Our business model

Customer focused, sustainable, efficient and low risk UK financial services leader

Note: Please see further detail on Strategic Review 2021 in our Annual Report and Accounts 2020 available [here](#).
We will focus on five priority areas to Help Britain Recover

- **Help rebuild households’ financial health and wellbeing**
- **Support businesses to recover, adapt and grow**
- **Expand availability of affordable and quality homes**
- **Accelerate the transition to a low carbon economy**
- **Build an inclusive society and organisation**

**Focused on areas where we can make a difference**

**Supporting our enhanced ambitions**

- **>6,500 colleagues** trained to support customers build their financial resilience
- **£10bn lending to first time buyers**; continuing to support good quality social housing
- Supporting UK’s transition to a low carbon economy with expanded Group target of **net zero by 2050, or sooner**:
  - Help reduce carbon emissions we finance by **>50% by 2030**
  - Halve the carbon footprint of Scottish Widows investments by **2030**
  - Own operations carbon emissions **net zero by 2030**
  - Expand the funding available under our green finance initiatives from **£3bn** to **£5bn** in 2021
- Leadership team reflecting the society we serve; aspiration of **50% women, 3% Black and 13% Black, Asian and Minority Ethnic colleagues in senior roles by 2025**

*These priorities will enable us to build a sustainable and inclusive business which will also benefit our shareholders*
Environmental matters

Accelerate the transition to a low carbon economy
Our commitments

Helping Britain Recover commitments (2021) HBR

- Help reduce the emissions we finance by >50% by 2030 on path to net zero by 2050 or sooner

- Expand the funding available under our green finance initiatives from £3bn to £5bn

- Ensure our own operations are net zero by 2030

- Target halving the carbon footprint of Scottish Widows investments by 2030 on path to net zero by 2050

- Introduce a flagship fossil fuel-free fund

Further sustainability commitments

- Reduce power sector portfolio emission intensity to <75gCO₂e/kWh by 2030

- Reduce our total energy consumption by 50% by 2030 (vs 2018/19)

- Maintain travel carbon emissions below 50% pre-COVID (2018/9) levels

- Implement TCFD recommendations by early 2022 in line with industry guidelines and regulatory reporting requirements
Managing risk and leveraging opportunities from climate change are of strategic importance to us.

Managing risk and leveraging opportunities from climate change are of strategic importance to us.

Helping the transition to a sustainable low carbon economy

Continued progress against our climate ambitions

- Our ambition is to help reduce the emissions we finance by >50% by 2030, on path to net zero by 2050 or sooner
  - Established initial estimated financed emissions baseline
  - Developed power sector emission intensity reduction ambition
  - Provided >£2.3bn of green finance in 2020; >£7.3bn since 2016
  - Launched several new green propositions
  - Further developed our climate scenario analysis framework

- In 2021, will expand the funding available under our green finance initiatives from £3bn to £5bn

- Target halving the carbon footprint of Scottish Widows investments by 2030 on path to net zero by 2050

- Continued evolution of disclosures in line with TCFD recommendations

New climate pledges across our own operations

- Achieve net zero carbon operations by 2030; ≥75% reduction in Scope 1 & 2 emissions (vs 2018/19)
- Reduce our total energy consumption by 50% by 2030 (vs 2018/19)
- Maintain travel carbon emissions below 50% of pre-COVID (2018/9) levels

Managing risk and leveraging opportunities from climate change are of strategic importance to us.
Several green propositions supporting our climate and business ambitions

- **Clean Growth Finance Initiative** providing discounted lending for green purpose financing
- **Green Buildings Tool** helping businesses identify energy efficiency improvements to their buildings
- **Energy Saving Tool** developed with Energy Saving Trust to help improve energy efficiency of homes
- **Green Living Reward** towards green refurbishment of homes
- **Fuel Decision Tree tool** helping customers understand if their driving is suited to electric or hybrid car
- **Electric vehicle salary sacrifice** proposition to incentivise usage of electric vehicles
- £2bn investment in **BlackRock ACS Climate Transition Equity Fund** from our default pension offering
- Provide **direct loans for renewable energy/infrastructure projects** through shareholder investments
- Partnering with RedArc to offer a **trauma helpline** aiding customers after a traumatic claim like a fire
- Investing in ways to **minimise impact of flooding** on clients (e.g. Rapid Response Vehicle)
- **Raised around £2.9bn** funding in **green and sustainable bonds** for our clients since 2016
Climate risk further integrated into the Group’s risk management framework

Climate risk established as a principle risk

- Board approved Risk Appetite Statement for Climate Risk
- Assessed financed emissions baseline at \( c.25.4 \text{MtCO}_2\text{e} \)
- New Power sector ambition to reduce emission intensity to \(<75\text{gCO}_2\text{e/kWh by 2030}\)
- We will continue to develop additional sector specific ambitions throughout 2021

Footnotes

1. Impacts achieved against our 7 priority performance areas of the 2018 – 2020 Plan; the metrics are cumulative impact for 2018 – 2020 except the charities supported metric which is for 2020 and the diversity metrics which are as of year end 2020.

2. Excluding Insurance & Wealth.

3. Cumulative payment holidays granted as at 17 February 2021.

5. Data as at 12 February 2021.

6. Covers Commercial Banking large corporate and project finance portfolio facilities.

7. Lloyds Banking Group believes it is appropriate to provide more financial information on our financed emissions, although we also recognise this is a rapidly developing area, with evolving and sometimes limiting data availability, data completeness and calculation methodologies. We expect these to continue to improve in 2021 and beyond, helping us to refine our approaches, estimates and understanding of the climate risk within Lloyds Banking Group’s portfolios. However, in order to enhance disclosure, whilst recognising these limitations, we detail in this table an initial estimated view of the 2018 financed emissions baseline across the Group’s own lending activity (excluding Insurance and Wealth). We have used the emerging industry standard for calculating financed emissions developed by the Partnership for Carbon Accounting Financials (PCAF).

8. Includes Nil emissions for cash balances, which accounted for 8% of the Group’s balance sheet.

9. Examples of areas where there is no current method for calculating emissions include: Government securities, derivatives, personal loans, credit cards and reverse repos. Areas where data was not readily available, but coverage may be expanded in the future include: business banking, non-UK mortgages, loans and advances to banks and some assets at fair value through profit and loss.

10. Covers 95% of motor vehicle loans and operating lease assets. Excludes assets that do not have a motor, specialist vehicles and vehicles where mileage is difficult to estimate. Currently does not apply a loan-to-value ratio for emissions.

11. Covers 97% of mortgages. Excludes non-UK mortgages. Uses EPC emissions estimates for 45% of properties and average emission intensity profiles of EPC C to G properties to calculate emissions for the balance of properties where EPCs are not available. Property index value as at end 2018 is used for current property value in PCAF emission attribution calculations.

12. Includes 99% of Commercial Banking business loans, based on drawn lending. The PCAF sector-based approach has been used for the majority of the business loans baseline, using Office of National Statistics (ONS) UK emissions. The business loans method has been applied to project finance (excluding Power project finance) and commercial real estate assets, which will be refined in the future as better data becomes available.
Footnotes

13. Total UK emissions in 2018 were: 88 MtCO2e from cars and vans; c.100 MtCO2e from homes, including emissions from both electricity and heating; and 263 MtCO2e from business (excluding emissions from electricity used in residential property). Source: Department for Business, Energy and Industrial Strategy - 2018 UK Greenhouse Gas Emissions, Final Figures.

14. The Group has identified those sectors where we have lending to customers that may likely contribute a higher share of Lloyds Banking Group’s financed emissions as shown in this table. Not all customers in these sectors have high emissions or are exposed to significant transition risks. We continue to enhance and refine this work at both counterparty and sector level, considering both risks and opportunities as we look to support our customers’ responses to climate change. Commercial Banking and Retail divisions only. Excludes Insurance and Wealth division.

15. Commercial Banking division only, excludes Commercial Finance. Drawn lending is gross of significant risk transfers. Excludes Business Banking lending, which sits within Retail division. 2019 restated on a consistent basis with 2020. Percentages calculated using total Group loans and advances to customers on a statutory basis, before allowance for impairment losses (£504,603m at 31 December 2020). Commercial lending classified using ONS SIC codes at legal entity level.

16. Agriculture lending includes Agricultural Mortgage Corporation (AMC) based on loans and advances to customers £4,186m.

17. Includes Automotive manufacture, retail & wholesale trade, rentals and parts but excludes finance captives and securitisations.

18. Construction excludes 41100 Development of building projects (included within Real Estate) and 41202 Construction of domestic buildings (reported separately as Housebuilders).

20. Based on loans and advances to customers within Retail Division. Percentages calculated using total Group loans and advances to customers on a statutory basis, before allowance for impairment losses (£504,603m at 31 December 2020).

21. Including our colleagues’ time, direct donations and a share of the Group’s profits given annually to the Foundations.

22. Board data as of 31 December 2020 and therefore includes Lord Blackwell who retired from the Board on 1 January 2021.

23. Sara Weller will have served nine years as a Non-Executive Director in February 2021, and accordingly plans to retire as Chair of the RBC and a Non-Executive Director at the AGM in May 2021. Amanda Mackenzie, a Non-Executive Director since October 2018, will take on the role of Chair of the RBC following Sara’s retirement from the Board. Sarah Legg, a Non-Executive Director since December 2019 and Chair of the Audit Committee, has been appointed as a member of the RBC with effect from 1 February 2021.
Forward looking statements

This document contains certain forward looking statements within the meaning of Section 21E of the US Securities Exchange Act of 1934, as amended, and section 27A of the US Securities Act of 1933, as amended, with respect to the business, strategy, plans and/or results of Lloyds Banking Group plc together with its subsidiaries (the Group) and its current goals and expectations relating to its future financial condition and performance. Statements that are not historical facts, including statements about the Group's or its directors' and/or management's beliefs and expectations, are forward looking statements.

Words such as 'believes', 'achieves', 'anticipates', 'estimates', 'expects', 'targets', 'should', 'intends', 'aims', 'projects', 'plans', 'potential', 'will', 'would', 'could', 'considered', 'likely', 'may', 'seek', 'estimate' and variations of these words and similar future or conditional expressions are intended to identify forward looking statements but are not the exclusive means of identifying such statements.

Examples of such forward looking statements include, but are not limited to, statements or guidance relating to: projections or expectations of the Group's future financial position including profit attributable to shareholders, provisions, economic profit, dividends, capital structure, portfolios, net interest margin, capital ratios, liquidity, risk-weighted assets (RWAs), expenditures or any other financial items or ratios; litigation, regulatory and governmental investigations; the Group's future financial performance; the level and extent of future impairments and write-downs; statements of plans, objectives or goals of the Group or its management including in respect of statements about the future business and economic environments in the UK and elsewhere including, but not limited to, future trends in interest rates, foreign exchange rates, credit and equity market levels and demographic developments; statements about competition, regulation, disposals and consolidation or technological developments in the financial services industry; and statements of assumptions underlying such statements.

By their nature, forward looking statements involve risk and uncertainty because they relate to events and depend upon circumstances that will or may occur in the future.

Factors that could cause actual business, strategy, plans and/or results (including but not limited to the payment of dividends) to differ materially from forward looking statements made by the Group or on its behalf include, but are not limited to: general economic and business conditions in the UK and internationally; market related trends and developments; fluctuations in interest rates, inflation, exchange rates, stock markets and currencies; any impact of the transition from IBORs to alternative reference rates; the ability to access sufficient sources of capital, liquidity and funding when required; changes to the Group's credit ratings; the ability to derive cost savings and other benefits including, but without limitation as a result of any acquisitions, disposals and other strategic transactions; the ability to achieve strategic objectives; the Group's ESG targets and/or commitments; changing customer behaviour including consumer spending, saving and borrowing habits; changes to borrower or counterparty credit quality impacting the recoverability and value of balance sheet assets; concentration of financial exposure; management and monitoring of conduct risk; exposure to counterparty risk (including but not limited to third parties conducting illegal activities without the Group's knowledge); instability in the global financial markets, including Eurozone instability, instability as a result of uncertainty surrounding the exit by the UK from the European Union (EU), the EU-UK Trade and Cooperation Agreement, and as a result of such exit and the potential for other countries to exit the EU or the Eurozone and the impact of any sovereign credit rating downgrade or other sovereign financial issues; political instability including as a result of any UK general election and any further possible referendum on Scottish independence; technological changes and risks to the security of IT and operational infrastructure, systems, data and information resulting from increased threat of cyber and other attacks; natural, pandemic (including but not limited to the COVID-19 pandemic) and other disasters, adverse weather and similar contingencies outside the Group's control; inadequate or failed internal or external processes or systems; acts of war, other acts of hostility, terrorist acts and responses to those acts, or other such events; geopolitical unpredictability; risks relating to climate change; changes in laws, regulations, practices and accounting standards or taxation, including as a result of the UK's exit from the EU; changes to regulatory capital or liquidity requirements (including regulatory measures to restrict distributions to address potential capital and liquidity stress) and similar contingencies outside the Group's control; the policies, decisions and actions of governmental or regulatory authorities or courts in the UK, the EU, the US or elsewhere including the implementation and interpretation of key laws, legislation and regulation together with any resulting impact on the future structure of the Group; the ability to attract and retain senior management and other employees and meet its diversity objectives; actions or omissions by the Group's directors, management or employees including industrial action; changes to the Group's post-retirement defined benefit scheme obligations; the extent of any future impairment charges or write-downs caused by, but not limited to, depressed asset valuations, market disruptions and illiquid markets; the value and effectiveness of any credit protection purchased by the Group; the inability to hedge certain risks economically; the adequacy of loss reserves; the actions of competitors, including non-bank financial services, lending companies and digital innovators and disruptive technologies; and exposure to regulatory or competition scrutiny, legal, regulatory or competition proceedings, investigations or complaints. Please refer to the latest Annual Report on Form 20-F filed by Lloyds Banking Group plc with the US Securities and Exchange Commission for a discussion of certain factors and risks.

Lloyds Banking Group may also make or disclose written and/or oral forward looking statements in reports filed with or furnished to the US Securities and Exchange Commission, Lloyds Banking Group annual reviews, half-year announcements, proxy statements, offering circulars, prospectuses, press releases and other written materials and in oral statements made by the directors, officers or employees of Lloyds Banking Group to third parties, including financial analysts.

Except as required by any applicable law or regulation, the forward looking statements contained in this document are made as of today's date, and the Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward looking statements contained in this document to reflect any change in the Group’s expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. The information, statements and opinions contained in this document do not constitute a public offer under any applicable law or an offer to sell any securities or financial instruments or any advice or recommendation with respect to such securities or financial instruments.
