loans at the most recent closing date plus 0.25%.	requirement for the Seller to repurchase any Loans subject to a Product Switch.	
	The sale of any New Portfolio or completion of Product Switch does not result in the Fitch Portfolio Tests exceeding the most recently agreed Fitch Portfolio Test Value for each such Fitch Portfolio Test; or Where the above would not be satisfied in respect of any Fitch Portfolio Test, the sale of any New Portfolio or completion of Product Switch does not result in the margin by which the relevant Fitch	Froduct Switch.	
	Portfolio or completion of Product Switch does not result in the margin by which the relevant Fitch Portfolio Test is exceeded being greater than the margin by which the Portfolio exceeded the most recently agreed Fitch Portfolio Test Value prior to completion of such sale or Product Switch.		
	The yield of the Loans in the Mortgages Trust is less than three month Sterling LIBOR plus the Minimum Trust Property Yield Margin.		
	The weighted average credit enhancement value as determined by the application of the LTV Test to the Loans exceeds the weighted average credit enhancement value as determined by the application of the LTV Test to the Loans at the most recent closing date plus 0.25%.		
	Loans other than Fixed Rate Loans which yield, post Funding Swap, less than three month Sterling LIBOR plus 0.50% and which have more than two years remaining on their incentive period account for more than 15% of the aggregate outstanding principal balance of the Loans in the Mortgages Trust.		
	Fixed Rate Loans which have more than one year remaining on their incentive period account for more than 50% of the aggregate outstanding principal balance of the Loans in the Mortgages Trust.		

Cashflows

Revenue receipts and principal receipts are allocated in accordance with 'The Mortgages Trust' and 'Cashflows' sections of the Base Prospectus. Briefly, on a monthly basis Mortgages Trust Revenue Receipts are allocated on a pro-rata basis between Funding 1, Funding 2 and the Seller based upon their respective shares in the Trust and Mortgages Trust Principal Receipts are allocated first on a pro-rata basis between Funding 1 and Funding 2 based upon their respective shares in the Trust and their outstanding cash accumulation requirements, until their requirements have been satisfied, and then to the Seller. On a quarterly basis, Funding 2 will distribute its receipts to the Master Issuer and in turn the issuing entity will distribute its respective receipts to the noteholders, via the paying agents and issuing entity swap providers.

Glossary

Capitalised arrears	Arrears of interest may be capitalised with the agreement of the borrower once a borrower has made six consecutive scheduled payments of at least the contractual amount.
Constant Dranaumant Data	
Constant Prepayment Rate	The Constant Prepayment Rate (CPR) is an annualised percentage reflecting the amount of principal prepaid in excess of scheduled principal receipts. CPR is currently unavailable.
Current LTV	Current LTV is calculated using the latest Indexed Valuation held in the Seller's records.
Indexed Valuation	Indexation is applied quarterly in January, April, July and October to property valuations using the Halifax House Price Index.
Defaulted Loan	A loan is defined as being in default when the property relating to that loan has been taken into possession.
Excess Spread	Excess Spread (%) is calculated by dividing the annual equivalent of the remaining Available Revenue Receipts after crediting the General Reserve Fund into the weighted average principal amount outstanding of the notes during the Interest Period.
Months in arrears	The amount of arrears divided by the current payment due. The arrears table on page 1 includes repossessions.
Mortgage Account	A mortgage account consists of one or more loans secured, by way of equal ranking first charge, on the same property and thereby forming a single mortgage account.
Original LTV	LTV at origination has been calculated using the valuation at origination of the initial loan in a mortgage account, where this is still held in the Seller's records. Where this original valuation is no longer held, the latest valuation has been used in the calculation. Any fees added to the initial loan at origination have been excluded from the calculation.
Outstanding principal balance	The aggregate principal balance of the loans including (without double counting) the initial advance, any further advance, any flexible loan drawing, capitalised expenses, capitalised arrears and capitalised interest less any prepayments, repayments or payments of the foregoing prior to the relevant date, plus accrued interest on the loans as at the relevant date.
Principal Payment Rate	Monthly PPR reflects the aggregate of scheduled and unscheduled principal receipts, including the proceeds from any loan repurchases by the Seller. It should be noted that in reports prior to November 2011, this was labelled CPR.
Region	Reported regions are NUTS1 classifications. NUTS is Nomenclature of Units for Territorial Statistics.
Scheduled Maturity Date	The date or dates when principal is scheduled to be repaid on bullet and scheduled amortisation notes and from when principal becomes payable on pass-through notes.
Seasoning	Seasoning is reported on an aggregated basis for each mortgage account. It is calculated using the origination date of the original loan in the mortgage account and ignores any subsequent loans in the mortgage account.
Type of Loan	The 'Type of loan' and 'Distribution of fixed rate loans' tables have been prepared on the basis of the type of loan applicable to each mortgage accounts primary product holding. In addition to the primary product holding, a mortgage account may have other active product holdings which may or may not be the same type as the primary product holding.
