This should be based upon reports from the Group Chief Executive and the Chief Risk Officer.
- 4 Review whether the pricing frameworks take fully into account the Company's business model and risk appetite and present recommendations to the Board when the frameworks do not reflect risks in accordance with the Company's business model and risk strategy.

C. Risk exposures

- 1 Oversee the Company's current risk exposures (including prudential risk), risk/return and proposed improvements to the Company's risk management framework and its risk appetite, strategy, principles, policies and standards.

D. Emerging and principal risks

- 1 Provide advice to the Board (making recommendations where appropriate) on the assessment of emerging and principal risks, together with any appropriate mitigation to manage such risks and the principles and process associated with transitioning emerging risks into business as usual risks where relevant, as well as reviewing and challenging new risk principles and policies and any material amendments to the same recommended by the Group Chief Executive and Chief Risk Officer. Principal risks include those that might threaten the Company's business model, future performance, solvency or liquidity and reputation, taking account of the potential impact and probability of the events, circumstances and timescales over which they may occur.

J. Banks' Committees only - additional responsibilities in relation to Banks' Risk Officer

- 1 Banks' Committees only - Approve the appointment and removal of the Banks' Risk Officer, taking into account feedback on the performance and effectiveness of the Banks' Risk Officer (and that feedback will be taken into account in the Banks' Risk Officer end of year review to be undertaken by the Chief Risk Officer and the Senior Independent Director). Decisions in relation to the appointment and removal of the Banks' Risk Officer will need the support of the majority of the RFB-Only NEDs.
- 2 Banks' Committees only - Before meetings of the Banks' Committees, receive assurance from the Banks' Risk Officer regarding the risks facing the Banks and that potential RFB Conflict Matters have been properly identified and escalated to the Committee and the Bank Boards as appropriate.

- 5 Banks' Committees only - Consider any matter which the Banks' Risk Officer, supported by the Functional Risk Directors, has escalated as a matter where the Banks' Risk Officer seeks to veto the Chief Risk Officer, including matters relating to budgets, headcount, investment and reporting all as detailed in the Banks' Risk Officer role profile in place from time to time. Final determination of the matters would need to be escalated to the Committee's Board.
- 6 Banks' Committees only - Request from the Banks' Risk Officer such information as the Committee considers appropriate.
- 7 Banks' Committees only - The Banks' Risk Officer will be supported by the Functional Risk Directors who provide oversight of the relevant risks in the respective areas of business. They are primarily responsible to the Banks. The functional risk reporting process provides a clear view of the Banks to the Chief Risk Officer and this provides a safeguard to the independent consideration of the second line oversight from each of the Bank's perspective.

The Committee may also advise the Group Remuneration Committee and the Banks' Remuneration Committees on the consideration of risk in the assessment of performance adjustment under the UK regulatory regime.

- 2 Confirm that the report provided to the Group Remuneration Committee and the Banks' Remuneration Committees setting out the outcomes of the Group and Banks' end to end risk adjusted bonus process considers all relevant risk matters.
- 3 *The Chair (on behalf of the Committee) will recommend to the Group Remuneration Committee and the Banks' Remuneration Committees the outcome of performance assessment of the Risk Division and the outcome of individual risk adjustment for the Group Chief Risk Officer and persons reporting directly to them who work within Group Risk.*
