Your Dividend - Your Choice

The Board is recommending for approval at the AGM a final dividend payment of 1.5 pence per ordinary share in respect of the financial year ended 31 December 2015, making a total dividend for the financial year ended 31 December 2015 of 2.25 pence per ordinary share.

In addition, the Board is also recommending a capital distribution in the form of a special dividend of 0.5 pence per ordinary share, representing the distribution of surplus capital over and above the Board’s view of the current level of capital required to grow the business, meet regulatory requirements and cover uncertainties. If approved, the recommended special dividend will be paid at the same time and have the same record date as the recommended dividend in respect of the financial year ended 31 December 2015.

The Company will again be offering shareholders a choice of a share alternative to a cash dividend through its Dividend Reinvestment Plan (‘DRIP’). This option will also be available for cash paid from the special dividend. Shareholders can find out more about the DRIP on page 7 of this document.

Your Board of Directors

There have been a number of changes to your Board of Directors since the last AGM. Deborah McWhinney and Stuart Sinclair joined the Board as Independent Non-Executive Directors in December 2015 and January 2016 respectively. For more information on these appointments, please refer to the Explanatory notes on page 7 of this document.

Carolyn Fairbairn, an Independent Non-Executive Director, retired from the Board in October 2015. Dyfrig John, also an Independent Non-Executive Director, has notified the Board that he does not intend to seek re-election at the 2016 AGM. Both Carolyn and Dyfrig leave with our thanks and best wishes for the future.

Biographical details of each Director seeking election or re-election are set out in Appendix One on pages 14 and 15 of this document.

Recommendation

The Board considers that all of the resolutions in the notice of AGM are in the best interests of the Company and its shareholders as a whole and recommends unanimously that you vote in favour of them. Explanatory notes on resolutions

Resolution 1. Report and accounts
The Directors are required to present the Company’s accounts and the reports of the Directors and of the auditor for the year ended 31 December 2015 at the annual general meeting.

Resolutions 2 to 14. Re-election of Directors
There have been two new appointments to the Board since the annual general meeting was held in 2015. On 1 December 2015, Deborah McWhinney was appointed to the Board and on 4 January 2016, Stuart Sinclair was also appointed to the Board, both as Independent Non-Executive Directors of the Group. Deborah McWhinney and Stuart Sinclair stand for election in accordance with the Company’s articles of association (Resolutions 2 and 3).

The two new members of the Board have deep experience in banking and wider financial services. Deborah brings an extensive executive background in managing technology, operations and new digital innovations across banking, payments and institutional investment. Deborah also broadens the Board’s diversity from a global market perspective. Stuart has extensive experience in retail banking and insurance, and also brings to the Board wider experience in consumer finance and asset finance. These appointments help to ensure that the Board is well placed to address future technology and market risks across the full range of business areas in which the Group operates.

Carolyn Fairbairn retired from the Board on 31 October 2015 to take up the position of Director-General of the Confederation of British Industry in November 2015. Dyfrig John notified the Board that he wishes to reduce his workload and therefore does not intend to seek re-election at the 2016 AGM.

In accordance with the provisions of the UK Corporate Governance Code (the ‘Code’), all of the other Directors will retire and those willing to serve again will submit themselves for re-election at the annual general meeting (Resolutions 4 to 14).

The Chairman of the Board leads the rolling review of the Board’s effectiveness, as well as that of its Committees and individual Directors, with the support of the Nomination & Governance Committee, which he also chairs. The annual evaluation of the Board provides an opportunity to consider ways of identifying greater efficiencies, maximising strengths and highlighting areas for further development. The 2015 evaluation was facilitated externally by JCA Group between October 2015 and January 2016. The review was commissioned by the Chairman, assisted by the Company Secretary and overseen by the Nomination & Governance Committee.

At the time of the 2016 AGM, Anthony Watson will have been on the Board for more than seven years. Therefore, in compliance with the Code, his review was particularly rigorous.

Anthony Watson, the Senior Independent Director, carried out the evaluation of the Chairman’s performance using a questionnaire and individual meetings with Directors other than the Chairman.

The reviews concluded that the performance of the Board, its Committees, the Chairman and each of the Directors continues to be effective. All Directors demonstrated commitment to their roles.

Further information on the Board, the evaluation findings, including the roles and performance effectiveness of the Directors, can be found in the corporate governance report on pages 60 to 81 of the Annual Report and Accounts.

All Non-Executive Directors are independent in accordance with the criteria set out in the Code. The Chairman was independent on appointment.

A summary of the skills and experience of each Director proposed for election or re-election can be found in Appendix One on pages 14 and 15 of this document.

Resolution 15. Implementation report section of the Directors’ remuneration report
The Company is required to ask shareholders to approve by ordinary resolution the implementation of the Directors’ remuneration policy. The implementation report is set out in the Directors’ remuneration report and can be found on pages 82 to 83 and 90 to 102 of the Annual Report and Accounts for the year ended 31 December 2015.

In accordance with remuneration reporting rules, the vote on the implementation report is an advisory vote. This means that the Company can still act according to the implementation report as proposed if the resolution is not approved. However, if the resolution were not to be approved, the Company would take this into account when considering future remuneration reports.

At the Company’s AGM in 2017, according to remuneration rules, the Company will ask shareholders to vote on a new Directors’ remuneration policy. This will be a binding vote.

Resolution 16. Dividend
Shareholders are being asked to approve a final dividend of 1.5 pence per ordinary share in respect of the financial year ended 31 December 2015. An interim dividend for 0.75 pence per ordinary share was paid on 28 September 2015, making a total dividend for the financial year ended 31 December 2015 of 2.25 pence per ordinary share excluding the special dividend referred to in Resolution 17.

The recommended dividend is approved, it will be paid on 17 May 2016 to all ordinary shareholders whose names appear in the register of members at the close of business on 8 April 2016.

The Company will continue to offer a share alternative to a cash dividend through its Dividend Reinvestment Plan (“DRIP”). Shareholders who wish to join or cancel their participation in the DRIP before payment of the recommended dividend must provide their instruction to Equiniti for receipt no later than 5.00 pm on 22 April 2016. Shareholders can find further information about the DRIP on the Company’s website www.lloydsbankinggroup.com/investors

Subject to shareholder approval of the recommended final dividend, an entitlement notice in respect of the dividend paid and used to purchase shares under the DRIP will be dispatched by Equiniti to shareholders participating in the DRIP by 20 May 2016.

Resolution 17. Special dividend
The Board has recommended a special dividend of 0.5 pence per ordinary share, representing the distribution of surplus capital over and above the Board’s view of the current level of capital required to grow the business, meet regulatory requirements and cover uncertainties.

If the recommended special dividend is approved, it will be paid on 17 May 2016 to ordinary shareholders whose names appear in the register of members at the close of business on 8 April 2016.

The recommended special dividend is separate to, and if approved will be paid in addition to, the recommended final dividend in respect of the financial year also ended 31 December 2015. The DRIP is also available for cash paid under the special dividend.

Resolutions 18 and 19. Auditor
Resolution 18 proposes the re-appointment of PricewaterhouseCoopers LLP (‘PwC’) as auditor of the Company, to hold office until the conclusion of the next general meeting at which accounts are laid before the Company. The Company’s Audit Committee recommends the re-appointment of PwC.

Resolution 19 follows best corporate governance practice in authorising the Audit Committee to set the auditor’s remuneration.

The Audit Committee oversees the relationship with the external auditor. During the year, the Audit Committee considered the auditors’ terms of engagement (including remuneration), as well as their independence and objectivity. The Audit Committee also considered the effectiveness and performance of the auditor and the audit process, and concluded that it was satisfied with the auditor’s performance.

Further details of the work carried out by the Audit Committee are set out on pages 74 to 77 of the Annual Report and Accounts for the year ended 31 December 2015.
Explanatory notes on resolutions continued

The Company’s existing long-term incentive plan, the Lloyds Banking Group Long-term Incentive Plan 2006, is due to expire in May 2016. To ensure that the Company is able to continue to provide long-term incentive awards to selected senior employees, the Company is proposing to adopt a new long-term incentive plan, the Lloyds Banking Group Long-term Incentive Plan 2016 (the ‘LTIP’). The LTIP is similar to the existing plan in all material respects and the new rules have been drafted to comply with relevant regulatory requirements and market practice.

The principal features of the LTIP are set out in Appendix Two on pages 16 and 17 of this document.

The Company considers it important for all employees to have the opportunity to acquire shares in Lloyds Banking Group. In the UK, the Company currently operates the Lloyds Banking Group Sharesave and the Lloyds Banking Group Share Incentive Plan under which employees are given the opportunity to purchase shares using regular deductions from salary. There are currently no equivalent plans offered to employees in North America. Therefore, in order to enhance employee engagement and offer a competitive and tax-efficient reward package in North America, the Company is proposing to establish a U.S. tax-qualified employee stock purchase plan, the Lloyds Banking Group North America Employee Stock Purchase Plan (the ‘ESPP’).

The principal features of the ESPP are set out in Appendix Two on pages 16 and 17 of this document.

Resolution 22. Authority for the Company and its subsidiaries to make political donations or incur political expenditure

This resolution will renew the authority by which the Company, or a member of the Group or the Group taken as a whole, and in limited circumstances the flexibility to finance business opportunities outside of the Group with the consent of the Company or a member of the Group.

The powers contained in Resolution 22 are new powers, replacing Resolution 25.

Resolution 23. Directors’ authority to allot shares

This resolution (as in previous years) renews the Directors’ authority to allot shares.

It gives Directors the maximum flexibility permitted by corporate governance guidelines to respond to market developments and to enable allotments to take place to finance business opportunities as they arise.

The Directors consider it desirable to have this flexibility. Paragraph (i) gives the Directors the authority to issue new shares equal to approximately one third of the whole of the issued ordinary share capital of the Company (including the limited voting shares).

Information on the issued share capital can be found on page 11 of this document. No shares are held in treasury at this time.

This authority will expire at the conclusion of the next annual general meeting or on 30 June 2017, whichever is the earlier. There are no plans presently to undertake a rights issue or to allot new shares save that the Directors may, as part of capital management planning, authorise new issues of ordinary shares in an amount that is not material in relation to the Company’s capital.

For the purposes of this resolution ‘rights issue’ means an offer to:
(a) ordinary shareholders in proportion (or as near as may be practicable) to their existing holdings; and
(b) people who are holders of other equity securities if this is required by the rights of those securities or, if the Directors consider it necessary, as permitted by the rights of those shares, to subscribe for further securities by means of the issue of a renounceable letter (or other negotiable document) which may be traded for a period before payment for the securities is due, but subject in both cases to such exclusions or other arrangements as the Directors may deem necessary or expedient in relation to treasury shares, fractional entitlements, record dates, legal, regulatory or practical problems in, or under the laws of, any territory or jurisdiction.

Resolution 24. Directors’ authority to allot shares in relation to the issue of Regulatory Capital Convertible Instruments

This resolution, as in previous years, renews the Directors’ authority to allot shares or grant rights to subscribe for or convert any security into shares, in accordance with section 551 of the Companies Act 2006 up to an aggregate nominal amount of £1,250,000,000 in connection with the issue of Regulatory Capital Convertible Instruments. The Board believes it is in the best interests of the Company to have the flexibility to issue Regulatory Capital Convertible Instruments at any time and from time to time. The authority sought in this resolution will be utilised as considered desirable to comply with or maintain compliance with any regulatory capital requirements or targets applicable to the Group.

The Company intends to seek to renew authority for the issuance of such Regulatory Capital Convertible Instruments on an annual basis. The amount of this authority is, in aggregate, equivalent to approximately 17.49 per cent of the issued ordinary share capital of the Company (including the limited voting shares) as at 23 March 2016, being the last practicable date before the publication of this document. No ordinary shares are held in treasury.

Resolutions 24 and 26 are intended to provide the Directors with the flexibility to authorise the issue of Regulatory Capital Convertible Instruments which contain contractual debt to equity conversion features. The resolutions are not intended to provide authority for any bail-in or conversion of capital or senior debt obligations pursuant to the Bank Act 2009, as amended, or otherwise.

This is separate and distinct from the authority sought in Resolution 23 which is the usual authority sought on an annual basis in line with the share capital management guidelines issued by The Investment Association. Conditional upon the passing of Resolutions 24 and 26, the Directors would not expect to make use of Regulations 23 and 25 to issue Regulatory Capital Convertible Instruments, although these resolutions may be used for other purposes if so used, would have the effect of diluting the interests of ordinary shareholders.

Regulatory Capital Convertible Instruments are additional tier 1 (‘AT1’) instruments which convert into ordinary shares of the Company. The Company’s common equity tier 1 ratio fell below a contractually defined trigger point.

For the purposes of this resolution ‘Regulatory Capital Convertible Instruments’ means any securities to be issued by the Company or any member of the Group, or by a company outside of the Group with the consent of the Company or a member of the Group and which are intended on issue to form all or part of a type or class of securities the terms of which are eligible to meet any Regulatory Capital Requirements and which are:
(i) convertible into or exchangeable for ordinary shares of the Company; or
(ii) issued together with share warrants relating to ordinary shares of the Company,

and in each case, which grant to, or require, the holder of such security and/or its nominee a right or obligation (as applicable) to subscribe for such ordinary shares following a specified event relating to an actual or prospective adverse change in the capital position or viability of the Company, any member of the Group or the Group as a whole or any other event specified in the Regulatory Capital Requirements as defined below and otherwise on such terms as may be determined by the Directors of the Company or a committee thereof upon issue;
Resolution 25. Limited disapplication of pre-emption rights

The Companies Act 2006 requires that the allotment of new shares or other equity securities shall be offered first to shareholders in proportion to their existing holdings.

The passing of this resolution would (as in previous years) allow Directors in limited circumstances the flexibility to finance business opportunities by allotment of ordinary shares without first offering them to existing shareholders in proportion to their existing holdings.

The purpose of paragraph (i) of Resolution 25 is to authorise the Directors to allot new shares pursuant to the authority given by paragraph (i) of Resolution 23, or sell treasury shares (if the Company were to hold shares in treasury), for cash in connection with a pre-emptive offer or rights issue or otherwise up to a nominal value of £714,564,564 equivalent to 10 per cent of the total issued ordinary share capital of the Company excluding treasury shares as at 23 March 2016, in each case without the shares first being offered to existing shareholders in proportion to their existing holdings. For the purposes of calculating this percentage, there are no shares held in treasury.

In applying the powers to be granted by virtue of this resolution, the Company intends also to adhere to the Pre-Emption Group’s Statement of Principles, as updated in March 2015, and not allot shares for cash on a non-pre-emptive basis pursuant to the authority in paragraph (i) of Resolution 25:

(a) in excess of an amount equal to 5 per cent of the total issued ordinary share capital of the Company (including limited voting rights but excluding treasury shares); or

(b) in an amount equal to 7.5 per cent of the total issued ordinary share capital of the Company (excluding treasury shares) within a rolling three-year period, without prior consultation with shareholders.

For the purposes of this resolution:

(a) ‘rights issue’ has the same meaning as in the Explanatory note to Resolution 23;

(b) ‘pre-emptive offer’ means an offer of equity securities open for acceptance for a period fixed by the Directors to (i) holders of ordinary shares (other than the Company) in the register of members on a record date fixed by the Directors in proportion to their respective holdings, and (ii) other persons so entitled by virtue of the rights attaching to any other equity securities held by them, but subject in both cases to such exclusions or other arrangements as the Directors may deem necessary or expedient in relation to treasury shares, fractional entitlements, record dates, legal, regulatory or practical problems in, or under the laws of, any territory or jurisdiction;

(c) references to an allotment of equity securities shall include a sale of treasury shares; and

(d) the nominal amount of any securities shall be taken to be, in the case of rights to subscribe for or convert any securities into shares of the Company, the nominal amount of such shares which may be allotted pursuant to such rights.

Resolution 26. Limited disapplication of pre-emption rights in relation to the issue of Regulatory Capital Convertible Instruments

This resolution proposes that, without prejudice to any existing power including that contained in Resolution 25, the Directors be empowered to allot equity securities (as defined in section 560(1) of the Companies Act 2006) up to an aggregate nominal amount of £1,250,000,000 in relation to the issue of Regulatory Capital Convertible Instruments wholly for cash or otherwise as if section 561 of the Companies Act 2006, to the extent applicable, did not apply to any such allotment. This is equivalent to approximately 17.49 per cent of the issued ordinary share capital of the Company (including the limited voting shares) as at 23 March 2016, being the last practicable date before the publication of this document.

Renewing this resolution will permit the Company the flexibility necessary to allot equity securities pursuant to any proposal to issue Regulatory Capital Convertible Instruments and, in virtue of such disapplication, without the need to comply with the pre-emption requirements of the UK statutory regime.

For the purposes of this resolution, Regulatory Capital Convertible Instruments have the same meanings as in the Explanatory notes to Resolution 24.

Resolutions 27 and 28. Authority to purchase ordinary shares and preference shares

These resolutions renew the authority of the Company to purchase its own ordinary shares and certain of its preference shares (as specified in the resolution wording) in the market.

The authority for the Company to purchase its ordinary shares in the market is limited to 7,145,466,640 ordinary shares, equivalent to 10 per cent of the issued ordinary share capital of the Company (including the limited voting shares) as at 23 March 2016, being the last practicable date before the publication of this document.

Any ordinary shares purchased in this way may be cancelled or held in treasury for eventual sale for cash,转让 in connection with an employees’ share plan or cancellation. The resolution explicitly authorises the Company to use any shares purchased and held in treasury for the purposes of its employees’ share plans.

If any shares were used in this way, the Company would take them into account when calculating the share issuing limits in the share plans, to the extent required under the share capital management guidelines issued by The Investment Association. There is no limit on the number or value of preference shares that can be purchased.

For the purposes of this resolution, the Company proposes to purchase its ordinary shares in the market:

Appendix One
(b) Untraceable shareholders and unclaimed dividends

Existing articles 45 and 119 of the Company’s articles of association, which relate to untraceable shareholders and unclaimed dividends, have been updated in the proposed new articles of association to reflect developing practice. In particular, the proposed new articles of association update the process to be adopted by the Company for notifying untraceable shareholders of their holdings (being those shareholders who cannot be traced after a period of 12 years during which three dividends have become payable but remain unclaimed) and selling the shares in the Company that are held by such shareholders who are untraceable. The proposed new articles of association dispense with the current requirement for the Company to place notices in respect of such untraceable shareholders in local and national newspapers. Instead there will be a requirement to use reasonable efforts to trace the relevant shareholder and notify them that the Company intends to sell their share unless the shareholder makes contact with the Company. The Company will be entitled to use the sale proceeds for its general corporate purposes.

The proposed new articles of association amend the position set out in existing article 119 to clarify that the Company is not required to account for any dividends that remain unclaimed after a period of 12 years or other money in respect of any untraceable shares that are sold. The Company will be entitled to use such unclaimed dividends or money for its general corporate purposes.

The changes will give the Company more flexibility when trying to trace shareholders as compared with the current articles of association. The Company considers that these changes reflect best practice and are for the benefit of shareholders as a whole.

c) Directors’ fees

The Company’s existing articles of association do not set out the amount of the ordinary remuneration that may be payable to the Directors (being the base fee payable to Non-Executive Directors, excluding the Chairman) in any one year other than providing that the amount may be determined by ordinary resolution of the Company (existing article 76). The current limit on the aggregate amount of such ordinary remuneration that may be paid to the Directors is £750,000. This was set by an ordinary resolution passed by shareholders on 11 May 2006 at the Company’s 2006 AGM.

The proposed new articles of association provide that the aggregate amount of ordinary remuneration that may be paid to the Directors, to be divisible amongst them, shall be in a sum not exceeding £1,000,000 in any one year unless another amount is determined by ordinary resolution passed by shareholders at a general meeting of the Company. Guidance previously published by the Association of British Insurers (now the Investment Association) recommends that a company’s articles of association state a monetary cap on the amount of aggregate fees payable to directors. The increase in aggregate ordinary remuneration provides additional flexibility over the number of Directors on the Board and takes into consideration an increase in the base fee payable to each Director from £65,000 to £75,000 with effect from 1 January 2016, being the first increase in the base fee since 1 January 2008.

The proposed new articles of association also amend the position of existing article 77 to clarify that any extra remuneration or other benefits paid to a Non-Executive Director in connection with any additional responsibilities that they may have to the Company falls outside of the £1,000,000 aggregate limit. Additional responsibilities include being the chairman or member of a committee or being appointed to the position of Deputy Chairman or Senior Independent Director.

A full list of Non-Executive Directors’ fees is provided on page 97 of the Annual Report and Accounts for the year ended 31 December 2015.

d) Ancillary amendments

Reference to articles that have previously been removed from the Company’s existing articles of association have also been deleted in the proposed new articles of association. Subsequent numbering of the articles and relevant cross references have also been amended.

The articles of association, including the amended form of articles of association that are proposed to be adopted by Resolution 29, are available for inspection during normal business hours on any weekday (Saturdays, Sundays and public holidays excepted) at the head office of the Company at 25 Gresham Street, London EC2V 7HN and at the registered office of the Company at The Mound, Edinburgh EH1 1YZ up to and including the date of the AGM. These documents will also be made available for inspection at the Edinburgh International Conference Centre, The Exchange, Edinburgh EH3 8EE from 10.00 am on Thursday 12 May 2016 until the end of the AGM.

Resolution 30. Notice period for general meetings

Under the Companies Act 2006, the notice period required for all general meetings of the Company is 21 clear days. However, shareholders can approve a shorter notice period of not less than 14 clear days for general meetings other than annual general meetings. Guidance under the UK Corporate Governance Code provides that at least 14 working days’ notice should be given for general meetings other than annual general meetings. Guidance published by The Institute of Chartered Secretaries and Administrators recommends that, whilst companies should aspire to give the longer notice periods, the 14 clear days notice period is the statutory notice period in respect of which companies are required to comply.

Accordingly, this resolution seeks to obtain shareholder approval for a notice period for general meetings (other than annual general meetings) of 14 clear days as required by the Companies Act 2006 and in accordance with guidance issued by Institute of Chartered Secretaries and Administrators.

It is the Company’s intention only to use this authority in circumstances when it would disadvantage the Company to delay shareholder approval for an urgent matter concerning, for instance, the issue or alteration of share capital. It is not intended to use this authority for routine Company business. The Company would aspire to provide shareholders with as much notice as possible and will, should it be necessary to use this authority, provide shareholders with a clear explanation as to why a shorter notice period is necessary.

The resolution shall be valid until the conclusion of the next annual general meeting (unless the authority granted by the resolution is renewed at a general meeting of the Company before then) and it is the Company’s intention to renew the authority at each annual general meeting.

Annual general meetings will continue to be held on at least 21 clear days’ notice.
Important notes

Issued capital and voting rights
As at 23 March 2016 (being the last practicable date prior to the publication of this document) the total number of shares, including shares represented by American Depositary Receipts, issued by Lloyds Banking Group plc was 71,454,656,408 ordinary shares of 10 pence each. At this date, no shares were held in treasury. 80,921,051 limited voting shares of 10 pence each are in issue and held by the Lloyds Bank Foundations. These shares do not entitle the holders to vote at general meetings except in certain limited circumstances. Each ordinary share of 10 pence carries one vote. Therefore the total number of voting rights is 71,373,735,357.

Nominated Persons may have a right under an agreement with the registered shareholder who holds the shares on their behalf to be appointed (or to have someone else appointed) as a proxy. Alternatively, if Nominated Persons do not have such a right, or do not wish to exercise it, they may have a right under such an agreement to give instructions to the person holding the shares as to the exercise of voting rights.

Questions at the AGM
Shareholders, their appointed proxies and authorised corporate representatives have the right to ask questions at the AGM relating to the business of the meeting. The Company must cause to be answered any such question relating to the business being dealt with at the meeting but no such answer need be given if:

(a) to do so would interfere unduly with the preparation for the meeting or involve the disclosure of confidential information;

(b) the answer has already been given on a website in the form of an answer to a question; or

(c) it is undesirable in the interests of the Company or good order of the meeting that the question be answered.

If you intend to come to the AGM and would like to ask a question about the business of the meeting, you may register it in advance by sending it by email to AGMquestions@lloydsbanking.com. This should not be used to raise personal enquires. If your question is not a matter for the AGM it may be referred to an appropriate team to respond. If you choose not to attend the meeting your question will not be raised at the AGM on your behalf.

Shareholders are asked to be concise to ensure others who wish to ask a question are able to do so.

You may not use any electronic address provided either in this notice of AGM or any related documents to communicate with the Company for any purpose other than those expressly stated. Any electronic communication sent by a shareholder to the Company or Equinit that is found to contain a computer virus will not be accepted.

Electronic communication facilities are available to all shareholders and those who use them will not be disadvantaged. Shareholders who decide to use them will receive an electronic mail message sent to the electronic address registered. This will give details of the location on the Company’s website www.lloydsbankinggroup.com where this notice, together with other relevant documents and information may be viewed. The Company will not regard itself as responsible for any failure in transmission beyond its control. There is no particular software needed, other than that which is described and is available on the Company’s website.

Right to include a resolution at the AGM
Under sections 338 and 338A of the Companies Act 2006, members who satisfy the threshold requirements in those sections have the right to require the Company:

(i) to give, to members of the Company entitled to receive notice of the meeting, notice of a resolution which may properly be moved and is intended to be moved at the meeting, and/or

(ii) to include in the business to be dealt with at the meeting any matter (other than a proposed resolution) which may properly be included in the business.

A resolution may properly be moved or a matter may properly be included in the business unless:

(a) (in the case of a resolution only) it would, if passed, be ineffective (whether by reason of inconsistency with any enactment or the Company’s constitution or otherwise);

(b) it is defamatory of any person; or

(c) it is frivolous or vexatious.

Such a request may be in hard copy form or in electronic form, and must identify the resolution of which notice is to be given or the matter to be included in the business, must be authorised by the person or persons making it, must have been received by the Company not later than 30 March 2016, being the date six clear weeks before the meeting, and (in the case of a matter to be included in the business only) must be accompanied by a statement setting out the grounds for the request.

Right to publish a statement about the auditor
Under section 527 of the Companies Act 2006, members who satisfy the threshold requirements set out in that section have the right to require the Company to publish on a website a statement setting out any matter relating to:

(i) the audit of the Company’s accounts (including the auditor’s report and the conduct of the audit) that are to be laid before the annual general meeting for the financial year ended 31 December 2015; or

(ii) any circumstances connected with an auditor of the Company ceasing to hold office since the previous meeting at which an Annual Report and Accounts were laid.

The Company may not require the shareholders requesting any such website publication to pay its expenses in complying with sections 527 or 528 (requirements as to website availability) of the Companies Act 2006.

Where the Company is required to place a statement on a website under section 527 of the Companies Act 2006, it must forward the statement to the Company’s auditor no later than the time when it makes the statement available on the website. The business which may be dealt with at the AGM for the relevant financial year includes any statement that the Company has been required under section 527 of the Companies Act 2006 to publish on a website.

Glossary of terms

The following is a brief explanation of some of the terms used within this notice of AGM and the Annual Report and Accounts or which may commonly also be used during the course of the AGM.

This glossary of terms is not intended to provide legal guidance or advice. Shareholders are advised to seek independent legal or financial advice with regards to any matters contained in this notice of AGM.

Additional Tier 1 Capital/instruments
This relates to capital instruments other than ordinary shares that meet the regulatory requirements for Tier 1 Capital. They may include instruments that convert into ordinary shares in certain circumstances.

American Depositary Receipts (‘ADRs’)
An ADR is a negotiable certificate issued by a U.S. bank representing a specified number of shares in non U.S. stock in respect of a non U.S. company that is traded on a U.S. exchange.

Annual General Meeting (‘AGM’)
A public company is required in law to hold an AGM with its shareholders and to table its accounts within six months of the end of its preceding financial year.

Basel III
This is a global regulatory standard on banking, issued by the Basel Committee on Banking Supervision, designed to strengthen capital requirements through increasing liquidity whilst reducing leverage and increasing prudential soundness of banks.

Capital
In its simplest terms, capital relates to the financial resources available for a company’s use. The amount of capital available is usually calculated by deducting a company’s total liabilities from its total assets.

Capital buffers
This is the amount of capital a bank holds over and above the minimum regulatory requirements. In general the regulators will set capital requirements that they expect the bank to hold, and management will set additional capital buffers to mitigate against the risk of using the regulatory buffers. During periods of economic growth, regulators will set higher capital buffers to minimise the risk of exposure to financial stress during periods when the economy shrinks (recession).

Capital Requirements Directive IV (‘CRD IV’)
This is the EU implementation of Basel III which introduces a supervisory framework on capital measurement and capital standards. This also includes rules on remuneration.

Common Equity Tier 1 Capital (‘CET1’)
This is the highest quality form of regulatory capital under CRD IV and comprises common shares issued and related share premium, together with other reserves and earnings and taking into account specified regulatory adjustments.

Contingent or Regulatory Capital Convertible Instruments
These are securities which are designed to absorb losses of Common Equity Tier 1 Capital (CET1) in stress. If the capital falls below a contractually agreed level, the security or instrument converts into ordinary shares at an agreed price, thus increasing CET1 capital. These securities must meet a number of requirements to be recognised as regulatory capital instruments.

Financial Conduct Authority (‘FCA’)
The FCA was formed as one of the successors to the Financial Services Authority. It is responsible for regulating firms providing financial services to consumers, regulating the conduct of retail and wholesale financial services firms, whilst maintaining the integrity of the UK’s financial markets.

Leverage ratios
This is the ratio of Tier 1 Capital to total exposure to debtors and other obligations and is expressed in percentage terms. This equates to the number of times the exposure exceeds such Tier 1 Capital. The leverage ratio can be used to provide insight into a company’s ability to absorb losses through capital held.

Basel III introduced a standard which is expected to require banks to hold a minimum leverage ratio in excess of 3 per cent by January 2018.

Pre-Emption Group (see The Investment Association)
This group, formed by the Association of British Insurers and the National Association of Pension Funds, now named the Pension and Lifetime Savings Association, together with City and industry representatives, controls and monitors the issue of equity securities by listed public companies.

Profit before tax
Before a company calculates its profits on which tax is payable it is allowed to deduct its expenses including operating expenses and interest payments on debt instruments or loans. The resulting figure is the profit the company has made before it inures its tax liability.

Prudential Regulation Authority (‘PRA’)
The PRA was formed as one of the successors to the Financial Services Authority. It is responsible for the prudential regulation and supervision of banks, building societies, credit unions, insurers and major investment firms.

Risk Weighted Assets (‘RWA’)
This relates to the assets of a company which will include for example cash, debt owed to the company, property and investments. These are assigned risk weightings between 0 per cent and 1,250 per cent according to the level of risk associated with that asset with riskier assets having higher weighting. As an example, an unsecured loan is generally likely to be considered riskier (in terms of the ability to receive repayment in full) than a loan secured with collateral such as property. The total of risk weighted assets is used to calculate a company’s required capital.

The Investment Association
The body formed as a result of a merger between the Investment Affairs division of the Association of British Insurers and the Investment Management Association which represents UK investment managers and has assumed responsibility for all guidance previously issued by the Association of British Insurers.

Tier 1 Capital
Tier 1 Capital is capital of the Group that meets a number of regulatory requirements designed to demonstrate that it is highly permanent and capable of absorbing losses. It contains only Common Equity Tier 1 Capital and other capital instruments that meet these requirements (Additional Tier 1 Capital).

UK Listing Authority or UKLA
The FCA acting as the UKLA focuses on companies whose shares are admitted to trading in the UK and its Listing Rules set out obligations on listed companies.

Underlying profit
This is used by companies to show what they believe to be an accurate reflection of the profit position of the company. This is not based on the regulatory standards required to be applied to accounting standards and reports and may exclude one off charges or events.

Wholesale funding
This is a common method of fund raising by companies where large sums of capital are borrowed from other institutions. It is often a quick method of obtaining capital as it takes the form of loans rather than the issuance of bonds or shares.

Appendix Two - Incentive Plans

The principal terms of the Lloyds Banking Group Long-term Incentive Plan 2016 (the ‘LTIP’) and the Lloyds Banking Group North America Employee Stock Purchase Plan 2016 (the ‘ESPP’, together the ‘Plans’) are set out below.

The Plans are administered by the Remuneration Committee of the Company or such other authorised person(s), as appropriate (the ‘Committee’).

The Lloyds Banking Group Long-term Incentive Plan 2016

Overview

The LTIP replaces the Company’s existing long-term incentive plan, the Lloyds Banking Group Long-term Incentive Plan 2006, which is due to expire in May 2016, and is materially similar in all respects. Under the LTIP, conditional share awards and options (‘Awards’) may be granted at the discretion of the Committee. The vesting of Awards may be subject to the satisfaction of a performance condition which will be measured over a performance period determined by the Committee (typically three financial years). Awards to Executive Directors will always be subject to a performance condition as set out in the Company’s approved remuneration policy.

Grant of Awards

Awards under the LTIP will normally only be granted within 42 days after shareholders’ approval of the LTIP or the announcement of the Company’s results for any period. Awards may also be granted at other times in exceptional circumstances.

Eligibility

Any employee or Executive Director of the Company, any of its subsidiaries or designated associated companies are eligible to participate in the LTIP, subject to any selection criteria that the Committee may set.

Performance conditions

Any performance condition must be specified at the date the Award is granted. It can be waived or varied by the Committee in limited circumstances where it reasonably considers it appropriate to do so provided that any amended performance condition is no less difficult to satisfy.

Other conditions may be imposed and must be specified at the date the Award is granted.

Details of performance conditions applicable to Awards granted to the Executive Directors will be set out in the Company’s approved remuneration policy.

Retention period

Vested shares received by Executive Directors may be subject to a retention period in line with regulatory requirements.

Individual limits

Under the LTIP, the market value of shares comprised in an Award granted in respect of any financial year may not exceed 300 per cent of the participant’s annual basic salary. However, in exceptional circumstances and subject to any applicable limit under the Company’s approved remuneration policy and any regulatory requirements, the Committee may determine that Awards be granted in excess of that limit.

Deferral, malus and clawback

Awards may and, where required by regulatory or corporate governance requirements, will be subject to deferral, malus and clawback as set out in the Company’s deferral and performance adjustment policy, as amended from time to time, and the Company’s remuneration policy. In addition, vesting or exercise of an Award may be delayed where there is an ongoing investigation to determine whether malus should be applied.

Dividend equivalent

Subject to any regulatory requirements, additional shares or cash may be awarded on the vesting or exercise of Awards under the LTIP to take account of dividends that would have been paid on the number of shares which vest between grant and vesting.

Leaving employment and death

Participants who leave employment will normally forfeit their Awards when they leave. However, Awards will not be forfeited if participants leave due to: ill-health; injury; disability; retirement; redundancies; death; the sale or transfer of their employing company or business out of the Group; or, at the discretion of the Committee, for any other reason. Where this applies, an Award which is subject to a performance condition will normally continue until the normal vesting date. The performance conditions will then be applied and the number of shares acquired will be reduced on a pro rata basis to take account of the proportion of the performance period when the participant was not in employment. In exceptional circumstances and on death, an Award may vest immediately on leaving employment or on death but only to the extent that any performance conditions have, in the opinion of the Committee, been satisfied up to the date of leaving or death. Awards will be pro rated for time as described above.

Change of control and other corporate events

In the event of a takeover, scheme of arrangement, merger or other corporate event, Awards will generally vest at the time of the relevant event to the extent that any performance conditions have been satisfied at that time. The number of shares received will be reduced pro rata to reflect the acceleration of Awards, unless the Committee decides otherwise. Alternatively, participants may be required or allowed to exchange their Awards for equivalent awards over shares in the acquiring company.

The Lloyds Banking Group North America Employee Stock Purchase Plan 2016

Overview

The ESPP is a U.S. tax-qualified employee stock purchase plan under which eligible employees are offered the opportunity to acquire shares in the Company. Under the ESPP, participants elect to save a proportion of their regular salary in exchange for the grant of an option. At the end of the savings period, the participants are able to exercise the option using their accumulated savings and acquire shares at a discount. It is intended that shares purchased under the ESPP will be provided in the form of American Depositary Receipts (‘ADRs’).

The U.S. tax rules governing employee stock purchase plans require the Company to state in the plan rules the aggregate number of shares that will be available for purchase by the employees. The total number of shares that will be made available under the ESPP will not exceed 3,000,000 American Depositary Receipts (each ADR representing 4 ordinary shares of 10 pence each).

Eligibility

All employees of any U.S. or other subsidiary designated by the Committee must be invited to participate in the ESPP. The Committee may adopt such eligibility requirements for each operation of the ESPP as it determines provided that such eligibility requirements are in compliance with the U.S. tax rules and are applied equally to all employees.

Savings period

Under the ESPP, participants agree to save for a period up to 27 months as determined by the Committee (currently intended to be six months). For each operation of the ESPP, the Committee will determine the maximum amount an employee can elect to save under the ESPP (currently intended to be US$800 per month). This amount will not exceed the annual employee purchase limit under the U.S. tax rules for employee stock purchase plans (currently US$ 25,000).
Appendix Two – Incentive Plans

Currently US$ 25,000. This amount will not exceed the annual employee purchase limit under the U.S. tax rules for employee stock purchase plans under the ESPP (currently intended to be US$800 per month).

For each operation of the ESPP, the Committee will be required or allowed to exchange their Awards for equivalent options over shares in the acquiring company or the amounts saved (including any interest, as applicable) may be returned to participants.
